W. R. Hollowell ..... Wayne County
W. L. Hill ..... Pender County
A. F. Johnson ..... Sampson County

LETTER OF TRANSMITTAL.

GOLDSBORO, N. C., December 8, 1904.

To His Excellency, CHARLES B. AYCOCK, *Governor:*

As chairman of the Board of Directors of the State Hospital at Goldsboro, I again respectfully submit our report for your consideration. The report of Dr. J. F. Miller has been carefully considered and approved by your Board of Directors, and it is gratifying to us, and doubtless to yourself and to the public at large, to note his efficient and economic management of this large State charity. I especially call your attention to the fact that a first-class cold-storage and ice factory has been installed the past year without an appropriation by the State, but from money made by the industrial enterprises of the Hospital.

Your attention is also respectfully invited to the recommendation of the Superintendent for an annual appropriation of $60,000 for maintenance and repairs, and $40,000 as a special appropriation for a building and its furnishings for female patients, for an eighty-horse-power boiler and for an extension of a spur of the North Carolina Railroad from our coal-bins to our boiler-house, being a distance of a little less than a half-mile. This Hospital also needs a small appropriation of about $2,500 for a building and its furnishings to care for tuberculous male patients. We sincerely hope your Excellency will approve these several recommendations, and that the approaching Legislature will fully appreciate the necessity for the same.

All of which is most respectfully submitted by.

Your obedient servant,

ELISHA PORTER,
Chairman.

153396

SUPERINTENDENT'S REPORT.

GOLDSBORO, N. C., December 8, 1904.

Gentlemen of the Board of Directors:

In the providence of God we are permitted to meet here to consider the affairs of this Hospital, and it is my pleasure and also duty to inform you of its present condition and all things appertaining thereto which you as its guardians should know. This report is for the biennial period dating from November 30, 1902, to November 30, 1904, and includes, of course, the report I made to you in December, 1903. At the beginning of this biennial period there were on the rolls of this Hospital 481 patients—198 males and 283 females. During that period we have received 273 patients—113 males and 160 females. Total under treatment, 754. Daily average population, 521 35-100. Discharged during 1903-'04, 225 patients; as recovered, 89; as improved, 9; as unimproved, 1. Died, 120. Remaining December 1, 1904, 529—220 males and 309 females. Percentage of cures on admission, 32 95-100; percentage of deaths on number treated, 9 51-100.

I regret that the professional work of the past two years in its results has not been altogether so satisfactory as usual, and yet the medical staff of the Hospital has never been more faithful and conscientious in the discharge of duty, and probably never so laborious in consequence of increased amount of sickness during a portion of the period embraced by this report, especially during an epidemic of a malignant form of dysentery which swept through our Hospital during the months of April and May, 1903.

Tuberculosis continues to do its deadly work, and has claimed for its victims about twenty-eight per cent. of those

who have died during the period. I will state for your information that the epidemic of dysentery was confined to our female population, and hence we judged that the cause was inside the building, but we knew not how nor where, unless it was on the walls of the building; so we proceeded to remove all the accumulated whitewash on the walls of rooms and corridors throughout every building occupied by females. This was almost a Herculean task, and the walls afterwards were treated to a coat of whitewash and bichloride of mercury.

I am glad to state that we have had no epidemic during the past twelve months, and, with the exception of tuberculosis, the health of the Hospital has been good. In consequence of the character of our population, we cannot reasonably hope for a favorable comparison with results of hospitals for the white people, yet our mortality is much less than what obtains in most Southern hospitals among a population of like character as ours. Hoffman, who has spent years in laborious research and has written a book on the negro race, presents a wealth of statistics, nowhere else to be found, demonstrating the fact that under every condition the Caucasian is a stronger race than the negro, more resisting to the encroachments of disease and less yielding to its destructive influences; and hence, under like conditions, the mortality everywhere is much greater among the colored than the white population. These tests have been made both in civil and military life, in cities and armies of many countries.

The Legislature of 1899 appropriated $50,000 for enlargement of this Hospital, but unfortunately the Treasury was so depleted by other demands that the Hospital received but $20,000 of the amount appropriated. The building erected with this money was intended for the accommodation of male patients, but we have been compelled to place female patients on the second floor of this building. Believing that the Legislature of 1901 would make provision for supplying this Hospital with the remaining $30,000 due, we began receiving

every worthy patient who applied for admission, and we soon filled the new building with a hundred and fifty admissions for the year, since which time our wards have been crowded, and a large number of worthy applicants have been refused for want of room.

An impression has been made on the minds of some people of intelligence that the State of North Carolina is doing more in the way of caring for the negro insane than the whites. This is a great mistake. The negro population, approximately, is one-third of the white population, and yet the State has expended for buildings and other equipments for the care of her colored insane but little more than one-sixth as much as for the care of the white insane. If, with this comparatively small appropriation, there is proportionately a larger number of colored insane cared for, it shows on the part of the Board of Directors for the colored a wise and economical business management rather than large appropriations by the State. Our buildings are inexpensive, but neat, substantial and well adapted for the purposes of their construction.

In this connection I will remark that the State of Virginia has a colored population about the same as North Carolina, and is now caring for more than twice as many as can be cared for in the State Hospital at Goldsboro. In view of the number of applications that have come to this office and that have been rejected the past two years for want of room, I am sure that if we had accommodations we could readily add to our population one hundred patients within the next twelve months. Such provision ought to be made, and I indulge the hope that it will be made by the incoming Legislature.

IMPROVEMENTS AND REPAIRS.

At our meeting in April, 1903, it was determined to change the closets on that part of the female wards where it was impossible to properly ventilate them, these being three in number—one on each of the three stories of the building. This

change gives us five additional beds and largely repays the money expended in constructing the closets. For years we have been asking the Legislature for an appropriation to erect separate buildings as a means of dissociating our tubercular cases from other patients. So far as our females are concerned, we have solved this problem for the present at a cost of about $350 by connecting the northwestern end of Vance Hall to the small brick building, the second story of which has been heretofore occupied as a sleeping apartment for a number of outside employees. The connection is made by means of an iron bridge, which serves also as a solarium for the class of patients who occupy this small building, which is fitted also with closet and bath-room and properly heated. It will accommodate five or six patients, and is a neat, well-ventilated little home for this class of patients. Our carriage and buggy house for years has been a mere makeshift, and it was deemed wise to reconstruct and enlarge so as to make it capable of accommodating all of our vehicles.

During the past year, by and with the consent of our Executive Committee, a tenement-house was erected and is situated on the public road opposite our Hospital building. You will also observe, doubtless with approving eyes, our reconstructed front steps and walk, a change which has long been needed, and adds much to the appearance of the State's property and also contributes to the comfort of all who visit the Hospital.

Two of our iron smoke-stacks became disabled during the storm of September, and the third one would doubtless in the near future become disabled by long use, and, realizing the necessity of a more permanent stack, by conferring with the Executive Committee it was determined to be a proper and wise thing to erect a brick stack sufficiently commodious for present and future needs. This improvement cost $1,128. All the common labor was furnished by the Hospital.

Our kitchen was built when there were less than an hundred patients in the Hospital, and it was a matter of necessity to

enlarge the building, but upon examination the walls were ascertained to be but nine inches thick; so your Executive Committee, with the advice of the architect, deemed it best to remove the building and build *de novo,* using the brick of the old building in reconstructing. You will observe that we have a building 97 feet long, 30 feet wide and three stories high, with stone steps and slate roof. We have also thoroughly equipped the kitchen with what additional furniture was necessary. The first floor of this building is used as a kitchen and also a bakery and a small intervening room for storing wood. The second story is for an associate dining-room, and a room cut off as a store-room for female patients. The third story has a large room which will serve as an assembly-room, and has also a room cut off to be used as a store-room for males. I hope you will inspect this building very closely, believing you will find it very substantially built and well adapted for its several purposes.

The State made no special appropriation for any of these improvements, but they represent the economy and good business management of your administration, which should find an expression of appreciation from the tax-payers of the State.

This completes the short recital of improvements for the past two years, with the exception of a thousand and one minor repairs in the engineer's department and by our carpenter.

At our last December meeting it was my pleasure to inform you that this Hospital had on hand funds sufficient to erect a cold-storage plant, and also machinery to manufacture ice quite sufficient for the use of this Hospital for years to come. According to law, this fund not being contributed by the State, was entirely subject to your commands, and you had a right to use it for whatever purpose your judgment deemed best for the institution. Having failed, after repeated efforts, to secure an appropriation from the Legislature for a cold-storage and ice plant for this Hospital, and believing that

future efforts would meet with a like failure, and believing further that such a plant was a necessity for an institution like this, you will remember that I recommended and advised your honorable body to use this special fund for the purpose above indicated. This money was the accumulation of the savings of several years in the manufacture of brick and in trucking by our Hospital force, and did not represent the gross but net proceeds of brick-yard and farm, and the amount was $3,511.76. I will state that the cold-storage plant and ice factory have been duly installed, and works to our satisfaction. We believe it to be first-class in every respect, and cost $3,500. Thus, you will observe that without a special appropriation, nor by savings of money appropriated by the Legislature for any purpose, you have a $3,500 cold-storage and ice plant installed in the institution over which you are the Directors.

For a more detailed statement of the cost of the several improvements the past two years I respectfully refer you to the report of our Steward.

SUBORDINATE OFFICERS AND EMPLOYEES.

In consequence of advancing years and feeble health, our Matron for twenty years or more, Mrs. E. J. A. Smith, retired from the service of this institution, which she had so long and faithfully served.

Legislative enactments pertaining to the government of hospitals for the insane, at the session of 1899, made the retention of the office of Matron contingent upon the wishes of the Board of Directors, and in pursuance of this law, at our last December meeting it was ordered that the office of Matron be abolished for the time at least and the duties thereof be performed by a housekeeper and storekeeper jointly. Mrs. Victoria Bryan, our former seamstress, was made housekeeper, and she performs all the in-door duties of our former Matron, together with daily visits to the wards, male and

female. Miss Mollie Kennedy, our former chief laundress, was appointed storekeeper, and she performs all the outside duties heretofore performed by the Matron, including daily visits to the dining-rooms of the patients.

By consent of the Executive Committee, each of these employees receive $17.50 per month. Miss Martha Newell, who has long served as assistant seamstress, was made seamstress, at a salary of $15 per month, without board, and our former female supervisor was made her assistant.

While these changes required one additional employee, there is no additional expense to the Hospital, and the changes result in more efficient and satisfactory service.

During the past two years, and especially during the past year, we have had a great many changes in our Hospital force, and your Superintendent has had some difficulty in securing desirable employees in their stead. The successful management of an hospital for the insane largely depends upon the efficiency of employees who are concerned in their care, and when several such resign in close succession the worry and embarrassment of the Superintendent may be imagined. Such has been the conditions here during the past year. The present demands for labor are so great, and wages having advanced, there comes to this office but few applications for ward service, especially from females. In other years my file was kept full of applications, but now there is not one on file from a female. With a knowledge of wages that obtain in nearly all the hospitals of this country, I will state for your information that the wage schedule in this Hospital is the lowest in most respects of any in this country, and I respectfully ask your careful consideration of this question.

FUTURE NEEDS OF THE HOSPITAL.

As already intimated, we need a building for the accommodation of 140 female patients, which will cost, by a very conservative estimate, $35,000, besides about $3,000 for furniture.

Between thirty and forty females are now accommodated in one of our male buildings, and about twenty are accommodated in a room over our boiler-house. There is on file in this office a large number of applications for admission, but who cannot be admitted for want of room. At least sixty of this number ought to be admitted at once. You will thus see from these statements how imperative and urgent are our needs for more room.

In view of the above facts, and of the further fact that the Legislature four years ago recognized the necessity of giving to this Hospital $30,000 for the erection of a building for the accommodation of female patients, I respectfully submit it is scarcely conceivable that the amount now asked for will be withheld. The plans and drawings for this building have been prepared by our engineer and architect, Mr. W. J. Matthews, and are offered for your examination and, if needs be, correction. We need an eighty-horse-power boiler, which, in position and set for use, will cost about $1,200. I again renew my request for a building with proper equipments for tuberculous male patients, which will cost about $2,500. For many years we have needed a spur from the North Carolina Railroad, opposite this Hospital, to our boiler-house, a distance of half a mile. The ground has been surveyed by a competent civil engineer, and his estimate of cost, exclusive of common labor furnished by the Hospital, will be $3,000. We will need sixty thousand dollars for maintenance and repairs of the Hospital for the year 1905; and if our new building for females is to be erected and prepared for occupancy the present fiscal year, we will need $65,000 for maintenance and repairs for the year 1906.

I respectfully submit for your consideration the statement that these estimates are very conservative, and that our requests are most reasonable.

I again take pleasure in acknowledging the loyalty and intelligent helpfulness of my assistant physicians and all

others who have assisted in the care and management of our humble and unfortunate population, and to commend to you the faithfulness and punctuality of our Executive Committee.

Respectfully submitted,

J. F. Miller,
Superintendent.

Dec. 1. Balance on hand	$	$ 66.77
Legislative appropriation	58,000.00	58,000.00
Special appropriation for deficit	.....	591.69
Total available funds	$58,000.00	$58,658.46
Nov. 30. Less vouchers paid	57,933.23	58,657.69
Dec. 1. Balance on hand	$ 66.77	$ 77

STATEMENT OF LOCAL CASH.

	1903.	1904.
Dec. 1. To balance on hand	$ 52.33	$ 11.64
Cash received from all sources	796.02	1,103.51
Total available cash	$ 848.35	$ 1,115.15
Less cash disbursements	836.71	1,088.33
Dec. 1. Balance	$ 11.64	$ 26.82

STATEMENT OF DAIRY ACCOUNT.

	1903.	1904.
Amount paid for new dairy stock	$ 140.00	$ 816.11
Sales of beef, butter, hides, sundries	.....	643.90
Balance difference	$	$ 172.21
Amount feed account	748.06	987.21
Amount labor and board	280.00	300.00
Total expenses	$ 1,168.06	$ 1,459.42
Less feed on hand and sale of beef	467.03	123.70
Net cost of milk supply	$ 701.03	$ 1,335.72

Product of milk in 1903, 73,381 pounds; in 1904, 110,493 pounds. Equal to 8,363 gallons in 1903; in 1904, 12,999 gallons. Cost of milk per gallon, in 1903, 8 42-100 cents; in 1904, 10 1-15 cents.

STATEMENT OF COST OF COLD STORAGE.

For machinery, materials, labor of construction, freight and all other expenses ..... $ 3,426.02

STATEMENT OF RECONSTRUCTION OF KITCHEN, DINING-ROOM AND ASSEMBLY HALL.

Total cost for material, hired labor and bills of all kinds .... $ 7,868.55

STATEMENT OF COST OF SMOKE-STACK.

Total cost for construction of a smoke-stack 100 feet high ... $ 1,128.00

STATEMENT OF COST JANITOR'S HOUSE.

The construction of this house was done by Hospital carpenter and patients at cost for materials ..... $ 152.51

STATEMENT OF RESERVE FUNDS.

	1903.	1904.
Sale of brick and yard material	$2,062.90	$ .....
Balance of Reserve Funds on hand	84.20	91.83
Balance of Trucking Funds on hand	332.15	66.43
Balance of Cotton Funds on hand	1,032.51	.....
Balance of Greene County account	.....	54.00
For disinfecting corpse	.....	2.90
For sale of cotton seed	.....	123.60
Total amount of all funds	$3,511.76	$ 338.76

This fund has been consumed in the erection of a cold storage, the reconstruction of kitchen, dining-room and assembly hall, as per report, see page 9.

MEMORANDA OF COTTON RAISED UPON THE HOSPITAL FARM.

Bales of cotton, twenty-five on storage; the sale of two horses for five bales of cotton, making total of thirty bales on storage.

Respectfully submitted,

DAN REID.

FARMER'S REPORT FOR 1903.

DR. J. F. MILLER, *Superintendent:*

I hereby respectfully submit my report as Farmer for the year 1903.

FARM PRODUCTS RAISED.

24,750 pounds oats in straw, at $5	$ 123.75
18,500 pounds clover hay, at $7.50	138.75
51,750 pounds pea-vine hay, at $6.50	336.37
13,700 pounds crab-grass hay, at $6	82.20
825 bushels corn, at 60c	495.00
66,000 pounds corn forage, at $3	198.00
120 tons ensilage, at $3	360.00
4 acres cane (soiling), at $20	80.00
139 bushels wheat, at 85c	118.15
13,000 pounds wheat straw, at $4	52.00
100 bushels peas, at 60c	60.00
2,500 pounds pea hulls, at $2.50	6.25
150 bushels peanuts, at 60c	90.00
7,500 pounds peanut vines, at $5	37.50
75 bushels soja beans, at $1	75,00
11,776 pounds lint cotton, at 10½c	1,236.48
Cotton seed sold	104.75
200 pounds seed cotton, at 3c	6.00
925 bushels potatoes, at 40c	370.00
725 gallons sorghum syrup, at 25c	181.25
25 bushels sorghum seed, at 50c	12.50
5,500 pounds pork, at 8c	440.00
Total farm products	$4,603.95

ORCHARD AND GARDEN PRODUCTS RAISED.

220 bushels apples, at 40c	$ 88.00
400 gallons vinegar, at 25c	100.00
50 gallons cider, at 20c	10.00
85 barrels cabbage, at $1	85.00
1½ acres collards	100.00

LETTER OF TRANSMITTAL.

To His Excellency, GOVERNOR R. B. GLENN,
Raleigh, N. C.

GOVERNOR:—As chairman of the Board of Directors of the State Hospital at Goldsboro, N. C., elected to succeed the late, lamented Dr. Porter, I have the honor to present our report for your consideration.

Our Institution has been unfortunate in the loss by death within a year of a Superintendent, Dr. Miller, not inferior to any other in executive ability and moral worth, and also two directors, Mr. L. B. Bynum and Dr. E. Porter, of equally exalted character; and I would also mention the death, only a short while before, of Mr. W. F. Rountree, who had but recently vacated his position as director, and who had for more than twenty years discharged the duties of the same.

Our new Superintendent, Dr. W. W. Faison, has taken up the mantle of his lamented predecessor with a determination to rival him in the management of the Institution, and with his long experience and intimate knowledge of the routine work, everything is moving smoothly and harmoniously, to the great benefit of the unfortunate inmates and to the financial interest, as well as to the honor of the State.

Another commodious and well-constructed building has been added to the facilities of the Institution, and at a cost much below the usual estimate for such buildings; so that for the present, none need be turned away for lack of accommodation.

Respectfully submitted,
D. E. MCKINNE,
Chairman, &c.

SUPERINTENDENT'S REPORT.

GOLDSBORO, N. C., December 13, 1906.

To the Board of Directors of the State Hospital at Goldsboro, N. C.

GENTLEMEN:—As required by law, I herewith submit the following report of this Hospital for the biennial period ending November 30, 1906.

There were enrolled November 30, 1904, 527 patients—220 males and 307 females; there have been admitted 268 patients—105 males and 163 females; total number under treatment, 795. There have been discharged 239 patients—102 males and 137 females, leaving on the roll November 30, 1906, 556 patients—223 males and 333 females. Daily average, 551 19-100. Percentage of cures on admission, 39; percentage of deaths on number treated, 7 97-100.

There has been no epidemic of any kind among the patients, and, as heretofore, there have been but few deaths from acute diseases. Tuberculosis has been the cause of the greater percentage of deaths among our patients, but we are making every effort to stamp it out. We have separate buildings to which the tubercular patients are transferred as soon as the disease is detected, and they are there given special treatment. In a number of cases, the disease has been arrested. Tuberculosis is very prevalent among the negroes; many of the patients have it when brought here, and some in such an advanced stage that they live only a short time after being admitted.

IMPROVEMENTS AND REPAIRS.

The last Legislature gave us $1,200 for a new 150 H. P. boiler; $3,000 for building a spur from the North Carolina Railroad to our boiler-house; $25,000 for erecting and fur-

nishing a building for the accommodation of female patients. In 1905 the boiler was placed in position and connected, and the spur was built; the latter improvement fills a long-felt need; it saves much labor and expense in the way of hauling, as we can now have all of our coal, building materials, in fact, supplies of every kind bought in carloads, delivered in the rear of the Hospital.

The building committee thought best not to let the work of erecting the building to a contractor, as we could buy the brick, lumber, lime and other necessary materials as cheaply as he could. We had sand and some teams which we could use, the patients doing the common labor. Mr. Mathews, our engineer, had designed the building, and he consented to add to his duties those of superintendent of construction, for which extra service he will expect from the Hospital some compensation.

This building is of brick, covered with slate; has three stories, a basement and an unfinished attic. When completed, it will accommodate 120 patients and the attendants in charge of them. The third and fourth stories are now occupied, and we hope to have the entire building finished in about four weeks. This building, as originally designed, was to accommodate 100 patients, and it was estimated that it would cost $25,000, which was $5,000 less than the least bid of any contractor. Before the walls of the basement were completed, the building committee saw that by raising these walls three feet higher provision could be made for twenty additional patients, at the small cost of about $2,000; so they ordered this to be done. Since the estimate for this building was made, the considerable advance in the price of building material and labor, and the change in the basement referred to above, will cause the building and the furnishing of it to cost about $28,728, making a deficiency of about $3,728. The necessity for completing this building was so urgent that the Governor and his Council gave us permission to borrow $5,000; but of

this sum we have borrowed only $2,500. This amount, with the proceeds from our cotton crop, will enable us to pay this deficiency.

Since the last meeting of the Board, an operating room has been fitted up and very well equipped with instruments and appliances.

The most important of the minor improvements are as follows:

A new armature and belt for a 20 K. W. dynamo; a new 10 x 10 engine for laundry and other purposes, and a room for this engine; a thirteen-metal-rack drying-room for laundry, with room for same; a drill-press for shop use; a galvanized shed around store-room; installed four sections of radiators in heating plant; installed a large water pump (12 x 7 x 12), Smithville Company; built room for tubercular male patients. In the Superintendent's residence there have been placed two lavatories, and some other necessary repairs have been made. The usual repairing incident to an institution of this kind has been done.

The last Legislature appropriated $500 for our better protection against fire. This amount has been used in purchasing an additional amount of hose, more hydrants, a number of automatic sprinklers and some other appliances.

NEEDS FOR THE NEXT TWO YEARS.

For maintenance for 1907, $69,300.

For maintenance for 1908, $77,000.

For a building for male patients, $25,000.

For a building for female patients, 25,000.

For enlargement of heating plant, $2,500.

For increased capacity for electric light plant, $1,500.

For additional room (cottage) for tubercular patients, $500.

For filter, $2,000.

For indebtedness on new building, $2,500.

I estimate that we will have a daily average of at least

630 patients in 1907, and 700 in 1908, at a per capita cost of $110.

In my opinion, we will need no additional room before 1908, when the necessity of providing for more patients will again confront us. In order that provision may be made for the increased number of patients, I recommend that you ask the Legislature for an appropriation of $25,000 for a building for male patients, and $25,000 for a building for female patients, prior to 1908, so that these buildings may be erected in time to meet the demand.

Our heating and electric light plants are overtaxed, and, to increase their capacity, we will need, $2,500 for the former and $1,500 for the latter.

The buildings in use for tubercular patients are now becoming crowded, and to make provision for them, we will need $500.

The water which is used for bathing, laundering, steam and other purposes, is supplied by a small branch, and after every rain is very muddy. It is necessary, and the State Board of Health has recommended, that it be filtered before using it. The estimated cost of a filter for this purpose is $2,000.

For paying the indebtedness incurred in completing the new building, a special appropriation of $2,500 is needed.

RELIGIOUS SERVICES.

Religious services, consisting of preaching and Sunday school exercises, are held for the patients every Sunday afternoon in the Chapel.

RECREATION AND EMPLOYMENT.

The principal recreation for the patients is the weekly dance held in the Assembly Hall. These dances are looked forward to with a great deal of pleasure, and are largely attended.

Realizing the great good of employment to the insane, we endeavor to give each patient, capable of employment, some-

thing to do. About 65 per cent. of our male patients are daily employed; they saw the wood, do most of the farm work and are engaged in many other ways. To find employment for the female patients is more difficult; still, about 40 per cent. of these assist in the laundry, sewing-room, dining-room, on the wards and in other places.

THE FARM.

Our farming operations are fully set forth in the Farmer's Report. Owing to the unfavorable seasons, the proceeds from the farm this year were much less than we had hoped for. However, the net profits from the farm for the two years have been $8,831.

IN MEMORIAM.

I regret to announce to you the death of Dr. Elisha Porter, who so long and faithfully served this Institution as President of the Board of Directors. He died at his home at Rocky Mount, July 1, 1906, universally loved and respected.

In conclusion, I wish to tender my sincere thanks to the officers and all loyal employees of the Hospital for their faithful services. I would thank the Board for the kindness and courtesy they have extended to me and the support they have given me in the management of the affairs of this Institution.

Respectfully submitted,

W. W. Faison,
Superintendent.

STATISTICAL FORM FOR STATE INSTITUTIONS

PREPARED IN ACCORDANCE WITH A RESOLUTION OF THE NATIONAL CONFERENCE OF CHARITIES AND CORRECTIONS; ADOPTED MAY 15, 1906.

NAME OF INSTITUTION:

STATE HOSPITAL AT GOLDSBORO, N. C.

POPULATION.

	Males.	*Females.*	*Total.*
Number of inmates present at beginning fiscal year	213	314	527
Number received during the year	58	92	150
Number discharged or died during the year	48	73	121
Number at end of fiscal year	223	333	556
Daily average attendance (i. e. number of inmates actually present) during the year	217	310	527
Average number of officers and employes during the year	42	35	77

EXPENDITURES.

Current Expenses:		
(1) Salaries and wages	$ 16,294.34	
(2) Clothing	4,500.74	
(3) Subsistence	16,143.28	
*(4) Ordinary repairs		
(5) Office, domestic and out door expenses	21,113.34	
Total		$ 58,051.70
Extraordinary expenses:		
(1) New building, land, etc	$ 14,287.30	
*(2). Permanent improvements to buildings		
Total		
Grand total		$ 72,339.00

Notes of current expenses:

(1) Salaries and wages should include salaries of Trustees, or Directors, if any.

(2) Clothing includes shoes and also materials for clothing and shoes if they are manufactured in the Institution.

(3) Ordinary repairs include all of those which simply maintain the buildings in condition without adding to them. Any of the repairs which are of the nature of additions should be classed with "permanent improvements."

(4) This item includes everything not otherwise provided for, e. g., furniture, bedding, laundry supplies, medicines, engineer supplies, postage, freight, library, etc.

Executive Head, Superintendent.

* No separate accounts kept.

REPORT

OF

THE STATE HOSPITAL

AT

GOLDSBORO, N. C.,

FROM

NOVEMBER 30, 1906, TO NOVEMBER 30, 1908.

RALEIGH:
E. M. UZZELL & CO., STATE PRINTERS AND BINDERS.
1908.

OFFICERS OF THE HOSPITAL.

BOARD OF DIRECTORS.

D. E. McKinne, President.....Johnston County.
Term expires March 6, 1911.

W. E. Headen, M. D.....Carteret County.
Term expires March 6, 1911.

E. A. Darden.....Wilson County.
Term expires March 6, 1911.

W. L. Hill.....Duplin County.
Term expires March 12, 1913.

C. F. Herring.....Wayne County.
Term expires March 12, 1913.

Thomas M. Jordan, M. D.....Wake County.
Term expires March 12, 1913.

B. W. Edwards.....Greene County.
Term expires March 12, 1913.

D. W. Bullock, M. D.....New Hanover County.
Term expires March 9, 1909.

W. A. Stewart.....Harnett County.
Term expires March 9, 1909.

EXECUTIVE COMMITTEE.

D. E. McKinne, Chairman.
C. F. Herring. B. W. Edwards.

OFFICERS.

W. W. Faison, M. D.....Superintendent.
J. E. Brothers, M. D.....First Assistant Physician.
Clara E. Jones, M. D.....Second Assistant Physician.
B. R. Lacy.....Treasurer *ex officio*.
J. W. Bryan.....Steward.
W. J. Mathews, B. E.....Engineer.
Mrs. J. W. Bryan.....Housekeeper.
Miss M. E. Kennedy.....Storekeeper.
Miss Martha Newell.....Seamstress.
H. S. Toler.....Farmer.

LETTER OF TRANSMITTAL.

To His Excellency, GOVERNOR R. B. GLENN,

Raleigh, N. C.

GOVERNOR:—I respectfully submit herewith for your consideration the biennial report of the Board of Directors of the State Hospital at Goldsboro, N. C.

No serious calamity has befallen the institution within the two years, for which we are thankful to the Giver of all good.

The report of the Superintendent, Dr. W. W. Faison, shows careful and economical management during a period of continued advances in the cost of living. It meets with the full approval of the Board, and we trust you will find it very satisfactory to yourself.

We have supplemented the fairly liberal appropriation by the Hospital Commission with the income from the labor of the inmates, chiefly on the farm, and there is now but little lacking to render perfectly efficient the machinery and other appliances necessary to the perfect working of an institution of such magnitude.

The estimate by the Superintendent of the needs of the institution for the next two years is well within the probable demands, and we trust that the incoming Legislature will appreciate this fact and at least deal justly with so meritorious a charity.

Respectfully, your obedient servant,

D. E. MCKINNE,

President Board of Directors.

SUPERINTENDENT'S REPORT.

GOLDSBORO, N. C., December 10, 1908.

To the Board of Directors of the State Hospital at Goldsboro.

GENTLEMEN:—The report of the management of this Hospital for the biennial period ending November 30, 1908, is herewith respectfully submitted.

MOVEMENT OF POPULATION.

	Males.	*Females.*	*Total.*
Number remaining on roll November 30, 1906	223	333	556
Number received	186	285	471
Whole number treated	409	618	1,027
Whole number discharged	159	214	373
Number on roll November 30, 1908	250	404	654
Daily average for two years	...	...	634.767

More patients have been admitted during the time embraced in this report than in any previous biennium. The opening of the Miller building at the beginning of this term enabled this to be done. Owing to the crowded condition of the Hospital for several years prior to the opening of the Miller building, a great many patients were denied admission; consequently there was a large accumulation of the colored insane throughout the State needing hospital care. A considerable number of these were confined at their homes, in the jails and county homes. As soon as it was known that additional room had been provided, urgent requests began to be made for admission of patients. All of those applicants deemed worthy were admitted, many of whom were old, already demented and in a most deplorable physical condition, and there was no hope of doing more for them than making them comfortable for the short time they might live.

I desire here to call the attention of the Board to the fact that this institution, since the enactment of a law by the last Legislature, is no longer a hospital solely for the insane, but is also an asylum for the epileptic, the idiot and all other mental defectives. This being the case, the percentage of cures will necessarily be smaller and the mortality greater. Though we have had no epidemics among the patients, there has been a good deal of sickness incident to a hospital of this kind. Tuberculosis, which has become the scourge of the negro, is very prevalent among our patients. Every succeeding year a larger number of them have it on admission, while many cases develop here. More than one-third of the deaths during the past two years were due to tuberculosis. As far as possible, these tubercular patients have been kept in separate wards. The Hospital Commission has recently let a contract for the construction of four detached buildings that will accommodate twenty patients each, two of which will be for the care of tubercular patients, male and female, and two for epileptics, male and female. These buildings are now being erected and are to be completed in six months. The removal of these two unfortunate classes from our general wards has long been desired, and will prove most beneficial to them, as well as to those who necessarily have to come in contact with them.

For the maintenance of the institution for 1907 the Legislature appropriated $65,000, and the same amount for 1908. But this appropriation was not sufficient to maintain as many patients as we had room for. Many applications were being received, and in order to make provision for these applicants the Board of Directors, at their April meeting in 1907, appointed a committee to confer with the Governor and his Council in regard to this matter. They laid the matter before the Governor, and he made arrangements by which they could admit all worthy applicants to the capacity of the institution. The number of patients has steadily increased, until now there are enrolled 654 patients, which is 98 more than we had at

the beginning of the biennium. The Legislature having provided for the maintenance of a daily average of only 557 patients, and a daily average of 604 having been cared for, there was a deficit of $11,000.

LABOR AND WAGES.

Early in 1907 we had great difficulty in keeping our employees. Labor was in great demand and at much higher prices than we were paying; consequently we lost several of our best attendants. To enable us to secure suitable and sufficient help, the Board was compelled to make a very considerable advance in the wages of most of our employees in every department. This advance, with the additional number employed as the Hospital has grown, has caused an increase of $380 in our monthly pay-roll over what it was in November, 1906.

THE FARM.

Our farming operations have been greatly increased during the past two years. As most of the labor is done by the patients, the profits to the Hospital have been considerable. I am sorry to report, however, that the crop of 1908 was greatly damaged by the unprecedented freshet in August. The potato crop of fifteen acres was entirely destroyed, and the crops of cotton, corn, peas and hay greatly cut off. We estimate that the damage sustained was at least $2,000.

NEEDS FOR THE NEXT TWO YEARS.

With a constantly growing population and an advanced cost of living, it is estimated that we will need—

For maintenance for 1909	$ 83,750
For maintenance for 1910	90,000
Total	$173,750

The reports of the several departments are appended, and I respectfully refer you to them for a detailed account of the work of the institution.

IMPROVEMENTS AND REPAIRS—EXPENDITURES FOR PURCHASES AND IMPROVEMENTS MADE FROM APPROPRIATIONS BY THE STATE HOSPITAL COMMISSION.

For outside closets	$ 150.00
Filter plant	3,967.66
Fire protection	826.23
Pipe line	869.16
Bath tubs and fittings	463.22
New boiler and setting	1,753.43
New engine and setting	2,597.71
Pumps and settings	1,527.90
Inside closets	276.80
Electric generator and setting	2,480.00
Repairs of ice plant	286.75
Lathe	318.90
Hot-water heater	500.00
Bath-room floors	163.45
Purchase of land	6,000.00
Purchase of mules	1,200.00
Purchase of wagons, carts and harness	145.00
Pasture fence	464.80
Stable and shelter	350.00
Moving houses	150.00
Employees' houses	500.00
Total	$24,991.38

IMPROVEMENTS PAID FOR FROM SALE OF FARM AND GARDEN PRODUCTS, ETC.

For completion of Miller building	$3,970.96
Building smokehouse	430.77
Balance on lathe	25.00
Balance on engine foundation	70.55
Electric motor	281.50
Electric motor	100.00
Washer for laundry	517.90
Grain separator	199.75
Railroad side track	160.00
	$5,756.43
Generator and motor and freight on same	1,444.00
Materials for manure shed	194.82
	$7,395.25

RESIGNATION AND APPOINTMENT OF OFFICERS.

Dr. W. C. Linville, who had most acceptably filled the position of First Assistant Physician for two years, retired May 1, 1908, to enter private practice at Winston-Salem. He had endeared himself to all, and we were sorry to lose his services. Dr. J. E. Brothers, of Edgecombe County, was elected to the vacancy and has entered earnestly into the work.

Credit is due and is hereby gratefully acknowledged to the Board, the officers and the employees for valued assistance in the discharge of my duties.

W. W. Faison,
Superintendent.

STEWARD'S REPORT.

STATE HOSPITAL AT GOLDSBORO, N. C.,
November 30, 1908.

To DR. W. W. FAISON,
Superintendent.

I herewith submit my biennial report covering the two fiscal years, December 1, 1906, to November 30, 1908, consisting of statements showing receipts and disbursements for maintenance, accompanied by classified statement of such disbursements; statement of average population, with per capita cost of maintenance; summary of receipts and disbursements on local cash account, with detailed statement of such receipts and disbursements; statement of dairy account, and a statement showing expenditures for purchases and improvements authorized by the State Hospital Commission.

Respectfully submitted, J. W. BRYAN,
Steward.

Edward E. Seay ..... Storekeeper.

Miss Martha Newell ..... Seamstress.

H. S. Toler ..... Farmer.

LETTER OF TRANSMITTAL.

To His Excellency, Governor W. W. KITCHIN,
Raleigh, N. C.

GOVERNOR:—It is my pleasure herewith to present to your Excellency, for your own information and that of the public, the biennial report of Dr. Faison, Superintendent of the State Hospital at Goldsboro, N. C.

His management has met the unanimous approval of the Board of Directors, and should commend his administration to the public.

It has not been our policy to conduct the institution upon the cheapest possible plan, but the result will compare favorably in respect of economy with any like institution in the country.

Its further successful conduct will depend largely upon the liberality of the Legislature in making the appropriations asked for. Respectfully,

Your obedient servant,

D. E. MCKINNE,
President Board of Directors.

SUPERINTENDENT'S REPORT.

GOLDSBORO, N. C., December 8, 1910.

To the Board of Directors of the State Hospital at Goldsboro.

GENTLEMEN:—In compliance with the law I herewith submit the report of this institution for the biennial period ending November 30, 1910:

MOVEMENT OF POPULATION.

	Males.	*Females.*	*Total.*
Number on roll November 30, 1908	250	404	654
Number received	190	244	434
Whole number treated	440	648	1,088
Whole number restored	53	92	145
Number much improved	5	19	24
Number improved	13	11	24
Number unimproved	2	0	2
Number not insane	2	0	2
Number eloped	3	0	3
Number died	77	82	159
Whole number discharged	155	203	358
Percentage of cures on number received			33.41
Percentage of deaths on number treated—1909			8.68
Percentage of deaths on number treated—1910			9.52
Percentage of deaths—average per year			9.10
Number on roll November 30, 1910	285	444	729
Daily average—1909			681
Daily average—1910			715

We have had about the usual amount of sickness among our patients, but there has been no epidemic of any kind or serious accident. Considering the class of patients we have the death rate has not been excessively large.

The institution has been badly crowded during most of the time embraced in this report, and for this reason many applicants have been refused admission.

The four small detached buildings—two for tubercular and two for epileptic patients—which were erected by the Hospital Commission, were completed and opened for the admission of patients in November, 1909.

The removal of the tubercular and epileptic patients from the general wards gave sufficient room for a short while only for the admission of applicants. Our wards are again full, and we are under the necessity of asking for additional accommodation. I therefore recommend that you ask the Legislature for an appro-

priation of $24,000 for this purpose. The two buildings for epileptics were filled almost as soon as they were opened, and there are now a number of applications for admission of this class on file. Additional room should be provided for them, and for this purpose $6,000 will be needed. At present we have fifty-two epileptics, twenty-seven males and twenty-five females, while separate room has been provided for only thirty-six—eighteen males and the same number of females.

IMPROVEMENTS.

Improvements and expenditures made by State Hospital Commission:

One brick building and furnishings for eighteen male epileptics.

One brick building and furnishings for eighteen female epileptics.

One wood building and furnishings for twenty-two tubercular male patients.

One wood building and furnishings for twenty-two tubercular female patients.

Machinery room extension, addition to laundry, laundry machinery.

Improvements paid for from sale of farm and garden products:

One ginning outfit	$545.09
One grist mill	329.94
One dining room building (under construction), about	2,000.00
Total	$2,875.03

The last-named building is a two-story, brick, metal-covered building, 22 feet by 61 1-2 feet, erected in the rear of the Center Building. The first floor will be used for the Steward's office and dining-room, and the second floor for the sewing-room.

The present sewing-room will be converted into a dormitory for the accommodation of twenty additional patients.

And thus, by the expenditure of about $2,000, provision will be made for an office, dining-room, sewing-room and an arrangement for increasing the capacity of the institution.

FARM AND GARDEN.

The farmer's report shows that the returns from the farm and garden operations for the two years have been very good.

The estimated value of the farm products for 1909	$13,553.75
The estimated value of the garden products for 1909	2,965.59
Total	$16,519.34
Expenses of farm and garden	6,496.09
Net value of farm and garden products (estimated)	$10,023.25
The estimated value of the farm products for 1910	$13,457.95
The estimated value of the garden products for 1910	6,655.75
Total	$20,113.70
Expenses of farm and garden	6,759.06
Net value of farm and garden products (estimated)	$13,354.64

FINANCES.

For the maintenance of this institution for the two years 1909 and 1910 the Legislature appropriated $160,000. With this amount and the products from the farm, garden and dairy, I am glad to say that we have been able to defray all expenses, though the cost of living has been exceedingly high.

Per capita cost for 1909	$123.07
Per capita cost for 1910	117.37

NEEDS FOR THE NEXT TWO YEARS.

For maintenance for 1911	$87,000.00
For maintenance for 1912	90,000.00
For an addition to Aycock Hall for male patients	12,000.00
For an addition to Miller Building for female patients	12,000.00
For an addition to Epileptic Building for male patients	3,000.00
For an addition to Epilectic Building for female patients	3,000.00
For fire escapes	3,000.00
For heating coils	350.00
For repairing floors	750.00

Additional room is badly needed as a number of the colored insane and the insane epileptics are confined in jails and county homes.

The heating coils are wanted for Vance Hall and Miller Building, which are not sufficiently heated.

The floors in wards A, B, C, and in wards 1, 2, 3, have now been in use thirty years, and should be replaced by new ones. They are badly worn, and it is impossible to keep them in a sanitary condition.

In conclusion, I wish to express my appreciation of the assist-

ance and co-operation given me during the past two years by the members of the board, the officers and employees of the institution. Respectfully submitted,

W. W. FAISON,
Superintendent.

TABLE NO. 1—SHOWING MOVEMENT OF POPULATION.

	Males.	*Females.*	*Total.*
Number on roll December 30, 1908	250	404	654
Number received	190	244	434

STEWARD'S BIENNIAL REPORT.

STATE HOSPITAL AT GOLDSBORO, N. C.,
November 30, 1910.

To DR. W. W. FAISON, *Superintendent.*

I herewith submit my biennial report covering the two fiscal years December 1, 1908, to November 30, 1910, consisting of statements showing receipts and disbursements for maintenance, accompanied by classified statement of such disbursements; statement of average population, with per capita cost of maintenance; summary of receipts and disbursements on local cash account, with detailed statement of such receipts and disbursements; statement of dairy account, and a statement showing expenditures for improvements authorized by the State Hospital Commission.

Respectfully submitted,
J. W. BRYAN, *Steward.*

FINANCIAL REPORT.

FOR THE YEARS FROM DECEMBER 1, 1908, TO NOVEMBER 30, 1910.

Dec. 1.	Legislative appropriation for deficit of 1908.....		$11,000.00
	Legislative appropriation for support, 1909.....		80,000.00
			$91,000.00
Dec. 31.	By vouchers for December.....	$9,535.64	
1909.			
Jan. 31.	By vouchers for January.....	5,976.32	
Feb. 28.	By vouchers for February.....	5,152.46	
Mar. 31.	By vouchers for March.....	6,502.69	
Apr. 30.	By vouchers for April	8,482.47	
May 31.	By vouchers for May.....	5,865.82	
June 30.	By vouchers for June	5,197.17	
July 31.	Paid deficit 1908, Bank of Wayne.....	11,000.00	
31.	By vouchers for July	5,322.60	
Aug. 31.	By vouchers for August	6,502.39	
Sept. 30.	By vouchers for September	5,848.69	
Oct. 31.	By vouchers for October	6,992.33	
Nov. 30.	By vouchers for November	8,621.42	
			$91,000.00

STATEMENT OF POPULATION.

Average number patients on roll.....	681
Average number patients present.....	650
Average number patients at work.....	309
Per capita cost of maintenance for year.....	$123.07
Per capita cost of maintenance per day.....	.337

SUMMARY OF LOCAL CASH ACCOUNT.

1908.

ENGINEER'S REPORT.

DR. W. W. FAISON, *Superintendent State Hospital,*
Goldsboro, N. C.

DEAR SIR:—At your request I herewith present to you the report of the engineering department for the two years ending November 30, 1910. This department includes the care of a 460 horse-power boiler plant for heating the wards and for cooking purposes, for running the electric plant, which not only furnishes light for the whole institution, but power to run the eleven motors used for driving hot air into the buildings and ventilating them. It is also used to grind corn, thresh wheat, cut feed, gin cotton, run laundry, machine shop, etc. This department also includes the care of the laundry, heating apparatus, plumbing, water lines, lights, ice and refrigerating plant, roofs, drain pipes, etc.

Some of the most important permanent improvements and repairs in this department for the past two years are as follows:

Two additional rooms to the laundry, one for soiled clothes, the other for an ironing room. A large mangle and extractor have been installed. An addition has been made to the engine-room for tool-room, engineering supplies, water-closet, etc.

One new switchboard for distributing electric power throughout the institution has been added to the electric plant.

One second-hand motor-driven machine lathe has been purchased and added to the machine shop to save expenses in repair work. One 72-saw cotton gin and outfit complete have been purchased and installed to gin the cotton raised on the farm, also one 30-inch corn mill has been purchased and installed to furnish an abundant supply of good, homemade corn meal and hominy for the inmates.

A cannery has been built and equipped so that a supply of vegetables and fruit for the winter may be canned at home, which will be quite a saving to the institution.

Two of the large barns have been wired and equipped with electric lights.

During the past spring and summer the water plant has been overhauled and repaired, so now the institution has two independent water plants sufficiently large to furnish 250,000 gallons of water each per twenty-four hours.

The ice plant has been completely overhauled and put in as good condition as when new.

A new fireproof boiler house, 44x60 feet, with steel-trussed metal roof, has been built; all the boilers have been reset, which will enable a considerable saving in fuel and labor.

This work was done by the engineering force without expense to the institution, except for material and for the mason's work.

I recommend that additional heating coils be added to the Vance Hall heating plant, as this plant is having to carry Vance Hall and Miller Building, which gives it about twice the amount of space to heat as that for which it was designed.

Very respectfully submitted,

GEORGE R. HARDESTY,
Engineer.

FARMER'S REPORT.

DR. W. W. FAISON, *Superintendent.*

I hereby respectfully submit my report as farmer for the year 1909.

FARM PRODUCTS.

404	barrels corn, at $4.00	$1,616.00

HOUSEKEEPER'S REPORT.

DR. W. W. FAISON, *Superintendent.*

I hereby respectfully submit my report as Housekeeper for the year 1909.

Butter made during the year, 2,500 pounds; lard, 415 pounds; sausage, 435 pounds; soap, 30,000 pounds; pickled cucumbers, 25½ bushels; pickled tomatoes, 18 gallons; sweet pickled tomatoes, 6 gallons; sweet pickled peaches, 7 gallons; sweet pickled apples, 2 gallons; sweet pickled pears, 2 gallons; preserved apples, 12 quarts; preserved pears, 12 quarts, preserved figs, 14 quarts; preserved strawberries, 5 quarts; preserved blackberries, 17 quarts; apple jelly, 6½ quarts.

MRS. W. J. BRYAN,
Housekeeper.

HOUSEKEEPER'S REPORT FOR 1910.

DR. W. W. FAISON, *Superintendent.*

I hereby submit my report as Housekeeper for the year 1910, as follows:

Butter made, 2,599 pounds; lard made, 203 pounds; sausage made, 153 pounds; soap made, 26,000 pounds. Preserves made: Strawberries, 9 gallons; plums, 7 quarts; apples, 8 quarts; figs, 10 quarts; pears, 26 quarts; grapes, 4 quarts. Jelly, apple, 9 quarts. Pickles made: Tomato, 12 quarts; pepper, 3 pecks; peach, 5 pecks. Cucumbers in brine 1 barrel.

Respectfully submitted,

MRS. W. J. BRYAN,
Housekeeper.

November 30, 1910.

Term expires March 12, 1913.

LETTER OF TRANSMITTAL.

To His Excellency, Governor W. W. Kitchin,

Raleigh, N. C.

Governor:—I have the pleasure of handing you the report of Dr. W. W. Faison, Superintendent of the State Hospital at Goldsboro, for the last two years. It shows evidence of continued satisfactory progress in caring for the unfortunate and dependent colored insane. But, if the jails and poorhouses are to be emptied of this unfortunate class, it will be necessary to provide more room, as recommended by Dr. Faison.

The provision of a duplicate generator of heat within the recent past, without the direct aid of the State, and the construction of fire-escapes, have added greatly to the comfort and safety of the inmates in case of accident.

The farm is being rapidly developed and aids materially in the support of the inmates, and adds to their comfort.

The construction of a bridge across Little River and a part of the public highway to Goldsboro is a work very beneficial to the Asylum, for which we felt that the State should have made a special appropriation. But, finding ourselves able to accomplish the work by the aid of the inmates and the earnings of the institution, we built the same, and thus avoided annoying delay, besides assuring the route by the institution of the public highway under course of construction. You will further find Dr. Faison's report an interesting and instructive document.

Respectfully, your obedient servant,

D. E. McKinne,

President Board of Directors.

EXECUTIVE COMMITTEE.

D. E. McKinne, *Chairman.*

W. R. Hollowell. J. G. Anderson.

OFFICERS.

W. W. Faison, M.D. ..... Superintendent.
J. E. Brothers, M.D. ..... First Assistant Physician.
Clara E. Jones, M.D. ..... Second Assistant Physician.
B. R. Lacy ..... Treasurer, *ex officio.*
J. W. Bryan ..... Steward.
Mrs. J. W. Bryan ..... Steward's Clerk.
George R. Hardesty ..... Engineer.
Miss Janet MacDonald ..... Housekeeper.
Miss Luna P. Bridgers ..... Assistant Housekeeper.
R. L. Hill ..... Storekeeper.
Miss Martha Newell ..... Seamstress.
H. S. Toler ..... Farmer.

SUPERINTENDENT'S REPORT.

Goldsboro, N. C., December 12, 1912.

To the Board of Directors of the State Hospital at Goldsboro.

Gentlemen:—The following report of the operations of this institution for the two years ending November 30, 1912, is herewith respectfully submitted:

	Males.	Females.	Total.
Number on roll November 30, 1910	285	444	729
Number received	198	238	436
Number treated	483	682	1,165
Number restored	70	94	164
Number much improved	4	7	11
Number improved	25	27	52
Number unimproved	9	3	12
Number eloped	4	...	4
Number died	65	81	146
Number discharged	177	212	389
Percentage of cures on number received	...	...	37.63
Percentage of deaths on number treated, 1911	...	...	8.09
Percentage of deaths on number treated, 1912	...	...	7.02
Percentage of deaths, average per year	...	...	7.55
Number on roll November 30, 1912	306	470	776
Number present November 30, 1912	294	459	753
Daily average present, 1911	...	...	722
Daily average on roll, 1911	...	...	763
Daily average present, 1912	...	...	746
Daily average on roll, 1912	...	...	786

During the time embraced in this report there was no serious accident of any kind, and the health of the patients was very good. The percentage of restored on number of patients received was 37.63, and the percentage of deaths on whole number under treatment was 7.55. This record compares favorably with that of other institutions in which the inmates are exclusively of the negro race. Tuberculosis, which some claim to be the scourge of this race under all conditions, still claims a greater percentage of deaths here than any other disease. I am glad to say, however, that since the tubercular patients have been segregated and cared for in detached buildings erected especially for them, there have been quite a number of cases arrested and a good many cases apparently cured. I would like to say here that a number of patients when admitted have tuberculosis, some of them in an advanced stage. During the past two years, 42 cases of pellagra were

under treatment, 9 men and 33 women. Of this number, 20 have died, 7 men and 13 women; 3 apparently recovered, 1 man and 2 women. Several of the remaining cases have greatly improved, while the others are steadily growing worse.

Crowded Condition of Institution.—Practically every ward in the institution has been crowded except those in the tubercular buildings. There are now on file 125 applications which were refused for want of room.

In a number of instances, violent cases were admitted in exchange for quiet and harmless patients who could be cared for at the county homes. However, I think the State should make provision for all of her insane so that it would not be necessary for any of them to be sent to the county homes. It may be that she cannot do this now. To relieve the present crowded condition of this institution, I will respectfully suggest that you ask the Legislature for an appropriation of $50,000 for additional room. Only plain and substantial buildings are needed.

Improvements and Repairs.—The most important improvements and repairs that have been made during the past two years are as follows: One two-story granary, 35 x 72 feet, metal roof, first floor concrete, built with bins, racks, etc., for storing all kinds of grain, vegetables, and seeds. One fire-proof cotton storage-house, 24 x 40 feet; concrete floor in horse barn; one 22 x 50 feet metal-roof shelter for woodyard; one shelter 10 x 96 feet added to horse barn for farm implements; one 105-ton reinforced concrete silo for dairy; one brick water-closet built in female courtyard, with 600 feet sewer line; three concrete water troughs built for stock. A new reel house and five new hose boxes have been built; 1,900 feet of new hydrant line have been laid, which, with five new hydrants, give better fire protection for the institution. New concrete walks and steps were laid in front of the superintendent's residence; concrete steps in front of male wing of main building; concrete walks in front of main building; concrete walks for food trucks, from kitchen to male and female dining-rooms. One four-story brick fire-escape has been added to Miller building, one three-story brick fire-escape to male wing, one two-story iron fire-escape to Aycock building. These escapes were built as directed by the State Insurance Commissioner. Six wards in the old wings were refloored and several wards ceiled overhead. Sleeping room was provided for twenty more patients in the male and female tubercular buildings by converting two of the porches in each building into sleeping rooms. The porches and windows of these buildings were screened and both buildings repainted. Six new heating coils were added to the heating plant, a new boiler

feed pump and a twenty-station electric watchman's clock were installed. The male courtyard shelter had a 24 x 26 feet section added to it and the whole shelter covered with metal roofing. Aycock building was supplied with new gutters, an addition made to the blacksmith's shop. In the carpenter's shop, new motor-driven woodworking machinery was installed. A 26 x 50 feet two-story mill house was built, first floor concrete, the sides and roof covered with galvanized corrugated iron.

The following of the above improvements were made from the special appropriation of $3,000 by the last Legislature:

Three fire-escapes	$1,409.00
Floors and ceiling in old buildings	990.88
Addition to heating plant	302.12
Addition to tubercular buildings	300.00

The granary was erected at a cost of $1,854.74 and paid for from the sale of farm and garden products.

I am glad to report that the bridges and road which the board of directors ordered to be built in 1911 have been completed in a most satisfactory way. The work consists of a steel truss bridge 80 feet in length and 18 feet wide, on concrete abutments, over Little River; a wooden bridge, 50 feet in length, 18 feet in width, over a ravine; a causeway, 350 yards long and 30 feet wide. The bridges and causeway are built above high-water mark, and now, during freshets, which are not infrequent, we will not be cut off from Goldsboro. In case of fire at this institution, the city fire department could come to its aid at any time. The steel bridge was constructed by the Oswego Bridge Company of New York; the concrete abutments, the other bridge and causeway, were built by our patients and attendants, with the assistance of a carpenter for a few days only. All of this work was done under the supervision of a bridge and road engineer sent here from the office of the director of Public Roads at Washington City without cost to the institution. This very necessary improvement was made at a cost of $2,163.69 and paid for from sale of farm and garden products.

The Farm, Garden, and Dairy.—Following the plan of rotation of crops with the modern cultivation of them, our lands are being made more productive every year. The estimated value of the farm and garden products for the two years was $39,582.20, at a cost of $15,746.26, leaving a net profit to the institution of $23,835.94. This profit, of course, was made possible by a great deal of the work being done by patients.

The returns from our dairy have been very satisfactory, the dairyman's report showing the number of gallons of milk for 1911 to be

19,578; for 1912, 21,150; total for the two years, 40,728 gallons. Value of same at 25 cents per gallon, $10,182.00; value of other dairy products, $290.37; making total value of dairy products, $10,472.37. Expenses of dairy were $3,591.00, leaving net value of dairy products, $6,881.37.

Finances.—For the two years, 1911 and 1912, the Legislature appropriated for this institution $173,000. Of this amount, $3,000 were for special improvements, $170,000 for maintenance. The latter amount, with the aid from the products of the farm, garden, and dairy, was sufficient for our needs, and we were able to close the period without a deficit. The per capita cost per year was $115.89.

In the steward's report, to which I refer you, you will find a detailed account of all receipts and disbursements.

NEEDS FOR THE NEXT TWO YEARS.

For maintenance for 1913	$90,000
For maintenance for 1914	98,000
For additional room	50,000

In conclusion, I wish to thank the board, the officers and employees, for the assistance they have so generously given me.

Respectfully submitted,

W. W. FAISON,
Superintendent.

Cr.

By Beef killed and hides and calves sold		$ 111.46
By 21,149⅞ gallons milk @ 25 cents		5,287.46
		$5,398.92
Dr.		
To Paid for shorts, bran, and cotton-seed meal	$1,193.50	
To Paid wages of Dairyman and wages and board of helper	596.00	1,789.50
Net value of dairy products		$3,609.42

ENGINEER'S BIENNIAL REPORT.

Dr. W. W. Faison,
Superintendent State Hospital,
Goldsboro, N. C.

Dear Sir:—At your request, I herewith submit to you the report of the engineering department for the two years ending November 30, 1912. This department includes the care of a 450 horse-power boiler plant, one 75 k.w. electric plant, one 50 k.w. electric plant, a steam laundry, one 6-ton ice and refrigerating plant, two 250,000-gallon pumping plants with filter, 11 motors to furnish power for various purposes, and all other equipment used to furnish power, heat, light, and water for all necessary uses and conveniences of the institution.

The most important improvements and repairs made during the past two years were as follows:

One two-story granary, 36 x 72 feet, metal roof, first floor concrete, built with bins, racks, etc., for storing all kinds of grain, vegetables, and seeds; one fire-proof cotton storage-house, 24 x 40 feet; concrete floor in horse barn; one 22 x 50 feet metal-roof shelter for woodyard; one shelter, 10 x 96 feet, added to horse barn for farm implements; one 105-ton reinforced concrete silo for dairy; one brick water-closet built in female courtyard with 600 feet sewer line; three concrete water troughs built for stock.

A reel house and five hose boxes were built and 1,900 feet of new hydrant line were laid, which, with five new hydrants, give better fire protection for the institution.

In front of the Superintendent's residence, a concrete walk and steps were laid; concrete steps in front of male wing of main building; concrete walk in front of Center building; concrete walks for food trucks, from kitchen to male and female dining-rooms.

One four-story brick fire-escape was added to Miller building, one three-story brick fire-escape to male wing, one two-story iron fire-escape to Aycock building. These escapes were built as directed by the State Insurance Commissioner.

Six wards in the old wings were refloored with the best grade of 5/4-inch heart pine flooring that could be purchased.

Wood ceiling was put in several wards to take the place of overhead plastering which was in a bad condition.

All of this new work was painted and a great deal of the old work thoroughly cleaned and repainted.

Several new sinks and closets were installed.

Sleeping room for twenty more patients was provided in the male and female tubercular buildings by changing two porches in each building into sleeping rooms. The porches and windows of these buildings were inclosed with wire screens and both buildings repainted.

The Steward's house was repaired and painted, and the Dairyman's house was also repainted, and in it a new water-closet and bathtub installed.

Six new heating coils were added to Vance Hall and Miller building heating plant, and a new boiler feed pump added to boiler plant.

A new twenty-station electric watchman's clock was installed.

The male courtyard shelter had a 24 x 26 feet section added to it and the whole shelter covered with metal roofing.

New gutters were put on Aycock building.

An addition was made to the blacksmith's shop and a number of tools were purchased for building wagons, farm implements, and for general repair work, etc.

In the carpenter shop was installed new motor-driven woodworking machinery, including rip and cut-off saw, band saw, buzz planer, wood-turning lathe, boring and tenoning machine. This machinery will enable the carpenters to do all kinds of woodwork better, quicker, and cheaper.

A 26 x 50 foot two-story mill house was built, with first floor concrete, the sides and roof covered with galvanized corrugated iron. This house is to give more room for cotton gin, corn mill and fan, feed cutter, thresher, and more storage room for seed cotton.

In conclusion, will say that the Engineering Department is in a good working condition, excepting ice plant, for reconstruction of which material has already been purchased.

Respectfully submitted,

GEORGE R. HARDESTY,
Engineer.

FARMER'S REPORT, 1911.

Dr. W. W. Faison, *Superintendent.*

I hereby respectfully submit my report as farmer for the year 1911.

FARM PRODUCTS.

497½	barrels corn, at $4.25	$ 2,115.08
10	barrels seed corn, at $4.25	42.50
152½	bushels dry peas, at $2	305.00
6,058	pounds pea hulls, at 25 cents	15.14
8,360	pounds soja beans, at 1½ cents	125.40
160	tons ensilage, at $3	480.00
75	acres pasturage, at $5	375.00
1,646	bushels sweet potatoes, at 45 cents	740.70
141½	bushels sweet potato slips, at 40 cents	56.60
60,990	pounds grain and vetch, at $1	609.90
150	bushels peanuts, at $1	150.00
6,350	pounds peanut vines, at 50 cents	317.50
4,060	pounds garden pea-vine hay, at 50 cents	20.30
101,290	pounds pea-vine and soja-bean hay, at $1	1,012.90
40,110	pounds lint cotton, at 9 cents	3,609.90
21,460	pounds oats for feed, at 90 cents	193.14
762	bushels oats (threshed), at 60 cents	457.20
29,475	pounds oat straw, at 40 cents	117.90
497½	bushels wheat, at $1.25	621.87
38,175	pounds wheat straw, at 40 cents	152.70
78	bushels rye, at $1	78.00
11,785	pounds rye straw, at 40 cents	47.14
46,440	pounds forage, at 40 cents	185.76
60	bushels spring Irish potatoes, at $2	120.00
2,150	watermelons, at 10 cents	215.00
250	bushels cantaloupes, at 50 cents	125.00
23	bushels fall Irish potatoes, at $1	23.00
208	bushels beans (sold)	223.89
48	bushels beans (eaten)	48.00
222	bushels garden peas (sold)	251.69
89	bushels garden peas (eaten)	97.90
2,400	bushels cotton seed, at 25 cents	600.00
	Total value of farm products	$13,534.11

GARDEN PRODUCTS.

3,240	bushels spring greens, at 25 cents	$ 810.00
166	bunches asparagus, at 10 cents	16.60

H. S. TOLER, *Farmer.*

HOUSEKEEPER'S REPORT FOR 1911.

Dr. W. W. Faison, *Superintendent.*

I hereby respectfully submit my report as housekeeper for the year 1911.

Butter made during the year	3,671 pounds.
Soap made during the year	27,000 pounds.
Lard made during the year	686 pounds.
Sausage made during the year	812 pounds.
Preserves made during the year:	
Plum	7 quarts.
Apple	40 quarts.
Fig	14 quarts.
Apple marmalade	16 quarts.
Grape jelly	17 glasses.
Apple jelly	50 glasses.
Tomato pickles	11 quarts.
Mustard chowchow	21 quarts.
Spiced tomatoes	5 quarts.
Cucumbers in brine	2 barrels.

Respectfully submitted,

Miss Hattie Smith,
Housekeeper.

HOUSEKEEPER'S REPORT FOR 1912.

DR. W. W. FAISON, *Superintendent.*

I hereby submit my report as housekeeper for the year 1912, as follows:

Butter made during the year	3,292 lbs.
Lard made during the year	933 lbs.
Sausage made during the year	914 lbs.
Soap made during the year	30,000 lbs.
Preserves made during the year:	
Strawberries	13 qts.
Dewberries	9 qts.
Huckleberries	8 qts.
Peach	14 qts.
Pear	7 qts.
Plum	4 qts.
Grape	17 qts.
Canned grapes	4 qts.
Spiced grapes	10 qts.
Jelly made during the year:	
Apple	7 qts.
Grape	19 qts.
Pickles made during the year:	
Beets	3 qts.
Pear	4 qts.
Pepper	½ pk.
Cucumber	1 bu.

Respectfully submitted,

MISS JANET MACDONALD,

Housekeeper.

SEAMSTRESS'S REPORT.

Dr. W. W. Faison, *Superintendent.*

REPORT

OF

THE STATE HOSPITAL

AT

GOLDSBORO, N. C.

FOR THE

TWO YEARS ENDING NOVEMBER 30, 1914

RALEIGH
E. M. Uzzell & Co., State Printers and Binders
1914

BOARD OF DIRECTORS.

W. E. Headen, M.D., *President* . . . . . Carteret County
Term expires March 6, 1917.

J. A. Beaman . . . . . Sampson County
Term expires March 9, 1915.

J. T. Hoggard, M.D. . . . . Pender County
Term expires March 9, 1915.

J. G. Anderson . . . . . Greene County
Term expires March 9, 1915.

F. B. McKinne . . . . . Franklin County
Term expires March 6, 1917.

F. W. Habel . . . . . Wake County
Term expires March 6, 1917.

W. L. Hill . . . . . Duplin County
Term expires March 12, 1919.

J. W. Thompson . . . . . Wayne County
Term expires March 12, 1919.

J. C. Cromartie . . . . . Bladen County
Term expires March 12, 1919.

LETTER OF TRANSMITTAL.

To His Excellency, Locke Craig,

Governor of North Carolina.

Governor:—I hereby submit to you for your consideration the biennial report of Dr. W. W. Faison, Superintendent of the State Hospital at Goldsboro, N. C. The Board of Directors beg to call your attention to his recommendations as to what is needed at our institution. We have considered the same, and unanimously resolved that they are necessary for the good and comfort of our unfortunate ones.

W. E. Headen,

President Board of Directors.

EXECUTIVE COMMITTEE.

F. W. Habel, *Chairman.*

J. W. Thompson. J. G. Anderson.

OFFICERS.

W. W. Faison, M.D.	Superintendent
J. E. Brothers, M.D.	First Assistant Physician
Clara E. Jones, M.D.	Second Assistant Physician
W. A. Murphy, M.D.	Clinical Director
B. R. Lacy	Treasurer, *ex officio*
J. W. Bryan	Steward
Mrs. J. W. Bryan	Steward's Clerk
George R. Hardesty	Engineer
Miss Hattie M. Smith	Housekeeper
Miss Luna P. Bridgers	Assistant Housekeeper
R. L. Hill	Storekeeper
Miss Martha Newell	Seamstress
H. S. Toler	Farmer

SUPERINTENDENT'S REPORT.

Goldsboro, N. C., December 10, 1914.

To the Board of Directors of the State Hospital at Goldsboro.

Gentlemen:—The report of the operations of this institution for the two years ending November 30, 1914, is herewith respectfully submitted:

	Males.	Females.	Total.
Number on roll November 30, 1912	306	470	776
Number received	236	300	536
Number treated	542	770	1,312
Number restored	80	84	164
Number improved	19	34	53
Number unimproved	3	3	6
Number eloped	6	0	6
Number died	102	102	204
Number discharged	210	223	433
Percentage of cures on number received	---	---	30.59
Percentage of deaths on number treated	---	---	9.54
Number on roll November 30, 1914	331	548	879
Number present November 30, 1914	324	536	860
Daily average present, 1913	---	---	761
Daily average on roll, 1913	---	---	809
Daily average present, 1914	---	---	825
Daily average on roll, 1914	---	---	863

During the time embraced in this report, 536 patients were admitted and 1,312 were under treatment—the largest number admitted and treated in the history of the institution. Forty-seven applicants were accepted who were never brought to the Hospital, while 74 applications were refused.

We had, comparatively, but few cases of acute sickness in the past two years, but there were quite a number of old and feeble patients suffering from chronic diseases.

On January 25, 1913, it was discovered that smallpox was in the families of two of the employees, a child in each family having it. These families were promptly quarantined. Later, however, it was found that 11 patients (all females) had contracted this disease. They were segregated and quarantined at once. The cases were very mild, and all recovered. In this connection, I will state that all the patients, the employees and their families were vaccinated at once, and that, since then, all patients and employees are vaccinated on entering the institution.

There were 97 cases of pellagra under treatment; 22 of these were present at the beginning of the period, 16 developed it in the Hospital,

and 59 had it on admission. Of those treated, 4 were discharged as restored, 1 as improved, 1 as unimproved, 49 died and 42 remain in the Hospital.

Of the 536 patients received during the two years, 11 per cent had pellagra on admission, and about 24 per cent of the whole number of deaths were the result of this disease.

I am glad to report that tuberculosis, which has been so prevalent, is on the decrease.

I regret to say that two of the male patients lost their lives from injuries, one from an injury inflicted by a bull, the other from a blow dealt by a fellow-patient with his fist. The circumstances in the latter case were reported to the coroner, but he did not think an inquest necessary.

About 6 o'clock a. m., February 21, 1914, fire was discovered in the dry-room of the laundry. Our fire department responded promptly to the call, but, as the fire was between the ceiling and the metal floor of the building, it was difficult to reach it. As soon as the fire was discovered, in response to a call for help, the Goldsboro fire department came out and gave valuable assistance. Before the fire could be extinguished, however, the drier, roofs, floors, and contents of the dry-room and the two ironing-rooms were destroyed. The adjuster estimated the loss at $3,033.83, which amount was paid by the insurance companies and used in repairing damages.

At a call meeting of the Executive Committee, it was decided to erect a new laundry and convert the old one into dormitories for male patients.

IMPROVEMENTS.

The most important improvements during the past two years are as follows:

One two-story building, known as McKinne building, 34′x 98′, brick, metal roof, with basement. The basement and first floor of this building are used for the new cold storage, ice plant, paint shop, and store supplies. The second floor furnishes accommodations for 25 patients.

Additions to male and female epileptic buildings, each addition, 31′x 65′, two stories with basement. These extensions made room for 44 additional patients in each building.

A two-story brick building, 36′x 80′, was built and equipped for a new laundry and the old laundry was converted into quarters for patients and will accommodate 57.

The former storeroom was converted into a dining-room, and the old dining-room into a dormitory for male patients.

A smokehouse, 18′x 26′, 20′ high, brick, with metal roof, cement floor, was erected.

One cottage, 16′x 32′, with a 10′x 28′ shed, was built for the accommodation of employees.

A new six-room cottage, 32′x 48′, wood with metal roof, was erected for the storekeeper and dairyman at a cost of $1,292, from funds from cash accounts.

The new laundry building was erected at a cost of about $5,000; $3,705 of this amount was also paid from the local cash account.

For a more detailed description of the above buildings and for a list of the minor improvements, see Engineer's report attached.

The opening of the new wards gave ample room for all male patients, but the female wards were still overcrowded, and it became necessary to put 35 female patients in a ward in one of the male buildings. This shows the urgent necessity for more room for female patients.

I would suggest that the Board ask the Legislature for an appropriation of $25,000 for additional room for females.

During the summer of 1914 the inspector of the South-Eastern Underwriters Association, and also the inspector of the State Insurance Commission, visited the institution and made an inspection of same. They recommended changes in the electric wiring and fire protection equipment. The rewiring will be done in the near future, but there is no money for making the recommended changes in the fire protection equipment. Three thousand five hundred dollars would be the amount required for this purpose. For the better protection of life and property from fire, I recommend that the Board ask the Legislature for the above amount.

PATHOLOGICAL LABORATORY.

There were twenty-four autopsies performed and the following examinations were made:

Urinary analyses	350
Spinal fluid	20
Spinal fluid, cell count	15
Differential counts	23
White counts	35
Blood for malaria	25
Widal reactions	6
Vaginal smears	20
Wassermann reactions	70
Fecal analyses	45
Gastric contents	3
Total	672

FARM, GARDEN, AND DAIRY.

Total value of farm, garden, and dairy products	$24,798.49
Total expense of farm, garden, and dairy	10,518.71
Net value of farm, garden, and dairy products	$14,279.78

FINANCES.

Appropriation for maintenance for 1913	$ 90,000
Appropriation for maintenance for 1914	98,000
Appropriation for improvements	25,000
Total	$213,000

The per capita cost for maintenance for 1913 was $117.77. For 1914 it was $119.24. An average of $118.50.

In the Steward's report, to which I refer you, you will find an account of all receipts and disbursements.

NEEDS FOR THE NEXT TWO YEARS.

For maintenance for 1915	$108,000
For maintenance for 1916	114,000
For additional room for female patients	25,000
For changes in the equipment of fire department	3,500
An additional dry-room section for laundry	375
An additional washer for laundry	580

In conclusion, I desire to express to the Board, the officers, and employees my hearty appreciation of their coöperation in carrying on this work.

Respectfully submitted,

W. W. FAISON,
Superintendent.

REPORT OF THE CLINICAL DIRECTOR.

The general plan of the work in this department has been to obtain more complete and satisfactory clinical information relative to the patients admitted than has been possible heretofore. All cases are presented at staff meetings for discussion with a view to eliminating, as far as possible, the personal equation in making diagnoses. Because of the difficulties in classification into groups, it is to be expected that there will be variations from year to year.

ANAMNESES.

It is often impossible to reach a satisfactory conclusion as to the existing mental disorder without reliable information in regard to the patient's history previous to admission. The histories given on commitment are usually very meager and at times misleading. Efforts are made to supplement this by further inquiry, as far as possible; but the results have not been very satisfactory.

There were 536 patients admitted during the two years; 236 males and 300 females. The accompanying table shows the number of these cases assigned to each diagnostic group.

TRAUMATIC PSYCHOSES.

Of the four classified under this heading, one was struck by an automobile, one had a gun-shot wound of the head, and two followed blows on the head. They showed delirium or were in a confused state. One was aphasic and deteriorated.

SENILE PSYCHOSES.

Three of the forty-six cases were second admissions and two were addicted to alcohol.

The following types were found:

Paranoid states	6
Deterioration	31
Agitated and depressed	5
Confused	4
	46

DEMENTIA PARALYTICA.

The number of these—thirteen—is less than would be expected in the race. Two were of the tabetic form. Histories of infection are, of course, difficult to obtain. The Wassermann and spinal puncture were used as an aid to diagnosis. All the cases were in males.

ALCOHOLIC AND DRUG PSYCHOSES.

There seems to be a slight increase in the number of alcoholics admitted. One was a second admission. Of the fifteen, there were four who had also taken drugs, cocaine, or opium. The family histories of four cases showed alcoholism. More accurate information would probably have increased the number greatly.

The types were:

Acute hallucinosis	6
Chronic hallucinosis	1
Deterioration	4
Paranoid states	4

INFECTIVE-EXHAUSTIVE.

Of the thirty grouped under this heading, two were second admissions and had been discharged as restored. The puerperal cases furnish the majority. Broken compensation in organic heart disease furnishes a very characteristic picture. Many of the patients were in a serious condition when admitted.

The diseases associated with the conditions were:

Typhoid fever	4
Pulmonary tuberculosis	6
Chronic nephritis	6
Puerperal conditions	10
Diabetes mellitus	1
Organic heart disease	3
	30

ALLIED TO INFECTIVE-EXHAUSTIVE.

Under this group are nineteen cases. The etiological factor could not be determined. In some the condition was not clearly defined and in others there was a suggestion of another condition. None had previous admissions and a number made prompt recoveries.

INVOLUTION MELANCHOLIA.

Three are diagnosed as involution melancholia. These agitated depressions are very suggestive of the manic-depressive type, but the features are not sufficiently marked in these cases to classify them in other groups.

UNDIFFERENTIATED DEPRESSIONS.

Of the nineteen cases, seven gave a definite history of worry over family or financial matters. In three instances there were other cases of mental disease in the family.

DEMENTIA PRÆCOX.

This is one of the largest groups, containing ninety-two of the admissions for the two years. Of the allied to dementia præcox, eighteen were discharged as cured. No effort has been made to classify them according to the clinical types outlined by Kraepelin. A large number are of a defective or inferior make-up. The frequency of the "shut-in" type is noticeable. There was family history of insanity in ten cases.

PARANOIC CONDITIONS.

Where paranoid states are not accompanied by definite deterioration, they are grouped under this heading. These cases show systematized delusions with adequate emotional reactions. None of them had previous hospital residence. There were fourteen admitted.

EPILEPTIC PSYCHOSES.

Thirty-five patients suffering from epilepsy were received. Of them, twenty showed deterioration; two were in a paranoid state; eight hallucinatory excitement; three simple excitement, and two were not insane.

CONSTITUTIONAL INFERIORITY.

The difficulty in obtaining a full anamneses makes this a hard group to differentiate. They are of the emotionally unstable and accentric type, with transitory attacks of excitement and episodes. There were twenty-one received.

MANIC-DEPRESSIVES.

This contains the largest number of cases in any group, comprising one hundred. Thirty-five had one previous admission; nine had two; two had three; and one had four previous admissions.

PSYCHOSES WITH PELLAGRA.

Only those cases in which pellagra was thought to be the exciting cause are included under this head. There seems to be quite a variation in the clinical manifestations among the cases. They resemble more or less clearly certain features of the recognized psychoses. Five of them were of the manic-depressive type. Twelve were of the dementia præcox type, and twenty-eight of the infective-exhaustive.

PSYCHOSES WITH ORGANIC NERVOUS DISEASE.

Placed under this head are a number of organic nervous disorders accompanied by mental disturbance. In a total of thirty-two cases there were nine arterio-sclerotic and twenty-one cerebral syphilis cases.

IDIOCY AND IMBECILITY.

Three idiots and six imbeciles were admitted. Two were epileptic. One child with apparently healthy parents was one of three children who were idiots.

UNCLASSIFIED.

Thirty-four of those admitted could not be satisfactorily classified. In some instances no information could be obtained. Three died in forty-eight hours after admission.

LABORATORY.

During the past year we have carried on the usual routine clinical examinations of urine, sputum, and blood, as well as special serological examinations as the cases suggest. We have done the Wassermann test on seventy cases; spinal punctures and cell count on fifteen. There were a number of differential blood counts and examinations for malaria organism. A routine examination of urines is made on admission, and as far as possible a Wassermann reaction on all suspected cases. Sputum examination for tubercle bacillus was done on sixty cases.

Anatomical findings were:

Number.	Clinical Diagnosis.	Anatomical Diagnosis.
301.	Pulmonary hemorrhage	Ruptured aneurism of aorta.
302.	Cerebral syphilis	Chronic endarteritis. Abscess of brain. Atrophy of liver.
303.	Pellagra	Chronic meningitis. Hypostatic pneumonia.
304.	Pellagra	Edema of pia mater. Ileo-colitis. Adhesive pleurisy.
305.	Pellagra	Meningeal hyperæmia. Brown atrophy of heart. Ileo-colitis. Degeneration of lat. columns.
306.	Pellagra	Lepto-meningitis. Gastroenteritis. Atrophy of ant. horn ganglia cells.
307.	Pellagra	Edema of pia. Chr. nephritis. Ileo-colitis.
308.	Nephritis and pellagra	Hyperæmia of brain and cord. Interstitial nephritis.
309.	None	Chr. diffuse nephritis. Ulcer of stomach.
310.	Traumatic psychosis	Pachyleptomeningitis surrounding spicule of bone. Cortical softening.
311.	None	Fatty degeneration and hypertrophy of heart. Old pleurisy.
312.	Diarrhea	Hypostatic pneumonia. Ileo-colitis.
313.	Epilepsy	Quiescent apical tuberculosis. Cerebral atheroma. Chr. nephritis.
314.	Epilepsy	Syphilitic endarteritis. Old cerebral abscess.

STEWARD'S BIENNIAL REPORT, DECEMBER 1, 1912, TO NOVEMBER 30, 1914.

State Hospital at Goldsboro,
November 30, 1914.

To Dr. W. W. Faison, *Superintendent.*

I herewith submit my biennial report covering the two fiscal years December 1, 1912, to November 30, 1914, consisting of statement showing receipts and disbursements, accompanied by a classified statement of disbursements; statement of average population, with per capita cost of maintenance; summary of receipts and disbursements on local cash account, with classification of same, and statement of dairy account.

Respectfully submitted, J. W. Bryan,
Steward.

Receipts and Disbursements, December 1, 1912, to November 30, 1913.

1912.			
Dec. 1.	Legislative appropriation for support		$ 90,000.00
1913.			
July 1.	Legislative appropriation for permanent improvements		25,000.00
	Total receipts		$115,000.00

To wages of dairyman	450.00	
To wages and board of helper	260.00	2,043.90
Net value dairy products		$4,419.20

Respectfully submitted, J. W. Bryan,
Steward.

ENGINEER'S BIENNIAL REPORT.

DR. W. W. FAISON,

Superintendent State Hospital at Goldsboro, N. C.

DEAR SIR:—At your request, I herewith submit to you the report of the engineering department for the two years ending November 30, 1914.

This department includes the operation and care of all equipment to furnish heat, light, water, and power used for the various needs of the institution, also includes the supervising and installing all additions and improvements which have been carried on during the past two years.

The most important improvements and repairs made during the past two years are as follows:

One building, 34′x 98′, known as McKinne Building, two stories, with basement, brick with metal roof.

The basement and first floor are used to house new cold-storage ice plant, paint shop, and store supplies.

The second floor, equipped with heat, toilet and bathroom, and lights, furnishes quarters for 25 patients.

An addition to both male and female Epileptic buildings has been built, each 31′x 65′, two stories with basement, using same type of construction as original buildings, with two large two-story porches entirely inclosed with wire guards and an iron fire-escape on end of each.

These additions made room for 44 additional patients in each building.

A new building, 36′x 80′, has been built, two stories, brick walls with metal trussed roof, first floor of cement, equipped with two elevators, hot and cold water, steam and electricity, for a new laundry building, into which all of the equipment from the old laundry was moved and installed. This building will furnish room for additional machinery to meet the increasing needs of the institution for a few more years.

The old laundry has been converted into quarters for patients.

A new brick smokehouse, 13′x 26′, with cement floor and metal roof, has been built.

The supervision and all common labor used in constructing these buildings were furnished from the institution's force of employees and patients. The masons and larger portion of carpenters were hired.

Nine double kitchens, 10′x 24′, and ten single kitchens, wood with metal roofs, have been built for the families of employees.

A six-room cottage, wood with metal roof, has been built for the storekeeper and the gardener, the same equipped with electric lights, two bathrooms and water-closets.

One cottage, 16′x 32′, with a shed, 10′x 28′, wood with metal roof, has been built for employees.

Several wards have been painted and equipped with inside guards.

The old lumber shed has been torn down, and erected near the river.

A new 600 h. p. boiler feed hot-water heater has been purchased and installed.

The hot-water heater which furnishes hot water for laundry purposes, bathing, etc., has been retubed.

During the summer the inspector of the South-Eastern Tariff Association and also the inspector of the State Insurance Commission visited the institution and made a thorough inspection of it. They urgently recommended changes in the electric wiring and fire protection equipment. The material has been ordered for the recommended changes in electric wiring, and the work will be done by our own force. But, for lack of funds, we are not able to carry out the other recommendations, which would require $3,500.

Our water mains, hose, and pumps are far too small for the number of lives and amount of property which are to be protected, and not being of standard make, the Goldsboro Fire Department could not render us effective assistance, should we need it.

The inspectors recommended that we get a larger fire pump, hose cart, 1,000 feet standard 2½-inch hose with nozzles and lay about 1,400 feet of 6-inch cast-iron water mains and put in 12 standard hydrants.

This new equipment would not only lessen the danger of loss of life and property by fire, but would also tend to lessen the insurance rate.

I would suggest that an additional dry-room section for the laundry be purchased to meet the present demands, at a cost of $375; also an additional washer is needed, costing about the same amount, $375.

I would also suggest that a 35 h. p. electric motor be purchased for use as a portable motor at the barn for driving farm machinery, etc., at a cost of about $400.

In conclusion I will say that all the equipment in the engineering department is in good working condition and this department is furnished with a reasonable amount of competent and faithful help.

Respectfully submitted,

George R. Hardesty,
Engineer in Charge.

FARMER'S REPORT, 1913.

DR. W. W. FAISON, *Superintendent.*

I hereby respectfully submit my report as farmer for the year 1913.

FARM PRODUCTS.

485	barrels corn, at $4.25	$ 2,061.25

LETTER OF TRANSMITTAL

To His Excellency, Governor Locke Craig,
Raleigh, N. C.

Sir:—I herewith present to you for your consideration the biennial report of Dr. W. W. Faison, Superintendent of the State Hospital at Goldsboro, N. C.

The management of this institution was economical and efficient and met the approval of the Board of Directors.

We hope that your Excellency will approve of the several recommendations and that the Legislature will make the necessary appropriations for same. Respectfully submitted,

J. W. Thompson,
President Board of Directors.

BOARD OF DIRECTORS

J. W. Thompson, President.....Wayne County
Term expires March 12, 1919.

BIENNIAL REPORT

OF THE

STATE HOSPITAL AT GOLDSBORO

TWO YEARS ENDING NOVEMBER 30, 1916

SUPERINTENDENT'S REPORT

GOLDSBORO, N. C., December 14, 1916.

Gentlemen of the Board of Directors of the State Hospital at Goldsboro:

I herewith submit for your consideration a report of the operations of this institution for the two years ending November 30, 1916.

MOVEMENT OF POPULATION

	Males	*Females*	*Total*
Number on the roll November 30, 1914	331	548	879
Number admitted	313	369	682
Total number treated	644	917	1,561
Discharged as restored	98	106	204
Discharged much improved	....	2	2
Discharged improved	36	29	65
Discharged unimproved	11	11	22
Discharged eloped	....	2	2
Died	113	138	251
Total removed	260	286	546
Percentage of cures on number received	....	.....	30
Percentage of deaths on number treated	....	.....	10
Number on roll November 30, 1916	380	625	1,005
Number present November 30, 1916	366	603	969
Daily average present, 1915	....	.....	894
Daily average on roll, 1916	....	.....	936
Daily average present, 1916	....	.....	954
Daily average on roll	....	.....	994

Ninety applications were refused and thirty applicants who were accepted did not come.

As stated above, there were at the beginning of the term 879 patients; 682 patients were admitted, making number under treatment 1,561—249 more than were treated the preceding biennium. There are now enrolled 1,005 patients, of whom 969 are present.

The institution is now full, and additional room is a necessity.

I regret to have to report the death of a patient from an injury. A male patient was pushed down and in the fall received a blow causing concussion of the brain, from which injury he died. Both men were blind, and the injury was not intentional. The coroner was informed, and came out and examined the body, and found that an inquest was unnecessary.

I am glad to report that the pellagra situation here has greatly improved, there being only 7 active cases in the hospital.

Of the 133 patients who had pellagra on admission, many of them were in a very deplorable condition, twenty-three died within thirty days and forty-four within sixty days. Although these patients had good hygienic surroundings and nursing here, and an abundant daily supply of milk, fresh beef, legumes, and other nutritious food, they did not recover, as we are informed they do in some other institutions.

Negroes, perhaps, are more susceptible and less resistant to the cause or causes of pellagra than the white race.

IMPROVEMENTS

A new 6-inch hydrant line has been laid around the buildings, with thirteen two-way hydrants installed at the most convenient places for protection against fire.

A new 500 G. P. M. Underwriters' fire pump has been installed, with all the possible connections to give the best protection against fire.

Eleven hundred feet of fire hose, with two small and one large reel cart and all necessary wrenches, nozzles, etc., have been purchased and placed at the most convenient places.

All of this equipment is standard, and will enable the Goldsboro Fire Department to help us in case we should need help.

A new 7 by 10 inches triplex power pump has been installed to meet the increasing needs for more water.

A new 70 by 40 inches washing machine has been added to the laundry equipment to meet the ever increasing demands for more laundry work.

A large and modern dairy barn has been built. This includes barn for fifty cows, equipped with Louden stanchions, concrete floors, mangers, etc.; also, the old 105-ton silo with a new 145-ton silo and a large storage space for feed, and a room for the dairyman.

A new 30 h. p. motor has been purchased and mounted on skids, to be used as a portable motor around the barns for the various farm purposes.

A new and larger food chopper and a 2½ barrel dough mixer has been added to the cooking department.

A 16 by 28 feet paint shop has been built.

A 20 by 40 feet potato house has been built, according to specifications furnished by the United States Department of Agriculture. This is to be used to cure, or dry, sweet potatoes, etc., and store them so as to practically eliminate our usual loss from rotting.

REPAIRS

The usual repairs have been kept up, a full account of which will be found in the engineer's report, which is attached.

FARM, GARDEN, AND DAIRY (1915)

Estimated value of farm and dairy products	$ 19,816.77
Estimated value of garden products	7,094.60
Total	$ 26,911.57
Expense of farm, garden, and dairy	6,971.79
Net value of farm, garden, and dairy products	$ 17,939.78

Farm, Garden, and Dairy (1916)

Estimated value of farm and dairy products	$ 21,111.14
Estimated value of garden products	7,107.57
Total	$ 28,218.71
Expense of farm, garden, and dairy	10,725.50
Net value of farm, garden, and dairy	$ 17,493.29

Finances

Appropriation (1915)	$100,000.00
Appropriation (1916)	105,000.00
Appropriation for permanent improvement	4,550.00
Total	$209,550.00

These appropriations have been expended, and, with the assistance of the farm, garden, and dairy products, there was no deficit at the end of the biennium.

For a more detailed account of the finances, see the steward's report, which is attached.

Needs for the Next Two Years

For maintenance for 975 patients (1917)	$135,000.00
For maintenance for 1025 patients (1918)	142,000.00
For new building for 130 female patients	60,000.00
For vegetable room and cannery	2,400.00
For steel tank and tower	7,800.00
For improvements of spur-track (new rails)	3,500.00

Owing to the increased number of patients present and the very high cost of living, $135,000 will be required for maintenance for 1917 and $142,000 for maintenance for 1918.

As stated above, the Hospital is full and more room is urgently needed. I suggest that you ask for an appropriation of $50,000 for this purpose. With this amount, it is estimated that a building can be erected and equipped that will furnish accommodation for 130 patients.

A building in which to prepare vegetables and establish a cannery is badly needed, and I suggest an appropriation of $2,400 for this purpose.

There are three old cast-iron tanks of 15,000 gallons capacity used for storage of reserve water and located in the attics. One of these tanks has become useless and the other two are in bad condition. I recommend that these tanks be removed and that you ask for a steel tank and tower, this tank to have a capacity of 75,000 gallons, the tower of sufficient height and erected near the boiler plant.

We use about 225,000 gallons of water per day, and should have a tank of sufficient capacity to hold a large amount of reserve water in case of fire; and from a sanitary as well as from a fire protection point of view this improvement should be made. Our engineer estimates the cost at $7,800.

I wish to call the Board's attention to the fact that we need heavier rails for our spur-track, which is seven-tenths of a mile long. This track was

built about twenty years ago with 50-pound rails, when the engines and cars were only about half the weight now in use. The passing of these heavy cars and engines over the siding bends and breaks the rails and damages the cross-ties, thus rendering the track unsafe to be used. The constant repairing of this track is very expensive, and the replacing of the old rails with 75-pound rails would be the means of a great saving to the institution. The estimated cost of this much needed improvement is $3,500.

In conclusion, I wish to express my sincere appreciation to the Board, the officers and employees, for their loyal support in aiding me to carry on the work of this institution. Respectfully submitted,

W. W. FAISON.

To paid wages and board of helper	260.00	
		2,657.25
Net value of dairy products		$5,253.97

Respectfully submitted,

J. W. BRYAN, *Steward.*

ENGINEER'S BIENNIAL REPORT

To Dr. W. W. Faison,
Superintendent of State Hospital at Goldsboro, N. C.

Dear Sir:—At your request, I herewith submit to you the report of the Engineering Department for the two years ending November 30, 1916.

This department has operated and kept in running order all equipment used to furnish heat, lights, water, and power used for the various needs of the institution; also, has installed all new equipment that has been purchased; also, supervised the erection of all additions and improvements that have been made during the past two years.

The most important repairs and improvements made during this time are as follows:

Repairs

The electric wiring system in all the buildings has been completely rewired or overhauled, according to the underwriters' requirements, and has been inspected by their inspector and the Insurance Commissioner's inspector.

A larger condenser has been added to the ice plant, which has increased the capacity of the cold storage and ice plant.

The steward's house has been covered with tin.

The gardener's house has been covered with tin; also, a 16 by 12 feet room with a small porch has been added.

The female courtyard has been enlarged and the greater part of the old fence has been renewed.

The horse barn, old cattle barn, and the farmer's toolroom have been covered with galvanized corrugated iron.

The old dairy barn and old cattle barn have been moved to more convenient and suitable locations.

The settings of the boilers have been changed so as to cause the coal consumption to be less, as the combustion is better.

Improvements

A new 6-inch hydrant line has been laid around the buildings, with thirteen two-way hydrants installed at the most convenient places for protection against fire.

A new 500 G. P. M. Underwriters' fire pump has been installed, with all the possible connections to give the best protection against fire.

Eleven hundred feet of fire hose, with two small and one large reel cart and all necessary wrenches, nozzles, etc., have been purchased and placed at the most convenient places.

All of this equipment is standard, and will enable the Goldsboro Fire Department to help us in case we should need help.

A new 7 by 10 inches triplex power pump has been installed to meet the increasing needs for more water.

A new 70 by 40 inches washing machine has been added to the laundry equipment to meet the ever increasing demands for more laundry work.

A large and modern dairy barn has been built. This includes barn for fifty cows, equipped with Louden stanchions, concrete floors, mangers, etc.; also, the old 105-ton silo with a new 145-ton silo and a large storage space for feed, and a room for the dairyman.

A new 30 h. p. motor has been purchased and mounted on skids, to be used as a portable motor around the barns for the various farm purposes.

A new and larger food chopper and a 2½ barrel dough mixer has been added to the cooking department.

A 16 by 28 feet paint shop has been built.

A 20 by 40 feet potato house has been built, according to specifications furnished by the United States Department of Agriculture. This is to be used to cure, or dry, sweet potatoes, etc., and store them so as to practically eliminate our usual loss from rotting.

SUGGESTIONS FOR IMPROVEMENTS

During the past fifteen years our equipment for the reserve storage of water and to furnish water under pressure for the various needs of the institution has consisted of three tanks placed in the attic of the buildings. Each tank was built of sheet-iron only three-sixteenths of an inch thick, and each with a capacity of 15,000 gallons, which made a total of 45,000 gallons.

Last spring one of these tanks became so weak that a section of the bottom gave away and flooded the building, and had to be cut out of service, as it was too rotten to repair. This left us with a reserve of less than 30,000 gallons, as one of the other tanks is not safe to fill to the top. This leaves us with a supply which is not sufficient to last two hours during the rush hours of the day, in case of a breakdown or other trouble.

Our consumption for the day of twenty-four hours is from 200,000 to 222,000 gallons, which makes the consumption for one hour during the rush hours of the day about 18,000 gallons.

We are afraid to wash out the tanks now in use, for fear of scraping holes in them.

I would suggest that a steel tank and tower be purchased as soon as possible, with the tank 95 feet from the ground and with a capacity of 75,000 gallons, or 100,000 if possible.

The demand for water has increased considerably in the past fifteen years, and the capacity has recently been decreased by one-third.

We have asked for approximate quotations for a suitable tank and tower, to be erected next March, from a reliable concern, and their quotations are as follows:

One 75,000-gallon tank with steel tower, bottom of tank to be 95 feet from ground.....$7,800, erected
One 100,000-gallon tank and tower (same as above..... 9,100, erected

The underwriters' and Insurance Commissioner's inspectors have recommended this.

I suggest that a small addition be built to the kitchen to furnish more room for issuing food and to help avoid the confusion caused by the lack of floor space.

With this addition a much needed cannery could be built adjoining. The cannery is the best paying department in the institution, and has the poorest

equipment. The present cannery is only a small shelter built for cleaning vegetables, etc., under, and it is crowded and the women are exposed to the cold without any economical means of heating it. An addition large enough to relieve this trouble can be built for $2,400.

I will also suggest that the Board's attention be called to the condition of our railroad siding, which is seven-tenths of a mile long, and was built several years ago of light rail for cars and engines which weighed just half as much as the ones which are run over it now. This causes the upkeep to be unreasonably high and our risk unnecessarily great, as the large Southern Railway engines and loaded cars are continually bending the rails and often breaking them, and the cross-ties do not last near as long, as they are often broken or mashed on account of the small space over which the weight is distributed, caused by the small rails.

The Southern Railway agent has recommended that we lay 75-pound rails, and the company has often threatened to stop its engines from coming over our track with freight on account of danger from loss of time and danger from wrecks.

I suggest that you ask for $3,500 to add to the returns from the sale of the old rails—which we can easily find a sale for—and lay the 75-pound rails. The saving from the upkeep after the 75-pound rails are laid would be equal to 15 or 20 per cent interest on the money invested in new rails, besides the danger from wrecks, which are liable to occur at any time.

Respectfully submitted, George R. Hardesty,
Engineer in Charge.

THE FARMER'S REPORT

Farm Products of 1915

To Dr. W. W. Faison,

Superintendent of State Hospital at Goldsboro, N. C.

I respectfully sumbit the following report for the year 1915.

484	bbls. corn	@ $ 4.25	$ 2,057.00

HOUSEKEEPER'S REPORT

Dr. W. W. Faison, *Superintendent.*

I hereby submit my report as housekeeper for the year 1915, as follows:

Apple jelly	26 qts.
Apple preserves	11 qts.
Beet sweet pickles	20 qts.
Butter	3,955 lbs.
Crab-apple jelly	3 qts.
Crab-apple preserves	9 qts.
Cucumber pickles	22 bbls.
Fig preserves	13 qts.
Grape spiced	22 qts.
Lard	2,346 lbs.
Mustard pickles	14 qts.
Plum preserves	10 qts.
Pepper pickle, stuffed	24 qts.
Pepper hash	16 qts.
Pepper canned	4 qts.
Peach sweet pickle	14 qts.
Pear preserves	6 qts.
Pear marmalade	7 qts.
Sausage	1,368 lbs.
Soap	30,000 lbs.
Tomato sweet pickles	2 qts.
Tomato pickles	10 qts.
Tomato ketchup	18 qts.

Respectfully submitted,

Miss Hattie Smith,
Housekeeper.

Miss Luna Bridgers,
Assistant Housekeeper.

Dr. W. W. Faison, *Superintendent.*

I hereby submit my report as housekeeper for the year 1916, as follows:

Apple jelly	35 qts.
Apple preserves	28 qts.
Butter	3,869 lbs.
Crab-apple preserves	10 qts.
Cucumber pickles	22 bbls.
Fig preserves	9 qts.
Grape preserves	20 qts.
Grape jelly	6 qts.
Lard	1,596 lbs.

Pear marmalade	12 qts.
Pear preserves	8 qts.
Peach sweet pickle	6 qts.
Pepper hash	7 qts.
Plum preserves	12 qts.
Sausage	1,786 lbs.
Soap	30,000 lbs.

Respectfully submitted,

MISS HATTIE SMITH,
Housekeeper.

MISS LUNA BRIDGERS,
Assistant Housekeeper.

LETTER OF TRANSMITTAL

RALEIGH, N. C., December 21, 1918.

To His Excellency, T. W. BICKETT,
Governor of North Carolina.

SIR:—On behalf of the Board of Directors of the State Hospitals of North Carolina, I beg to submit herewith the reports of the superintendents, showing in detail all the operations at each hospital for the two years beginning December 1, 1916, and ending November 30, 1918.

The institutions and the State suffered a great loss in the death of Mr. Charles P. Matheson, an honored and useful member of this Board and a gentleman of sterling character.

Your special attention is called to the fact that a deficit is shown at each institution. It is a source of gratification that this deficit is not larger as, because of war conditions throughout the entire period, the price of labor and of supplies of every kind have been excessively high.

Two years ago the directors of the three hospitals asked for increased appropriations, basing their request on the advanced prices then prevailing. The General Assembly thought best to curtail the amounts asked for, and did so. Prices continued to advance, and, clearly foreseeing that the appropriations would be inadequate, the directors, in person and by letter, in May, 1917, called the matter to the attention of yourself and your Council of State.

After due consideration the directors were advised to make the available funds go as far as possible and when they were exhausted to call upon you for further instructions. This course was followed and every possible economy was practiced. Rooms were kept empty because funds were not sufficient to support the present population.

There are now empty rooms sufficient to accommodate at Morganton 100 and at Raleigh 110 additional patients. Because of lack of funds these rooms could not be used, although there were many applicants on the waiting list, and some unfortunately lying in the county jails.

In October, 1918, your attention was again called to the lack of funds, and your Council of State authorized the directors to borrow for Goldsboro $30,000, for Raleigh $30,000, and for Morganton $60,000. The hospitals did not find it necessary to borrow quite so much, although at Morganton it was found necessary to leave some outstanding bills. Attention is called to these matters in the various reports, and the General Assembly is asked to provide for these deficits in addition to their appropriation for maintenance for the next two years.

The directors would suggest and most earnestly urge that authority be lodged in some one to provide for emergencies of this kind so that the directors may not be called upon to assume personal responsibility for the support of these institutions or to ask the banks to make loans for which there exists no authority.

Your attention is further directed to the crying need for other permanent improvements, as indicated in the reports of the superintendents. The directors are fully aware of the lack of funds sufficient to provide for all of the interests of the various institutions of the State, but the needs of the class

of patients served by these hospitals are of such a nature that they think it their duty to submit these matters for the careful consideration of yourself and of the General Assembly.

There is a fund known as the "Receipts or Steward's Account," which comes from pay patients and other sources and which the various hospitals have been allowed to use. But for this fund it would have been impossible to have made as good a showing with the regular appropriations. In large institutions of this kind, as in smaller households, many unusual emergencies occur which cannot possibly be anticipated. This fund has been used judiciously, and detailed report is made thereof. It should not be interfered with.

Messrs. Pullen, Henderson, McKinne & Co., a well-known firm of accountants, have been employed to audit the books and accounts, and comparative statements have been inaugurated which it is believed will result in great good. Summary of the same will be found herein, and all per capita calculations, comparisons, etc., will be found in the Auditor's report.

The suggestions and requests found in these reports have been made after the most careful consideration of the Board, and are solely for the interests of the institutions and of the patients under their care.

The directors wish to express their appreciation of the cordial support and hearty coöperation which they have always received at your hands.

Very respectfully,

JOS. G. BROWN,
President of the Board.

REPORT OF THE SUPERINTENDENT

Mr. Joseph G. Brown, President, and Members of the Board of Directors of the State Hospital at Raleigh.

GENTLEMEN:—Report of the work of this hospital for two years ending November 30, 1918, is herewith submitted:

STATISTICAL SUMMARY

Insane Department

	Males	*Females*	*Total*
Patients remaining November 30, 1916	481	556	1,037
Admitted during the past two years	208	205	413
Total number under treatment	689	761	1,450
Average daily population in hospital	538	618	1,156

Discharged improved	13	11	24
Transferred to Main Building	3	....	3
Died	26	14	40
Per cent of deaths on number treated	....	....	17
Total number remaining November 30, 1918	85	83	168

The statistical summary includes the Epileptic Department.

There has been no suicide during this biennial period.

There had been no epidemic of any disease until the influenza came in October and lasted until about the close of the year.

Three hundred and seven cases, including all officers, employees, and patients, occurred in about thirty days, a little over ten cases a day. Of these, there were seventy-two employees and officers with only two deaths; the balance were patients—eighteen of whom died—making 2.7-9 per cent mortality among employees and officers and 7¾ per cent among patients.

R. E. Chesnutt, our chief cook, was the first to die of pneumonia. No finer hero than he died in the trenches. He strictly considered his post of service as one of patriotic duty, and flatly refused more remunerative offers and stuck to his job with supreme loyalty.

W. F. Christenbury, our dairyman, was the second one to die, and he died of the same disease—pneumonia following influenza. He, too, was faithful, efficient, and loyal to his work.

Regular staff meetings have been held daily, at which reports from assistant physicians are received as to new cases and the condition of the sick. We have had most of our new patients examined and their histories taken and presented to the staff meeting. The large demands of war for doctors depleted our staff and we could not keep up with all the work as we have been accustomed. The work of our pathological department has been done by the State Laboratory of Hygiene since last May.

We have had no dental work done at the hospital. There is decided need for this. There is greater need for providing dental work for the mental sick than any other class, mostly because they cannot be sent outside of the institution in the large majority of cases. There have been very fine results obtained by many institutions where dental work was done. Many mentally sick cases have been restored to health by repairing the teeth.

We mentioned in our report two years ago that the old closets of the main building should be replaced with new ones, such as were put in the new buildings. The repairs on the old closets and the waste water from defects of the same justify an immediate change. Reference to estimate of the absolute needs of male and female sides of main building is made on another page.

During recent years the condition of our steam boiler plant and heating system has reached a point where it has been impossible to heat the buildings with any degree of comfort, or even to prevent suffering among our patients in extremely cold weather.

The additional buildings recently erected called for additional capacity, and the fuel consumed in an attempt to provide service was increasing at such a rapid rate that in the spring of 1918 it was found absolutely necessary to take some adequate steps to relieve the rapidly increasing difficulties along this line.

As the problem presented many difficulties, owing to the large size of the plant as a whole, and the vast amount of heating equipment and complicated nature of the piping system which has accumulated through the various stages of enlargement for many years, it was considered advisable to secure the services of some engineer of experience in this class of work to plan and superintend the contemplated improvements. After careful investigation, Wiley & Wilson, consulting engineers of wide experience in this line of work, were employed in February, 1918, to perform this service.

After making a very thorough survey and study of our conditions for several weeks, our engineers submitted a report which convinced us that the alterations would have to be extensive to be of permanent value, and that the expenditure of approximately $15,000 originally available for the work would only cover repairs to an inadequate equipment without reaching the desired results, and that it would be finally wasted, as a general rebuilding of the plant and remodeling of the equipment was inevitable.

Among other things the investigations showed that the 750 horse-power boiler plant was connected to a chimney which was only large enough to produce proper draft for 300 horse-power; that the brick settings surrounding the boilers were practically falling down; that the pipe connections and auxiliary boiler-room equipment were entirely inadequate and so far worn

out that further repairs was a waste of money, and that serious breakdowns and interruptions of service were sure to continue until these items had been replaced by better equipment.

The boiler-house was largely of temporary construction with large fire risk and not adequate to accommodate the increased capacity of equipment needed, and the elevations of the boiler-room floor and railway sidings were such that no adequate provision could be made for dumping and storage of fuel, a matter which has caused us much trouble and expense in the past.

It was also found that the heating equipment in a number of the older buildings needed extensive repairs, and it was necessary to remove a large number of undersized and poorly insulated steam mains, many of which were laid underground and leaked so badly that their further use was out of the question.

The improvements finally agreed upon and for which plans and specifications were prepared by our engineers covered the following:

First. The remodeling of the power-house building and construction of coal dump and storage bins.

Second. The construction of a new brick chimney of sufficient size to accommodate 1,000 horse-power steam-boiler capacity.

Third. The installation of an additional steam boiler raising the boiler capacity to 900 horse-power total, and the rearrangement and resetting of all of the six 150 horse-power boilers.

Fourth. The installation of entirely new power-house piping, boiler-feed pumps, and auxiliary equipment along modern lines.

Fifth. The installation of new steam mains leading to the various buildings, both for heating and power purposes, so far as these renewals were found necessary.

Sixth. The remodeling of the heating equipment in the various buildings where repairs or alterations were found necessary to provide satisfactory heating service.

It was estimated that the above work would cost approximately $60,000. The available funds for this purpose being only about $15,000, it was decided to get permission from the North Carolina State Building Commission to use funds which had been appropriated for a new kitchen to devote to the remodeling of our central power and heating plant. This matter was submitted to the North Carolina Building Commission on May 9th and their approval given, contracts being let at that time for remodeling of power-house, construction of chimney, and a number of other items (which, due to the war, would require considerable time to manufacture and deliver to the institution).

The plans for the power-plant piping and equipment, also remodeling of the entire steam-distributing system and heating apparatus in the buildings, were submitted to the contractors soon after this time, and bids received about June 25th. Owing to rapidly increased cost of material and labor since estimates were made on March 25th the total cost of the improvements exceeded the estimates by $30,000 to $40,000. The matter was taken up with the Governor's Council and the State Building Commission and permission was given for us to proceed with the work, the funds to be supplied from our next year's building fund or by a special appropriation.

The work has been pushed as rapidly as possible, but, owing to the unprecedented conditions resulting from the war and influenza epidemic, serious

delays in getting material and shortage of labor have prevented its final completion. The matter, however, has been handled in such a way as to prevent a serious interruption of the power or heating service.

The building contractor remodeling the power-house died in October, and his wife, who was his administrator, died soon afterwards, and this has been the cause of one of our most serious delays. This matter has been readjusted with a third administrator, and we hope to proceed with the completion of the unfinished details of the building and coal dump.

The central plant is now in such shape that we are in position to furnish practically all the buildings with heat and prevent suffering among our patients, although up to the present time we have only three boilers in operation. The other three boilers will be in operation by January 1st, and the improvements as a whole will be nearly completed. It will probably take a month to six weeks after January 1st to finish up all of the minor details and get the plant entirely finished and running in the most economical manner.

It would have been impossible for us to get through this winter and take care of our patients without making the improvements above outlined, and the economy resulting from the improvements will abundantly justify the investment, notwithstanding the high cost of labor and material during the construction period, and to say nothing of the satisfactory nature of the service which will be obtained.

A tabulation giving cost of the various items entering into the improvements as outlined can be furnished if desired, and while there may be some slight changes as the work progresses, it is not contemplated that any material increase will be required.

Our farm and carpenter's departments have continued under the same head, with increased output and efficiency.

The engineer's department has of necessity changed heads four times, mainly on account of the war. We are spending on this department all our building appropriation for three years as above outlined.

The reports for all the departments are herewith submitted. They all show good results in production.

In making our estimate for maintenance appropriation two years ago, we based our estimate on the best obtainable statistics as of October 1, 1916, which showed that the average price of food was 23.8 per cent higher than the average for the past eight years prior to that date.

The Legislature failed to give the increased amount asked for, and we were unable to equip and open our new receiving building. Our usual number were sufficient to use all the maintenance fund and create a deficit of about $30,000. We began the biennial period with a deficit of more than $16,000. We have been able to live without larger deficit, as shown by auditor, by making large crops, saving all we make, and practicing strictest economy—"eating enough and wisely, and wasting none."

By opening the new building and using all available space we can take about one hundred and ten additional patients. But we have about six hundred and thirty on the waiting list. Every mentally sick patient in the State ought to be provided for during the acute stage. Our plan, forced by lack of room, keeps many acute cases out till they become chronic life charges on the State.

On account of the continued high prices, we must ask for $230 per capita for next two years, and with this amount we believe we can arrange to procure sufficient help to properly care, treat, and feed 1,160 patients.

We under-estimated the cost of building a kitchen and two congregate dining-rooms in our last report. We had plans made only for a kitchen, and the lowest bid was about $75,000. Each one of the dining-rooms would have cost nearly as much.

At present prices our architect informs us that the kitchen would cost $100,000 and each dining-room $90,000, making a total of $280,000.

Our large waiting list might be reduced considerably by adhering to a strict rule of rejecting the applications of many aged people who are bedridden, feeble, or dotards. These do not need the special equipment of a hospital as the mentally sick. Homes for incurables and invalids are the places for these.

G Ward building is one either to be condemned or thoroughly remodeled according to the opinion of a competent architect. As the effects of the war upon work, we would mention high cost of living, scarcity and restlessness of labor, producing our deficit, making it very difficult to keep up the usual sanitary condition in our wards and all other work on account of the shortage of help.

To the clergy and a few Christian laymen of the city we owe our thanks for their service in conducting our Sunday morning worship.

In the discharge of my official duties, I wish to personally thank the officers, employees, and patients for their assistance and support. My indebtedness to the Executive Committee, members of the Board, and members of the building commissioners for their counsel and assistance in solving the many difficult problems connected with the management of the institution is hereby tendered with sincerest appreciation.

Respectfully submitted, Albert Anderson,
Superintendent.

Repairs named below are compulsory to the following wards:

FEMALE DEPARTMENT

A, B, C, D, E, and F Wards

Six bath tubs	$ 360.00
Eighteen lavatories	360.00
Twelve commodes	600.00
Six sinks	90.00

J Ward

Two commodes	$ 100.00
Three lavatories	105.00
One sink	15.00

G Ward

Three bath tubs	$ 480.00
Four commodes	200.00
Three lavatories	105.00
One dish sink in C. D. room	40.00

E. B. Ward

Twelve commodes	$ 600.00
Four bath tubs	240.00
Twelve lavatories	420.00
Four sinks	60.00

Tubercular Ward

Two commodes	$ 100.00
Two lavatories	70.00
Three toilets in female courtyard	500.00
Total	$4,445.00

Needed on Male Side

Sixteen commodes	$ 800.00
Eight lavatory bowls	280.00
Two or three toilets in male courtyard	500.00
Total	$1,580.00

Female	$4,445.00
Male	1,580.00
Amount together	$6,025.00

APPROPRIATIONS

For 1,160 patients, 1919	$266,800.00
For 1,160 patients, 1920	266,800.00

TABLE No. 1

SHOWING THE NUMBER OF ADMISSIONS AND DISCHARGES (INCLUDING CURES, IMPROVED, UNIMPROVED, AND DEATHS) FOR EACH YEAR SINCE THE OPENING OF THE HOSPITAL.

Date	Admissions	Discharged							Remaining
		Cured	Improved	Transferred	Not Insane	Unimproved	Deaths	Total

CARPENTER'S REPORT

Dr. Albert Anderson, *Superintendent.*

Sir:—I respectfully submit to you the report covering the work in the carpenter's department for the period from November 30, 1916, to November 30, 1918.

We have kept in repair all wagons, carts, binders, harrows, and all other machinery and tools used in the farming department.

We have also kept up the repairs of the bedsteads, the springs being put on in our own shop. The patients have made all the mattresses except those bought for the two new buildings. All filling for the mattresses has been properly sterilized. The mattresses are all made by patients under my supervision.

We have kept in repair all chairs and furniture used in the building with the exception of chairs bought for the Nurses' Home and Receiving Building. No chairs have been bought for the institution in the past five years. This has been brought about by repairs done on old chairs.

All the necessary repairs, such as windows, panes, sashes, and other repairs of general nature have been done in spite of the fact that the carpenter's department has been short of labor.

We have also made enough brooms for the needs of the hospital. Most of the broom-corn used was grown on the farm. The handles are used over and over again, and as the brooms are made by a patient, we were able to supply the needs of the institution at a very small expenditure.

We have dug the graves, made coffins, and prepared for burial all bodies buried in the hospital cemetery.

We have also kept in repair the shoes and harness. This work was done by patients.

I submit the following to show the scope of the work that has been done:

Carpenter's Report for Year Ending November 30, 1917

Two small houses at Oaks Colony	$ 100.00
Steps and platform at male congregate dining-room	30.00
Moving and repairing summer house	35.00
Calf barn	1,500.00
Shingling two houses at Dr. Jenkins	30.00
Roofs on corn crib and stables	35.00
Roof over rooms at brick cottage	30.00
Pigeon run and room at brooder	60.00
Moving bins from store-room to brooder	10.00
Screening and bars at Nurses's Home	125.00
Clothes racks and bins at Receiving Building	35.00
Putting up wood-saw, extending shafting, pulleys, shed, and fence	85.00
Eight long new dining tables for Receiving Building	80.00
Four long canning tables for Cannery	40.00
Repairing foundation sawmill carriage	25.00
Sawed 10,000 feet lumber	175.00
Two new doors, two door-frames and work on Dr. Adams' rooms, Center Building	75.00

Made seven new wagon bodies	$ 70.00
Made one new wagon hay flat	9.00
Partition, swinging doors, and windows at engine-room	125.00
Bricking up partition between boiler-room and engine-room	75.00
Platform at shop for motors	10.00
Cedar chest	20.00
Stock-room at carpenter's shop	15.00
Bull-pen and house at dairy	110.00
Cement walks from old building to Receiving Building and in front of Nurses' Home	325.00
Two new screen doors, male T. B	8.00
Made 953 stick handle brooms at 70c	667.10
Repaired 1,325 pairs shoes at $1	1,325.00
Renovated and made 321 mattresses at $6	1,926.00
Run pipe-line from Cannery to shop	20.00

The above work (except the cement work) was done with two employees, with the assistance of five patients.

Carpenter's Report for the Year Ending November 30, 1918

Built salt-room	$ 20.00
Plastered and ceiled room at dairy residence	65.00
Cement top on male colony	35.00
Four wagon flats with iron wheel protectors	40.00
Potato barn	2,430.26
Made 268 mattresses at $6	1,608.00
Made 1,152 brooms at 70c	806.40
Repaired 1,200 pairs shoes at $1	1,200.00
Repaired roofs and down-spouts	650.00
Repaired bridge across Rocky Branch	50.00
Cement walk from Receiving Building to Nurses' Home	702.00
Sawed about 25,000 feet lumber	685.00
Repaired room at brick cottage	65.00
Made 515 potato crates	257.50
Made 72 concave benches, total length 479 feet	143.70

There are quite a number of repairs and some needed construction work that I would respectfully call your attention to.

Lack of funds with which to purchase necessary material, added to our inability to secure competent help, has prevented us from doing this work.

You will note that many of the items call for a rather large expenditure, but they all are absolutely necessary if the building is to be kept in good condition and properly cared for.

I would recommend that the following things be done:

Plastering and painting	$2,500.00
Wrought iron window-guards in the male department	1,500.00
Receiving porches in the 7th, 8th, 9th, and 10th wards	600.00
Receiving floor on 9th ward	100.00
Locks for rooms in main building	450.00
Farm machinery building for housing farm machinery	3,000.00
Ice room	750.00
Courtyard fence, both male and female departments	1,500.00
Floor and ceiling Erwin building	300.00

Respectfully submitted, Robert Green.

ENGINEER'S REPORT

FOR THE TWO FISCAL YEARS ENDING NOVEMBER 30, 1918

Dr. Albert Anderson,

Superintendent State Hospital, Raleigh, N. C.

My Dear Sir:—I herewith submit the report of Engineer's Department for the two years ending November 30, 1918. In addition to the regular daily repair work incident to running the institution, the following changes, improvements, and new installations are noted:

Replaced one 30 horse-power steam engine in carpenter's shop with one motor, the engine still being used in driving the mills. Replaced steam power in machine shop with 5 horse-power motor. Installed two other motors, one each in Cannery and Bakery. Replaced the old belt-driven washing machines in Laundry with 6 motor-driven machines. These machines are up-to-date and work automatically. Installed one motor to drive extractors and dry-room. Replaced three old body ironers with two new bodying pressers.

We have overhauled and put in good condition two ammonia compressors; put in new condensing coil in No. 2 Ice Plant and 48 new ice cans; installed new water closet and bath tub in Laundry dormitory; installed new water closet at Female Epileptic Colony; installed new range at Female Epileptic Colony.

Repaired ranges at Oaks and Male Epileptic Colonies. Removed old sterilizer from Laundry and installed the same at carpenter's shop, connecting up with steam, and it is now used for sterilizing mattresses and materials. Installed one W. C. Meadows Mill Co.'s wheat mill.

Now have under construction new boiler-house, boiler settings, new smoke-stack, heating system with adjacent coal bins, and for detail report of the same, see report of Superintendent.

Respectfully submitted,

T. A. Holiday, *Engineer.*

REPORT OF CLOTHING SUPERVISOR

FOR 1917-1918

	1917	*1918*
Aprons	842	510
Bonnets	57	180

Pears	483 quarts
Beans	162 quarts
Okra	48 quarts
Potatoes	24 quarts
Beets	48 quarts
Carrots	12 quarts
Cabbage	48 quarts

MISCELLANEOUS

Lard	2,246 pounds
Butter	1,095 pounds
Soap	8,417 pounds
Wine	5 gallons
Tomato catsup	16 quarts

Respectfully submitted,

MISS KATHERINE WHITE.

FOR THE YEAR ENDING NOVEMBER, 1918

Beans	15,062 quarts
Tomatoes	7,651 quarts
Peaches	3,342 quarts
Apples	268 quarts

Butter beans	164 quarts
Corn	67 quarts
Onions	44 quarts
Grape jelly	41 quarts
Grape juice	6 quarts
Lard	2,682 pounds
Butter	2,540 pounds
Soap	9,625 pounds

Respectfully submitted,

MISS KATHERINE WHITE.

FINANCIAL EXHIBITS

FOR BIENNIAL PERIOD, DECEMBER 1, 1916, TO NOVEMBER 30, 1918

DR. ALBERT ANDERSON,

Superintendent State Hospital for the Insane, Raleigh, N. C.

DEAR SIR:—Herewith I beg to submit in six exhibits the biennial report of the Steward, covering the period December 1, 1916, to November 30, 1918, giving a record of receipts and disbursements for maintenance, permanent improvements, and source and disposition of institutional cash receipts, along with the status of all funds as of November 30, 1918, and detailed reconciliation of accounts with State Treasurer.

EXHIBIT A—MAINTENANCE ACCOUNT

GENERAL STATEMENT

Receipts—		
Appropriation, State of North Carolina.		
December 1, 1916, to November 30, 1917	$207,500.00	
December 1, 1917, to November 30, 1918	207,500.00	$415,000.00
Other Receipts.		
Lightning insurance	510.00	
Fire insurance collected	199.50	709.50
Total receipts		$415,709.50
Disbursements—		
Per audited vouchers for maintenance. (See detailed Exhibits B and C.)		
December 1, 1916, to November 30, 1917	$210,711.67	
December 1, 1917, to November 30, 1918	217,648.98	
Total disbursed for period	$428,360.65	
Add deficiency in maintenance close of period November 30, 1916 (see biennial report of that date)	13,790.43	
Total against receipts		$442,151.08
Deficiency to date, November 30, 1918		$ 26,441.58

(See Exhibit E for proof of above by reconciliation of accounts with State Treasurer.)

EXHIBIT B—MAINTENANCE ACCOUNT

DISBURSEMENTS BY MONTHS

December 1, 1916, to November 30, 1917.		
Audited vouchers issued as follows:		
December, 1916	$ 16,180.82	
January, 1917	15,124.22	
February, 1917	14,885.84	
March, 1917	18,610.12	
April, 1917	20,206.90	
May, 1917	18,230.43	
June, 1917	18,223.79	
July, 1917	16,796.91	
August, 1917	19,329.64	
September, 1917	16,521.11	
October, 1917	21,841.27	
November, 1917	14,760.62	
		$210,711.67
December 1, 1917, to November 30, 1918.		
December, 1917	$ 19,148.51	
January, 1918	15,166.09	
February, 1918	20,971.02	
March, 1918	18,819.62	
April, 1918	17,945.95	
May, 1918	17,303.79	
June, 1918	15,085.01	
July, 1918	21,408.40	
August, 1918	15,843.40	
September, 1918	17,993.48	
October, 1918	20,298.03	
November, 1918	17,665.68	
		217,648.98
Total for the two years maintenance		$428,360.65

EXHIBIT C.—MAINTENANCE ACCOUNT. DISBURSEMENTS BY PURPOSES—DECEMBER 1, 1916, TO NOVEMBER 30, 1918.

H. S. Toler ..... *Storekeeper*
Miss Martha Newell ..... *Seamstress*
D. H. Newell ..... *Farmer*

SUPERINTENDENT'S REPORT

GOLDSBORO, N. C., December 18, 1918.

To the Board of Directors of the State Hospital at Goldsboro.

GENTLEMEN:—I herewith submit a report of the operations of this institution for the two years ending November 30, 1918.

	Males	*Females*	*Total*
Number on roll November 30, 1916	380	625	1,005
Number admitted	242	304	546
Total number treated	622	929	1,551
Total number removed	246	312	558
Number on roll November 30, 1918	376	617	993
Number present November 30, 1918	368	594	962
Percentage of cures on number received	....	....	31
Percentage of deaths on number treated	....	....	11.78

We have had no serious epidemic, but, owing to the large number of patients admitted with pellagra, many of them in the last stage, and living only a short time after admission, our percentage of death was larger than usual.

I regret to have to report that a male patient, while assisting in moving a car on our spur track, was accidently run over by the car and died from the injuries received; and, also, that a female patient committed suicide by hanging herself at night in her room. She had been in the hospital less than a month, and during this time had shown no suicidal tendencies.

Of the 5,783 admissions to this institution since it was opened August 1, 1880, this is the second suicide to be reported.

IMPROVEMENTS AND REPAIRS

The following are the most important improvements and repairs: A steel tower with two water tanks of 115,000-gallon capacity was erected and is now in use.

A cannery 36 x 40 feet has been built and equipped with all necessary conveniences. There was an addition to the kitchen, and a room for preparing vegetables was built.

There is now under construction a building for the accommodation of ninety patients which, we hope, will be completed in the spring.

A new system of pipe lines for supplying the above building and, also, the tubercular and epileptic buildings with water and heat is also under construction.

Our spur track was relaid with seventy-five-pound rails, and a new trestle and coal-chute were built.

See Engineer's report for a detailed account of improvements and repairs.

FARM, GARDEN, AND DAIRY

Estimated net value of farm, garden, and dairy products (1917)	$ 26,303.73
Estimated net value of farm, garden, and dairy products (1918)	28,785.42
Estimated net value of farm, garden, and dairy products (1917-1918)	$ 55,089.15

LABOR

During the period embraced in this report, and especially during the last year, it has been impossible to keep sufficient help to carry on the work to the best interest of the institution.

FINANCES

For the maintenance of this institution for the two years, 1917 and 1918, the Legislature appropriated $245,000. The appropriation was entirely inadequate, and it was only by practicing the strictest economy that the deficit was not greater than $23,470.07.

Per capita cost of maintenance for 1917	$ 132.59
Per capita cost of maintenance for 1918	147.576

NEEDS FOR THE NEXT TWO YEARS

For maintenance for 980 patients (1919)	$153,125.00
For maintenance for 1,000 patients (1920)	156,250.00
For deficit for 1917 and 1918	23,470.07
For completing and furnishing new building	35,650.00

In conclusion, I wish to thank the Board, officers, and employees for their generous and loyal support in conducting the affairs of the institution.

Respectfully submitted,

W. W. FAISON, *Superintendent.*

REPORT OF THE CLINICAL DIRECTOR

The patients have been given a careful physical and mental examination as soon after their arrival as expedient, and as complete a history as possible has been written of each one and filed for convenient reference. In many instances the admission papers contain very little reliable information concerning the patient, and the patient's condition precludes the obtaining of any information whatever from them concerning their past history. In most of such cases we have been materially assisted by our attendants who bring the cases to the Hospital, as they have freely coöperated and shown considerable aptitude in obtaining valuable information from friends, relatives, etc., of the patients, which has enabled us to compile a history of such cases.

The Wasserman test has been made in every new and old suspected case so far as possible to do so. In all, 262 patients were thus tested during the past year. We found it more expedient to have this work done at the State Laboratory of Hygiene.

Salvarsan has been administered about fifty times to selected cases with generally good results, and very gratifying results in six cases. We administered it from one to eight times per patient.

Post-mortems were held on all occasions where the cause of death was obscure. Eleven autopsies were held during the past year and a record of them written and filed for reference.

The following work was done in the pathological laboratory during the past year:

Urinalysis	620
Sputum examinations	102
Feces examinations	14
Blood examinations for malaria	92
Blood counts	10
Urethral and vaginal discharges examined	11
Body parasites examined	12
Gastric contents examined	4
Total	865

Dr. F. L. Whelpley,
Clinical Director.

STEWARD'S REPORT

For the Biennial Period From December 1, 1916, to November 30, 1918

1916			
Dec. 1.	Legislative appropriation for support for 1917		$120,000.00
31.	Less vouchers for December	$ 11,734.30	
1917			
Jan. 31.	Less vouchers for January	7,772.27	
Feb. 28.	Less vouchers for February	9,208.42	
Mar. 31.	Less vouchers for March	14,181.67	
Apr. 30.	Less vouchers for April	8,052.63	
May 31.	Less vouchers for May	8,056.65	
June 30.	Less vouchers for June	14,218.79	
July 31.	Less vouchers for July	7,440.63	
Aug. 31.	Less vouchers for August	8,601.31	
Sept. 30.	Less vouchers for September	11,239.70	
Oct. 31.	Less vouchers for October	18,919.55	
Nov. 30.	Less vouchers for November	8,256.20	127,682.52
	Deficit in appropriation for 1917		$ 7,682.52
	Appropriation for permanent improvements		16,708.00
May 31.	Less vouchers for May	$ 1,006.04	
June 30.	Less vouchers for June	2,272.15	
July 31.	Less vouchers for July	365.75	
Sept. 30.	Less vouchers for September	164.00	
Oct. 31.	Less vouchers for October	5,769.00	9,576.94
Nov. 30.	Balance permanent improvement fund		$ 7,131.06

Receipts and Disbursements December 1, 1917, to November 30, 1918

1917			
Dec. 1.	Legislative appropriation for support for 1918		$125,000.00
	Deficit in appropriation for 1917		7,682.52
			$117,317.48
	Treasury balance December 1, 1916 (Auditor)		273.61
	Net support fund for 1918		$117,591.09
31.	Less vouchers for December	$ 13,997.59	
1918			
Jan. 31.	Less vouchers for January	9,815.10	
Feb. 28.	Less vouchers for February	14,430.44	
Mar. 31.	Less vouchers for March	8,459.32	
Apr. 30.	Less vouchers for April	9,942.04	
May 31.	Less vouchers for May	16,050.44	
June 30.	Less vouchers for June	7,966.84	
July 31.	Less vouchers for July	8,073.06	
Aug. 31.	Less vouchers for August	24,129.97	

Sept. 30.	Less vouchers for September	$ 12,591.62	
Oct. 31.	Less vouchers for October	9,221.57	
Nov. 30.	Less vouchers for November	6,383.17	$141,061.16
	Deficit in support fund for 1918		$ 23,470.07

(Deficit covered by notes in Wayne Nat. Bank.)

Receipts and Disbursements Permanent Improvement Fund, December 1, 1917, to November 30, 1918

1917			
Dec. 1.	Balance on hand	$ 7,131.06	
1918			
Nov. 12.	Appropriation	19,845.06	$ 26,976.12
Jan. 31.	Less vouchers for January	$ 3,797.26	
Feb. 28.	Less vouchers for February	48.74	
Mar. 31.	Less vouchers for March	302.59	
Apr. 30.	Less vouchers for April	176.29	
May 31.	Less vouchers for May	39.55	
July 31.	Less vouchers for July	1,800.00

		All others		6,474.72
	Total			$ 18,442.23
	Paid:	Salaries, services, labor	$ 370.40	
		Food supplies	4,299.12	
		Incidentals, miscellaneous	4,678.04	
		Farm expenses	8,255.97	17,603.53
	Balance			$ 838.70

Statement of Dairy Account, 1917

By beef killed and calves and hides sold, etc		$ 580.30
By 27,385 gallons milk at 32½c		8,900.12
		$9,480.42
To paid for feed	$2,891.50	
To wages of dairyman	540.00	
To wages and board of helper	300.00	3,731.50
Net value of dairy products		$5,748.92

Statement of Dairy Account, 1918

By beef killed and calves and hides sold, etc		$ 964.93
By 28,776¼ gallons milk at 37½c		10,771.09
		$ 11,736.02
To paid for feed	$4,333.23	
To wages of dairyman	595.00	
To wages and board of helper	351.33	5,279.56
Net value of dairy products		$ 6,456.46

Respectfully submitted,

J. W. BRYAN, *Steward.*

ENGINEER'S BIENNIAL REPORT

Dr. W. W. Faison,
Superintendent State Hospital at Goldsboro, N. C.

Dear Sir:—I beg to submit herewith a report of the Engineering Department for the year ending November 30, 1917.

This report will be brief and, I fear, incomplete, owing to the fact that my predecessor, Mr. Hardesty, was hurriedly called away by the Government before he had time to make a report of the work done during the year prior to the time of his departure.

I desire to state just here that I found the plant and work, as a whole, in excellent condition when I took charge of it September 15th, showing plainly the care and attention that had been given it prior to that time.

The most important improvements and repairs made during the year are as follows:

A new trestle and coal chute have been built, the two stave silos moved to a more suitable place and put in a first-class condition, porches added to six tenant houses. Two rooms were added to the gardener's house.

A cannery 36 x 40 feet was built and equipped with cement sinks, steam cookers, hot and cold water, and with all other conveniences necessary for an up-to-date cannery.

We have under construction at the present time a steel tank and tower for water, with a total capacity of 115,000 gallons, which, when complete, will give much better water service and fire protection.

Respectfully submitted,

T. Miller White,
Engineer in Charge.

ENGINEER'S REPORT (1918)

Dr. W. W. Faison,

Superintendent State Hospital, Goldsboro, N. C.

I herewith submit my report as Engineer, covering the brief period of my employment.

I took charge of the plant August 29, 1918. During this time there has been no new work done in the way of additions to the machinery, so my work has been confined to the upkeep and repairs of the machinery and equipment.

The principal items of repair have been leveling up the boilers, building concrete steps to Aycock building, renewing two motors, repair of boiler feed line and boiler feed pump, putting in one piston and plunger in ammonia pump, overhauling one hydraulic pump.

I have recalked the suction line from the river to the pumping station; put in one heating coil in the vegetable house; overhauled heating coils on two fans; riveted galvanized iron duct. I have overhauled filter tank and put in new pipes and fittings and cleaned out the reservoir. A brick foundation has been built under portions of the walls of the engine-room, and also under the fire-escape at Miller building, to prevent settling of the walls.

During the year, under my predecessor, the water tank and tower were completed and put in service. An addition to the kitchen was made, and a room for preparing vegetables was built.

Our spur track was relaid with seventy-five-pound rails.

Respectfully submitted,

W. D. Williams, *Engineer.*

THE FARMER'S REPORT

Farm Products of 1917

To Dr. W. W. Faison,

Superintendent of State Hospital at Goldsboro, N. C.

I respectfully submit the following report for the year 1917:

100,000 pounds alfalfa at $1.25	$ 1,250.00
600 barrels corn at $7.50	4,500.00
635 bushels cotton seed at $1.10	695.50
10 bushels cowpeas at $2.50	25.00
25,410 pounds clover at 75c	190.07
240 tons ensilage at $4	960.00
186 bushels garden peas (eaten) at 50c	93.00
374 bushels garden peas (sold) at $1.50	561.00
206 bushels Irish potatoes at $1	206.00
9,303 pounds lint cotton at 29c	2,697.87
5,010 pounds oat straw at $1	50.10
2,225 bushels oats at 80c	1,780.00
68,125 pounds oat straw (threshed) at 40c	272.50
400 pounds pea hulls at 25c	1.00
72,300 peavine hay at $1	723.00
332 bushels peanuts at $1.25	415.00
8,900 pounds peanut vines at 50c	44.50
61 bushels rye at $1.50	91.50
29,414 pounds rye straw at 40c	117.66
145 bushels snap beans at 50c	72.50
1,420 bushels sweet potatoes at 60c	852.00
54,600 pounds soja beans at 2c	1,092.00
99,461 pounds vetch and grain at $1	994.61
77 bushels wheat and vetch at $1.50	115.50
5,550 pounds wheat and vetch straw mixed at 40c	22.20
500,000 pounds corn stover at 40c	2,000.00
40 tons corn stover in ensilage at $8	320.00
6,000 pounds grass hay at 75c	450.00
Total value farm products	$ 20,596.01

Garden Products of 1917

586 bushels apples at 50c	$ 293.00
180 bunches asparagus at 10c	18.00
1,119 quarts apples (canned) at 10c	111.90
35 bushels beets at 50c	17.50
165 quarts beets (canned) at 15c	24.75
275 bushels cucumbers at 50c	137.50
235 barrels cabbage at $1	235.00
9,000 heads collards at 2½c	225.00
400 bushels cantaloupes at 50c	200.00

1 bushel crab apples at $1	$ 1.00
55 bushels dewberries at $2	110.00
2,872 quarts dewberries (canned) at 15c	430.80
3 bushels figs at $2	6.00
40 bushels grapes at $1	40.00
300 bushels green peas at 50c	150.00
18 barrels kraut at $4	72.00
1,200 heads lettuce, at 4c	48.00
670 bushels leeks at 50c	335.00
1,200 bushels lima beans at 50c	600.00
30 bushels okra at 50c	15.00
135 bushels onion heads at 75c	101.25
16 bushels peppers at $1	16.00
1,052 quarts peaches (canned) at 20c	210.40
85 bushels peaches at $1	85.00
1 bushel plums at $1	1.00
2 bushels pecans at $4	8.00
6 stands popcorn at $1	6.00
6 bushels parsley at 50c	3.00
750 bushels rutabagas at 25c	187.50
6 bushels radishes at 75c	4.50
250 bushels squash at 50c	125.00
5 bushels sage at 50c	2.50
120 bushels salad onions at 50c	60.00
125 bushels strawberries at $2	250.00
616 quarts strawberries (canned) at 15c	92.40
304 bushels snap beans at 50c	152.00
750 bushels spring salad at 50c	375.00
175 quarts soup mixture at 15c	26.25
163 bushels tomatoes at $1	163.00
2,750 quarts tomatoes (canned) at 15c	412.50
1,584 bushels turnips at 25c	396.00
2,450 watermelons at 5c	122.50
600 bunches celery at 10c	60.00
100 stands green corn at $1	100.00
530 pints corn (canned) at 10c	53.00
32 bushels garden peas at 50c	16.00
713 pints garden peas (canned) at 10c	71.30
8 bushels salsify at 50c	4.00
83 hogs sold	2,809.65
7,850 pounds pork (killed) at 22½c	1,766.25
Total value garden products	$ 10,750.45

Expenses of Farm and Garden for 1917

Salary of farmer	$ 600.00
Salary of gardener	540.00
Wages and board of laborers	1,191.79
Feed for team	1,920.00
Implements and repairs	730.45
Fertilizers	4,424.71

Seeds and plants	$ 816.89
Feed and hogs	153.50
Bagging and ties	64.50
Truck baskets	60.00
Miscellaneous	289.81
Total expenses	$ 10,791.65
Total value of farm products	20,596.01
Total value of garden products	10,750.45
Total value of farm and garden products	$ 31,346.46
Net value of farm and garden products	20,554.81
Net value of dairy products	5,748.92
Total net value of farm, dairy, and garden products	$ 26,303.73

Dr. W. W. Faison,

Superintendent of State Hospital at Goldsboro, N. C.

I respectfully submit the following report for year of 1918:

Farm Products of 1918

HOUSEKEEPER'S REPORT

Dr. W. W. Faison, *Superintendent.*

I hereby submit my report as housekeeper for the year 1917 as follows:

Apple jelly	28 quarts
Apple preserves	8 quarts
Crab-apple jelly	6 quarts
Crab-apple preserves	21 quarts
Fig preserves	3 quarts
Grapes, spiced	25 quarts
Plum preserves	12 quarts
Peach preserves	15 quarts
Peach sweet pickles	9 quarts
Pear preserves	8 quarts
Pear sweet pickles	9 quarts
Pear marmalade	8 quarts
Tomato sweet pickles	8 quarts
Peppers stuffed	3 quarts
Pepper relish	19 quarts
Cucumber pickles	16 bbls.
Dewberries, canned	16 quarts
Butter	3,267 lbs.
Lard	2,274 lbs.
Sausage	1,760 lbs.
Soap	30,000 lbs.

Respectfully submitted,

Mrs. Mamie Herring,
Housekeeper.

Miss Luna Bridgers,
Assistant Housekeeper.

Dr. W. W. Faison, *Superintendent.*

I hereby submit my report as housekeeper for the year 1918 as follows:

Apple jelly	8 quarts
Apple preserves	10 quarts
Blackberry jelly	4 quarts
Blackberry jam	3 quarts
Chow-chow	16 quarts
Cucumber pickle, sweet	16 quarts
Cucumber pickle, sour	20 bbls.
Pear marmalade	16 quarts
Pear preserves	20 quarts
Pear sweet pickle	16 quarts
Peach sweet pickle	36 quarts
Pear preserves	7 quarts
Plum preserves	15 quarts

Butter	294 lbs.
Lard	818 lbs.
Sausage	680 lbs.
Soap	30,000 lbs.

Respectfully submitted,

Mrs. Mamie Herring,
Housekeeper.

Miss Luna Bridgers,
Assistant Housekeeper.

REPORT

OF

THE STATE HOSPITAL

AT

MORGANTON, N. C.

FOR THE

TWO YEARS ENDING NOVEMBER 30, 1918

EXECUTIVE COMMITTEE

A. E. Tate, *Chairman*

R. R. Clark

J. H. Giles

OFFICERS

John McCampbell, M.D. ..... *Superintendent*

F. B. Watkins, M.D.
M. A. Griffin, M.D. } ..... *Assistant Physicians*

F. M. Scroggs ..... *Steward*

Vacancy ..... *Matron*

SUPERINTENDENT'S REPORT

The Honorable Board of Directors.

GENTLEMEN:—In compliance with the law I am herewith submitting a report of the operation of the Hospital for the biennial period ending November 30, 1918, together with the customary statistical tables.

It will be noted from Table No. 1 that we had under treatment during the two years 2,105 patients, and that 95 men and 97 women have been discharged as recovered. Based upon admissions, the recovery rate for men was 37.6 per cent, and for women 30.7 per cent. During 1917 59 men and 65 women died, making the death rate for that year 6.7 per cent. During 1918 73 men and 82 women died, giving an annual death rate of 8.6 per cent. This was the highest death rate recorded in the history of the institution, and was due, in a great measure, to the epidemic of influenza which prevailed in the Hospital during October and November of this year, afflicting more than 500 patients and resulting in 29 deaths. The employees were affected in even a greater proportion, there being approximately 100 stricken with the disease, and one nurse died from it.

Five suicides have occurred during the period. The circumstances attending same were reported to the executive committee of the Board of Directors at the time of occurrence. In each instance the coroner was notified, but in no case did he hold an inquest. One homicide occurred. A male patient, who had been in the Hospital for eight months without showing any dangerous propensities or giving expression to any delusions, one day while out with a working party picked up an axe and struck an inoffensive patient in the back of the neck, producing a wound which caused death in a few minutes.

We have been very much hampered in the work of the Hospital owing to lack of support funds. The estimate in our report to the last General Assembly was made without knowledge of the tremendous advance which was to take place in the price of all commodities and the price of labor as well, and was far too low to meet the vital needs of running expenses, and the appropriation when finally made was $25,000 less than we asked for. Consequently, after practicing the strictest economy, and in some cases enduring privations, we have been compelled to incur a debt of approximately $75,000. The Board of Directors, acting under instructions of the Governor and his Council, has borrowed $55,000, and the balance of this amount is represented by outstanding bills.

The per capita cost for the past year was $216, and would have been considerably more had the advance in wages to nurses, attendants, and other employees, which we were compelled to make, been in effect for the entire year. We estimate that for the ensuing two years a per capita allowance of $230 will be necessary for anything like the proper care of our unfortunate charges.

By opening the new dormitory for women, which has stood vacant for the past two years, our present capacity will be 1,440 patients, and for their support at the above-mentioned rate per capita we will need for support during 1919 $331,200. In order to meet the ever-increasing demands for the admission of patients there should be constructed, during the coming year, a build-

ing to accommodate at least 100 men, bringing the population up to 1,540, which at the same rate would require an appropriation of $344,200 for 1920, and in addition $75,000 to cover notes and outstanding bills, representing the deficit for the last biennial period.

Owing to the inadvisability of marketing the bonds authorized by the last General Assembly for additional improvements to the Hospital during the stress of war times, funds for that purpose were unavailable, and even had they been available there was no need for increased capacity without means of supporting the additional population. However, the time has come when steps should be taken looking to enlargement and improvements as provided for by this bond issue, and the immediate needs are for a building for men with a capacity of not less than 100 beds and a new refrigerating plant to replace our old one, which is too small and practically worn out from its more than twenty years of use.

Out of the appropriation made two years ago for enlargement and improvement there will be available, during next year, $100,000, and this amount will doubtless meet the actual needs in that direction for the present, leaving nothing to be considered beyond the appropriation for maintenance.

There are two vacancies on the medical staff caused by the resignation of Dr. Wm. R. Griffin, who left this service in last March to go into private work, and the resignation of Dr. Houck, which occurred last April. The demands of the Army for medical officers has been such that it has been impossible to fill these vacancies.

The routine work of the Hospital has been kept up very well indeed considering the shortness of working forces in practically every department, and our success in this direction has been due, in a great measure, to the loyalty and industry of those remaining with us, and to them I desire to express my sincere appreciation for their efforts and fidelity.

Respectfully submitted, JOHN MCCAMPBELL.

5979	Male	30	2 yrs.	3 yrs. 4 mos. 28 d.	Nov. 30-18	Influenza pneumonia.

TABLE No. 6

Showing the Occupation of Those Admitted During the Period of Two Years, Ending November 30, 1918.

Assistant Register of Deeds	1
Banker	2
Blacksmith	1
Bookkeeper	1
Business man	1
Butcher	1
Carpenter	5
Carpenter and soldier	1
Carpenter's wife	1
Clerk	1
Clerk in postoffice	1
Cigarette factory operative	1
Commercial agent	1
Conductor	1
Conductor and switchman	1
Contractor	1
Cotton mill operative	18
District passenger agent	1
Domestic	25
Driver	1
Engineer	1
Farmer	128
Farmer and blacksmith	1
Farmer and carpenter	1
Farmer and laborer	1
Farmer and street car conductor	1
Farmer's daughter	2
Farmer's son	1
Farmer's wife	7
Farming and housekeeping	1
Fire insurance	1
Fireman on railroad	1
Foundry worker	1
Furniture factory operative	1
Harness maker	1
Home	1
Horse doctor	1
Housekeeper	66
Housekeeper at hotel	1
Housemaid	1
Housewife	98
Housewife and storekeeper	1
Housework	21
Insurance	1
Laborer	15
Laundress	1
Loom fixer	1
Lumberman	1
Machinist	2
Mechanic	2
Merchant	2
Merchant's wife	1
Mill hand	5
Mill operative	6
Mill operative and carpenter	1
Miner	1
Minister	3

TABLE No. 6—*Continued.*

Mother	1
Music teacher	1
None	44
Not stated	23
Office writing	1
Painter	1
Paper hanger	2
Physician	3
Policeman	1
Printer	2
Public works	1
Raised on farm	1
Saleslady	2
Salesman	2
Salesman and farmer	1
Sawmilling	1
School boy	1
School girl	2
School teacher	2
Seamstress	2
Shoemaker	1
Soldier	1
Stationery engineer	1
Stenographer	4
Student	1
Telegraph operator	2
Textile worker	2
Trained nurse	1
Transfer man	1
Typesetter	1
Wage hand	2
Water boy	1
Weaver in cotton mill	1
Wife	1
Work in hotel	1

TABLE No. 7

SHOWING CIVIL CONDITION OF THOSE ADMITTED DURING THE PERIOD OF TWO YEARS ENDING NOVEMBER 30, 1918.

	Male	Female	Total
Married	145	197	342
Single	94	93	187
Widowed	11	24	35
Divorced	2	0	2
Not stated	2	2	4
Totals	254	316	570

FINANCIAL STATEMENT

From December 1, 1916, to November 30, 1917.		
Dr.		
To appropriation for 1917		$ 237,500.00
To overdrawn vouchers of 1917		25,291.52
		$ 262,791.52
Cr.		
By vouchers issued and approved for:		
December, 1916	$ 20,753.86	
January, 1917	22,987.20	
February, 1917	20,789.06	
Total for first quarter		$ 64,530.12
March, 1917	$ 21,494.79	
April, 1917	20,265.18	
May, 1917	21,806.97	
Total for second quarter		63,566.94
June, 1917	$ 19,714.64	
July, 1917	25,316.08	
August, 1917	19,596.42	
Total for third quarter		64,627.14
September, 1917	$ 20,992.80	
October, 1917	22,600.17	
November, 1917	26,474.35	
Total for fourth quarter		70,067.32
		$ 262,791.52

FINANCIAL STATEMENT—*Continued.*

SUPPLEMENTARY EXHIBITS

TO

REPORTS ON AUDITS OF STATE INSTITUTIONS

AT

RALEIGH, MORGANTON and GOLDSBORO, N. C.

AT CLOSE OF BIENNIAL PERIOD

NOVEMBER 30, 1918

AUDITOR'S REPORT

To the Board of Directors, State Hospitals for the Insane, Raleigh, N. C.

GENTLEMEN:—As a supplement to our regular reports on audits of the books and records of the State Hospitals for the Insane at Raleigh, Morganton, and Goldsboro, N. C., covering the two-year period from December 1, 1916, to December 1, 1918, we beg to submit herewith a consolidated report for the purpose of presenting the principal facts in such manner as to furnish comparative information relating to the three institutions.

The general information will be of greater interest and value by being presented in condensed form, so that it can be considered in a comparative way. We have, therefore, compiled data from the individual reports for this purpose, and the same is herewith given in seven exhibits, as per attached index.

In connection with these we make the following

COMMENTS

EXHIBITS "A" AND "B"

These are comparative statements of the receipts and disbursements of maintenance appropriations for the two years. The figures are shown in parallel columns for each institution, thus affording ready means for making comparisons.

In regard to the deficits at the beginning and end of each year, full explanation may be had by reference to the individual reports. It will be observed that appropriations have been inadequate both years to meet the requirements of each institution. This is readily seen by noting the excess of disbursements over receipts each year.

We pointed out in the Morganton report that the Board of Directors had negotiated loans on their own account to meet their deficiency, having the funds credited to a special bank account, on which Steward's checks were to be issued in payment of bills for which voucher warrants had already been drawn. These vouchers were to be turned in to the State Treasurer to be canceled on his payment of the notes with State funds.

The Goldsboro Directors had also negotiated a loan but had the funds credited to the State account, and vouchers were sent out in the usual course. This is the logical way of handling the situation, inasmuch as the loans are to be repaid from State appropriations.

EXHIBITS "D" AND "C"

These are comparative statements showing the receipts and disbursements of special appropriations for permanent improvements during the period. The balances at the beginning and end of each period is also shown. We again give the figures of each institution in parallel columns for comparative purposes.

It will be observed upon reference to Exhibit "E" that considerable improvements have also been made out of the Steward's cash receipts.

EXHIBIT "E"

This exhibit shows in a comparative way the Steward's cash receipts and disbursements of the institution for the period. The sources of receipts and purposes of disbursements, though quite varied, are classified under general heads, sufficiently analyzed, we think. We show here only the actual receipts and disbursements. The condition of the accounts at the beginning and end of the period will be found in the individual reports.

EXHIBIT "F"

In this exhibit we show the average annual per capita cost of maintenance for each institution. It will be seen that we not only show the total average cost per patient, but the cost under each general division of the maintenance disbursements. The arrangement of the data in parallel columns for each institution and in two tables for the two years affords a ready means for making comparisons.

It will be observed that we show at the bottom of this exhibit the total per capita costs, taking into account the farm, garden, and dairy products. These figures are based on the values of these products as given us by the farm managers, and are not uniform for the three institutions, the Morganton valuations being considerably lower in many cases.

EXHIBIT "G"

In this exhibit we show the average per capita cost of the principal food items at the institutions. This table is also arranged for making comparisons of costs as to the institutions and as to years.

RECOMMENDATIONS

We recommend that the system of accounting at these institutions be standardized, so that the books and records will furnish the same kinds of information at each. The same classification of Steward's cash receipts and disbursements should be in use, as far as possible.

The general classification of the maintenance purchases is at present the same, but the detailed distribution of these should also be the same. No distribution record is in use at Goldsboro.

We also recommend that inventories of all stocks for maintenance be taken at the end of each fiscal year and taken into consideration in making up financial statements, so that accurate costs of actual maintenance may be determined.

Respectfully submitted,

PULLEN, HENDERSON, MCKINNEY & CO.

By T. J. Bagby.

December 27, 1918.

LETTER OF TRANSMITTAL

December 23, 1920.

To His Excellency, T. W. Bickett,
Governor of North Carolina.

Sir:—I have the honor to transmit herewith the reports of the superintendents of the three State hospitals for the insane at Goldsboro, Morganton, and Raleigh, and of The Caswell Training School at Kinston.

These reports show in detail the operations of the several institutions during the two years beginning December 1, 1918, and ending November 30, 1920. Appended thereto is a consolidated report of the audits of the Goldsboro, Morganton, and Raleigh hospitals. The full audit of each of these institutions and of The Caswell Training School is available for use for yourself and of the legislative committees.

These audits were made by Pullen, Henderson & Co., and by the instructions of the Board these auditors are installing a uniform system of bookkeeping so that hereafter in the Annual Reports the operations of each individual institution, in all of its departments, may be easily compared with the same departments in all of the other institutions.

Because of the high cost of labor, material, and supplies, as anticipated in the beginning of the fiscal year, it was found impossible to avoid deficits, but the Hospital Board was very much gratified that these deficits were not larger.

There is still demand for the admission of more patients, and it is a source of deep regret to the members of the Board that space and funds are inadequate to take care of all who are needing treatment and seeking admission.

The superintendents have presented their various needs to the Budget Commission after careful consideration of the same by the Board. The amounts asked for are large, but as much more could be spent beneficially.

The Board is thoroughly familiar with existing financial conditions and with the imperative demand in every department of the State. It feels, however, its sacred duty to make known the needs of our afflicted people; and while every item asked for in the budget is absolutely needed, these items have been arranged in the order of their urgency so that the General Assembly can act with all necessary information before them.

The Directors have fully appreciated and wish to thank you for your cordial coöperation in the difficult tasks committed to them.

Very respectfully,

Jos. G. Brown,
President of the Board.

SUPERINTENDENT'S REPORT

December 16, 1920.

The Honorable, the Board of Directors.

GENTLEMEN:—In compliance with statute, I have the honor to submit a report of the operations of the State Hospital at Morganton for the biennium ending November 30, 1920. It will be noted in our statistics that we have used the form recommended by the American Medico-Psychological Association and adopted by resolution of the Board of Directors at a meeting held in Raleigh in December, 1918.

You will observe from the appended tables that we had remaining on November thirtieth, nineteen hundred and eighteen, 626 men and 863 women, or a total of 1,489 patients. During the two-year period, we have admitted 344 men and 379 women or a total of 723. We have discharged as recovered 82 men and 75 women, or a total of 157, making the recovery rate based upon admission 23 per cent. In 1919 45 men and 61 women died, giving a mortality rate of 5½ per cent based upon the whole number treated. In 1920 69 men and 54 women died, giving a death rate of 5.4 per cent for that year. The apparent decline in the recovery rate from year to year is not an indication of failure of treatment, but results from the more careful study of the patients' actual mental condition upon discharge and a recognition of the slighter impairments remaining after the acute outbreak, which led to their admission, has subsided. Thus many patients are discharged as improved who would have been counted as recovered under the older method. The death rate for the two years has been in keeping with previous records and compares favorably with that prevailing in other similar institutions. The general health of the patients has been good with the exception of a continuation of the 1918 epidemic of influenza extending into the early part of 1919. We also had a light epidemic of smallpox amounting to about forty cases during last May, all of which were mild, with no fatality. This epidemic was more extensive than would have been owing to the failure of a supply of vaccine obtained from the National Vaccine and Antitoxin Institute of Washington, D. C. Since this accident, we have followed the routine of vaccinating all patients upon or soon after admission. We have also adopted the plan of administering anti-typhoid vaccine to all patients.

Only one suicide occurred during the year. An aged female patient, who was mildly depressed, succeeded in hanging herself.

The biennium under consideration has afforded more administrative difficulties than any similar period within my acquaintance of the work, due chiefly to labor conditions and high prices, with the consequent lack of funds. At no time during this period have we had a full corps of officers and employees, and more than once we have been reduced to the point of grave danger for a lack of proper help. Owing to the constantly mounting prices of all articles entering into subsistence and the necessary advance in wages we have been unable to live within our appropriation, and we have a deficit of about $80,000. The General Assembly in extra session in 1920 anticipated this and met it by authorizing the State Treasurer to borrow sufficient money

to cover the anticipated debt, thus relieving the members of the Board of Directors of this responsibility, which they had assumed heretofore.

The new dairy barn was completed last January and has been in use with great satisfaction since that time. No other permanent improvements have been undertaken further than the development of plans for a refrigerating plant, and these plans are as yet incomplete and still in the hands of the Building Commission.

Our estimated needs for support for the next ensuing two years amount to $425,535.80 annually and for permanent improvements $1,000,000.00, distributed as follows:

1.	Building to house refrigerating plant	$ 65,000.00
2.	Receiving building for men	100,000.00
3.	Men's dormitory	100,000.00
4.	Industrial building	25,000.00
5.	Remodeling power house	50,000.00
6.	New kitchen and equipment	100,000.00
7.	Refrigerator plant and cold storage equipment	45,000.00
8.	Reconstruction of heating and power plant	250,000.00
9.	General repairs to building and plumbing	100,000.00
10.	Water mains and fire hydrants	21,000.00
11.	Sprinkler system in main building, laundry, mattress factory, shoe shop, storage building, fire-escapes, fire doors, and fire shutters	92,000.00
12.	Repairs to electric wiring	2,000.00
13.	Furniture and equipment	50,000.00
		$ 1,000,000.00

These items are in strict conformity with the Building Commission's recommendations and have been carefully reviewed by the Executive Committee and approved by same. The items pertaining to fire protection are of vital importance, and this appropriation should be made and funds placed in the hands of the Building Commission at the earliest date possible, since our present fire protection is notoriously inadequate.

In conclusion, I desire to express my thanks to the members of the Board of Directors for their kind support and wise direction and for the sincere and constant interest they have manifested in the welfare of the institution.

Respectfully submitted,

JOHN MCCAMPBELL.

SUPERINTENDENT'S REPORT

To the Board of Directors of the State Hospital at Goldsboro.

GENTLEMEN:—Herewith is presented a report of the management of this institution for the two years ending November 30, 1920:

	Males	*Females*	*Total*
Patients on roll November 30, 1918	377	617	994
Number admitted during past two years	284	319	603
Total number treated	661	936	1,597
Total number discharged	269	328	597
Number on roll November 30, 1920	392	608	1,000
Percentage of cures on number received	...	...	29
Percentage of deaths on number treated	...	...	12
Daily average on roll	...	...	1,005
Daily average present	...	...	995

We had an epidemic of influenza in the institution and a large number of the inmates contracted the disease and twenty-one of the patients died.

There was a death by drowning—a demented female patient escaped at night and was found in the river near the institution. It is probable that her death was accidental and not suicidal.

A male patient died from the effects of a blow on his head given by a fellow patient with a mop stick. There was no known cause for the attack. In both of the above cases the coroner was notified, but did not deem an inquest necessary in either case.

A male patient had the misfortune of losing an arm by getting it caught in the corn-husking machine.

Our dairy herd has been free from tuberculosis for a number of years and is now recorded as an "accredited" herd.

A three unit DeLaval milking machine was installed several months ago and is giving entire satisfaction.

Only a limited amount of dental work has been done. A dentist was employed for a part of his time, but the arrangement was not satisfactory, so his services were discontinued. But an effort is being made to have the work resumed.

In compliance with an agreement with the War Risk Insurance Department of the Government at Washington to admit to this institution insane ex-service men from North Carolina, I wish to report that twenty-four have been admitted. Of this number, one has died, one escaped and two have been discharged as recovered. Twenty are still in the Hospital. For the care and treatment of these ex-service men, the institution is receiving compensation from the Government.

There were installed a number of fire doors. Two brick warehouses—one for fertilizers, the other for implements and supplies—were erected.

The dormitory for females which has been under construction for more than two years has not yet been completed. The State Building Commission now has this building in charge and hope to have it finished by spring.

It will have a capacity of one hundred beds, but will give additional accommodation for only forty patients, as the patients now occupying the old laundry will be transferred to this new dormitory.

For the present needs and the future development of this institution, we would ask for the following buildings, improvements, etc., as estimated and recommended by Mr. J. A. Salter, State Architect:

1. Completing woman's building	$ 25,000.00
2. Furniture	25,000.00
3. General repairs	25,000.00
4. New boiler house and stack, building to electric plant and ice plant and to storehouse	85,000.00
5. Heating plant, heating mains, rearranging heating in buildings, water supply, electric generators and equipment, refrigerating plant	250,000.00
6. Fire protection	40,000.00
7. New building for women	125,000,00
Total	$575,000.00

Realizing that the maintenance fund of this institution would be exhausted by the last of August of the present year, we appealed to the Legislature at its special session for an additional appropriation. The Legislature authorized the Council of State to borrow a sufficient amount of money for the needs of the institution. It was estimated that we would need $74,702.92, and this amount has been furnished us by the State Treasurer.

At the end of two years $359,133.25 had been expended and there was an outstanding indebtedness of five cars of coal which had been delivered, but for which no bill had been received.

For maintenance for 1921	$233,000.00
For maintenance for 1922	233,000.00

We were greatly handicapped throughout the entire two years by an insufficient number of helpers.

In closing, I wish to express to the Board my appreciation of their generous support and to the officers and employees my sincere thanks for their loyal and faithful services.

Respectfully submitted,

W. W. FAISON,
Superintendent.

REPORT OF THE CLINICAL DIRECTOR

A careful physical and mental examination has been given all patients as soon after their arrival as expedient and the same recorded.

Our Wassermann tests have been made at the State Laboratory of Hygiene, Salvarsan has been administered liberally to all suspected cases regardless of the Wassermann findings; 590 doses have been given in the past two years with very gratifying results. A large number of cases have apparently been restored to their normal mental condition under this treatment. Several cases of old chronic ulcered legs in badly demented cases have rapidly and permanently healed under this treatment. A few of the chronic epileptics have greatly improved under the treatment.

We have recently been treating all active cases of pellagra with yeast, giving a heaping teaspoonful three times a day. Thus far the results are very gratifying. The intestinal disturbance is relieved at once and the skin lesions rapidly improve. A series of blood counts were made on a number of active cases of pellagra without revealing anything of interest.

Post-mortems were held in all cases of obscure diagnosis and the findings carefully recorded.

The following work has been done in the pathological laboratory during the past two years:

Urinalysis	1,460
Sputum examinations	438
Blood examinations for malaria	291
Urethral and vaginal discharges examined	38
Feces examined	22
Gastric contents examined	5
Blood counts	61
Total	2,315

F. L. Whelpley, M. D.,
Clinical Director.

ENGINEER'S REPORT

DR. W. W. FAISON, *Superintendent State Hospital, Goldsboro, N. C.*

DEAR SIR:—I herewith submit my report as Engineer for the two years ending November 30, 1920.

The most important improvements and repairs made during this time are as follows:

Installed two new boiler pumps, a Wortherington pump ice plant, a three unit DeLaval milker, a motor to drive same. An additional washing machine has been placed in the Laundry.

Replaced gutters on Miller Building. The metal roofs of the various buildings have been painted, and a new coat of paint applied to the exterior of the male and female Tubercular buildings. Replaced with concrete steps six pairs of wooden steps.

Moved, repaired and painted four employees' cottages; a hydrant extended to same.

The steam heating system is now being installed in Superintendent's residence.

Respectfully submitted,

W. D. WILLIAMS, *Engineer.*

STEWARD'S REPORT

For the Biennial Period from December 1st, 1918, to December 1st, 1920

Amount paid from appropriation funds for farm and dairy	$ 11,247.52	$ 11,395.61
PAID FROM LOCAL CASH		
Feed for 29 head of work stock 12 months, less feed counted above	$ 2,568.25	$ 1,456.55
Cost of dairy less fencing, fertilizer, hired help, seed, counted above	2,633.95	4,200.00
Fertilizer	2,906.51	4,968.80
Seeds	228.98	707.50
Feeds	911.75	2,023.45
Tools, baskets, crates	201.70	309.04
Veterinary service	344.08	148.09
Repairs and miscellaneous	114.60	976.66

Six mules (four young mules)		$ 1,025.00
Five hogs		245.00
Ensilage cutter		385.00
Wagons and harness		470.00
Moline tractor		1,878.14
	$ 21,147.34	$ 30,190.84
Farmer's salary and board	$ 960.00	$ 1,125.00
Gardener's salary and board	725.00	
Hired help, wages and board	831.00	962.50
Salary and board of dairyman	845.00	900.00
Wages and board of dairy helper	610.00	735.00
Total	$ 25,118.34	$ 33,913.34

REPORT OF FARM AND GARDEN, 1919

Apples, 682 bushels at $1	$ 682.00
Asparagus, 110 bushels at 20c	22.00
Beans, lima, 2,800 bushels at 50c	1,400.00
Beans, snap, 2,780 bushels at $1	2,780.00
Beans, snap, (sold) 664 baskets	778.45
Beans, soja, 100 bushels at $4	400.00
Beets, 60 bushels at $1	60.00
Cabbage, 372 barrels at $2	744.00
Cantaloupes, 100 bushels at $1	100.00
Collards, 7,350 heads at 5c	367.50
Corn, 480 barrels at $10	4,800.00
Corn, green, 25 stands at $1.25	31.25
Corn, ensilage, 75 tons at $6	450.00
Corn, stover, 300,000 pounds at 75c	2,220.00
Cotton, lint, 6,297 pounds at 35c	2,203.95
Cotton seed, (sold) 11,100 pounds	440.17
Clover (cut in vine), 10,000 pounds at $1.50 per 100	150.00
Cucumbers, 67 bushels at $1	67.00
Dewberries, 145 bushels at $3	435.00
Grapes, 120 bushels at $2.50	300.00
Hay, crab-grass, 10,000 pounds at $2 per 100	200.00
Hay, pea vine, 160,000 at $2 per 100	3,200.00
Hay, garden pea vine, 2,000 pounds at $1 per 100	20.00
Hay, grain and vetch, 86,130 pounds at $1.50 per 100	1,478.95
Hay, soja bean vine, 13,140 pounds at 50c. per 100	67.20
Hogs (sold)	3,412.93
Leeks, 600 bushels at 50c	300.00
Lettuce, 250 heads at 5c	12.50
Oats, 1,610 bushels at $1	1,610.00
Oat straw, 80,000 pounds at 50c. per 100	400.00
Onions, 18 bushels at $1	18.00
Onions, salad, 250 bushels at 75c	187.50
Peaches, 90 bushels at $2.50	225.00
Peas, English, 56 bushels	54.00
Peas, English (sold), 171 baskets	298.55
Peas, green, 50 bushels at 75c	37.50
Pecans, 16 bushels at $6	96.00
Plums, 4 bushels at $1.50	6.00
Potatoes, Irish (spring crop), 632 bushels at $1	632.00
Potatoes, Irish (fall crop), 160 bushels at $2	320.00
Potatoes, sweet, 325 bushels at $1	325.00
Pork, 15,840 pounds at 25c	3,960.00

Radishes, 4 bushels at $1	$ 4.00
Rutabagas, 50 barrels at $1	50.00
Rye, 112 bushels at $2	224.00
Rye straw, 15,000 pounds at 50c. per 100	75.00
Salads, 1,320 bushels at 50c	250.00
Squash, 232 bushels at 50c	116.00
Strawberries, 55 bushels at $2.50	137.50
Tomatoes, 100 bushels at $2	200.00
Turnips, 480 bushels at $1.50	720.00
Watermelons, 1,618 at 15c	242.70
Wheat, 280 bushels at $2.25	630.00
Wheat straw, 50,000 pounds at 50c. per 100	250.00
Total	$ 38,511.65

Respectfully submitted,

D. H. NEWELL, *Farmer.*

REPORT OF FARM AND GARDEN, 1920

Apples, 581 bushels at $1.50	$ 871.50
Apples, crab, 4 bushels at $2	8.00
Asparagus, 105 bunches at 25c	26.00
Beans, lima, 500 bushels at $1.50	750.00
Beans, snap, 523 baskets at $2	1,046.00
Beef, 7,353 pounds at 18c	1,323.54
Beets, 30 bushels at 50c	15.00
Bulls (sold), 2	400.00
Bull calves, (sold) 2 at $10	20.00
Cabbage, 410 barrels at $1.50	615.00
Cantaloupes, 742 bushels at $1	742.00
Celery, 300 bunches at 25c	75.00
Collards, 12,400 heads at 4c	496.00
Corn, 1,126 barrels at $6	6,756.00
Corn, green, 20 stands at $1	20.00
Corn, ensilage, 400 tons at $6	2,400.00
Corn, shucks, 1,000 pounds at 50c per 100	5.00
Corn, stover, 250,000 pounds at 75c. per 100	1,875.00
Cotton, lint (long staple), 7,000 pounds at 35c	2,450.00
Cotton (picked for neighbors), 55,674 pounds at $1.50 per 100	835.11
Cotton seed, 513 bushels at 30c	153.90
Cow hides (sold), 4	166.86
Cucumbers, 120 bushels at $1	120.00
Cucumbers (for pickles), 18 barrels at $6	108.00
Dewberries, 31 bushels at $2	62.00
Figs, 8 bushels at $2	16.00
Fodder, 6,750 bundles at $2	135.00
Grapes, 210 bushels at $2	420.00
Hay, crab-grass, 27,000 pounds at $1 per 100	270.00
Hay, clover (for seed), 10,100 pounds at 75c. per 100	75.75
Hay, pea vine, 156,000 pounds at $1 per 100	1,560.00
Hay, garden pea vine, 2,800 at 75c. per 100	21.00
Hay, soja bean (for seed), $29,820 pounds at $1 per 100	298.20
Hay, Sudan grass, 31,050 at $2 per 100	621.00
Hay, vetch and grain, 132,00 pounds at $2 per 100	2,640.00
Leeks, 200 bushels at 50c	100.00
Lettuce, 500 heads at 4c	20.00
Mutton, 1,103 pounds at 18c	198.54
Oats, 2,019 bushels at 85c	1,716.15
Oat and rye straw, 85,000 pounds at 50c. per 100	425.00

Peaches, 59 bushels at $2	$ 118.00
Peaches, canned, 1,276 quarts at 25c	319.00
Pears, 10 bushels at $2	20.00
Peanuts in vine, 6,175 pounds at $1	61.75
Peas, English, 275 baskets at $2	550.00
Peas, green, 145 bushels at 75c	108.75
Pecans, 4 bushels at $5	20.00
Pepper, 10 bushels at $1	10.00
Pigs (sold for barbecue), 64	701.00
Plums, 2 bushels at $2	4.00
Pork, dressed, 35,000 pounds at 20c	7,000.00
Potatoes, Irish, 435 bushels at $2	870.00
Potatoes, sweet, 1,405 bushels at $1	1,405.00
Rutabagas, 675 bushels at 75c	506.25
Rye, 38 bushels at $3	114.00
Salads, 613 bushels at 50c	306.50
Sheep skins, 14 at 50c	7.00
Squash, 107 bushels at $1.50	160.50
Strawberries, 10 bushels at $2	20.00
Tomatoes, 218 bushels at $2	436.00
Tomatoes, canned, 278 gallons at 80c	222.40
Turnips, 2,400 bushels at 75c	1,800.00
Watermelons, 3,871 at 15c	580.65
Wood, 139 cords (cut), at $1.50	208.50
Wool, 150 pounds at 25c	37.50
Total value of farm and garden	$ 45,504.60

Respectfully submitted,

D. H. Newell, *Farmer.*

SUPERINTENDENT'S REPORT

Mr. Joseph G. Brown, *President, and Members of the Board of Directors of the State Hospital at Raleigh.*

Gentlemen:—Report of work at this hospital for two years ending November 30, 1920, is herewith submitted.

STATISTICAL SUMMARY

Table No. 1

Insane Department

	Male	Female	Total
Patients remaining November 30, 1920	465	530	995
Admitted during last two years	267	160	427
Received from Caswell Training School	31	18	49
Total number under treatment	763	708	1,471
Average daily population			1,047.2
Total number discharged and dead	239	145	384
Restored	5	5	10
Improved	175	82	257
Unimproved	4	2	6
Transferred	1		1
Died	58	52	110
Per cent of deaths on number treated			7
Per cent of recoveries and improved of number admitted			60
Total number remaining of patients received from Caswell Training School	21	13	34
Grand total			1,072

Epileptic Department

	Male	Female	Total
Patients remaining November 30, 1918	85	83	168
Patients admitted during last two years	34	24	58
Total number under treatment	119	107	226
Average daily population	93	85	178
Total discharged	9	5	14
Total discharged, improved	5	5	10
Total discharged, unimproved	5		5
Transferred to Main Building	1		1
Died	17	16	33
Total remaining November 30, 1920	93	84	177

Children from Caswell Training School

	Male	Female	Total
Received	31	18	49
Dead and discharged	10	5	15
Remaining in institution November 30, 1920	21	13	34

The statistical summary includes the Epileptic Department as usual. We have had four suicides during the last biennial period, as follows:

June 1st, 1919, male suicide by hanging himself with belt around his neck; June 16th, 1919, male suicide by hanging himself in bathroom; July 26th, 1919, male suicide by hanging himself with window cord; February 4th, 1920, female suicide by strangulation from hanging.

No epidemic of any disease. Some over eleven hundred patients were immunized from typhoid fever by giving serum.

We have been fortunate enough to hold daily staff meetings with only few exceptions in the last two years. During the summer vacations we have had additional help from medical undergraduates, having two men the past summer all the time and three part of the time. We used this additional force to write a history of nearly every epileptic in both colonies, the first time this has been done for epileptics in the history of the institution. All the new cases received at each colony are examined and their history taken by Dr. Small, who is in charge of this work.

Messrs. Eric Bell, W. S. Hadley and Dick Pittman were the three medical undergraduates employed last summer, and we wish to take this opportunity to bear record of their faithful and satisfactory services. From their expressions of satisfaction with their work, we can report a mutual benefit from their services.

Dr. Victor R. Small, of Ohio, was put on our staff the first of 1920. Dr. Small is a graduate of the Ohio State University, College of Medicine, 1916. He was for one year assistant physician at Gallipolis Hospital; for six months hospital neuro-psychiatric examiner of the 40th Division, Camp Bovier, Texas; one year service overseas, rank of captain; one year at Dix Hill. He was made assistant physician in May at an increased salary. He also does what laboratory work is done in the institution. We send to the State Laboratory of Hygiene all of our blood for Wassermann test.

On August 3d, 1920, Dr. C. L. Jenkins handed in his resignation with the statement that he would like to be relieved as early as convenient. At the time we had sufficient help to relieve the doctor at once.

Dr. Victor E. Bell was employed as dentist August, 1919, and stayed with us about a year. He left for private work in the city. We tried to arrange with him for part time, but he finally concluded he could not afford to be away from his office any time in the beginning of his practice. We have not been able to secure another dentist since he left. I have asked in our budget a larger salary for the next two years to secure a dentist.

During the past two years we have built and equipped a new kitchen which has been sadly needed for more than twenty-five years. The State Building Commission has also overhauled and repaired the G-ward building and congregated dining-room, making the repairs fire-proof by putting in concrete floors.

We had the misfortune to lose our laundry by fire September 25th, and the good fortune of saving all the patients, all the employees and officers and all other buildings from harm. The fire occurred on Saturday morning between three and four o'clock, practically destroying the entire building, all the equipment and about eight thousand dollars worth of clothing ready laundered to be sent out Saturday a. m. The total loss was between seventy-five and eighty thousand dollars. The State architect made out and completed plans for a new laundry building before midnight Saturday and

work was commenced Monday morning following. We hope to be back doing work in our new laundry by January 1st.

During the two years we have bought and put up three corn cribs well ventilated and rat-proof. The work of repairing, painting and making certain changes in our institution must continue in order to save the older buildings and render them safe and efficient.

Water and plumbing fixtures, sewerage, closets, and lavatories in the old building are breaking down all the time, making them very expensive and inefficient. They should all be taken out and new material put in at the earliest possible date.

Our various departments have made their reports. They are all in good condition at present and we have, in my opinion, the best equipped heads of each department this institution has ever had. We look to the future with more hope on this account for the greatest economy, efficiency and results that we have ever had.

We were compelled to use $30,000 more than the appropriation made by the last Legislature, but the extra session arranged to carry this through for us. With additional one hundred patients for next two years over the number we have been carrying we have asked in our budget the sum of $354,000 a year, making about $300 per capita.

Our present rate of wages for nurses and attendants, varying from $30.00 to $50.00 per month, will have to be continued for this kind of work, as other hospitals will continue to pay more than this. We have had a shortage of employees in all departments, especially nurses and attendants of both sexes.

Our farm is more than one hundred acres larger and we will have to hire more help, increasing the expense here.

Our waiting list is larger than ever, but with the additional room we hope to relieve the congestion on the female side. As said in our report two years ago, "Our large waiting list might be reduced considerably by adhering to a strict rule of rejecting the applications of very aged people who are bed-ridden, feeble-minded or dotards. These do not need the special equipment of a hospital as the mentally sick. Homes for the incurables and invalids are the places for them."

For the new buildings, what we need in the next few years we have given a list to the Budget Commission. Out of these the most pressing, of course, are two congregated dining-rooms for each sex, that we may get full benefit of our new kitchen. With dining-rooms connected as planned with kitchen we could serve our food to a larger per cent better and with an average of fifteen to twenty-five per cent saving.

We should have a new dairy barn as quickly as possible. Our entire herd is practically wiped out by the State and Federal authorities on account of tuberculosis. We could use the old dairy for our mules and horses, as it is our policy to move them away from this herd nearer to the farm work. While the new dairy building is being put up, we can keep a small number of cows in a barn near the main building. We need some small houses for white help at once.

For the intelligent and faithful services from officers, employees and patients we wish to express our sincerest appreciation. Our Executive Committee, members of Board and State Building Commission have wrought wisely and well, as the results of their work so evidently shows. To these we tender our abiding gratitude.

Respectfully submitted,

Albert Anderson, *Superintendent.*

Table No. 2

SHOWING THE NUMBER OF ADMISSIONS AND DISCHARGES (INCLUDING CURES, IMPROVED, UNIMPROVED, AND DEATHS) FOR EACH YEAR SINCE THE OPENING OF THE HOSPITAL

Date	Admissions	Discharged							Remaining

ENGINEER'S REPORT

December 9th, 1920.

DR. ALBERT ANDERSON, *Superintendent,*
State Hospital, Raleigh, N. C.

SIR:—I hereby submit you a report of the work done in this department for two years ending November 30th, 1920.

We have, besides keeping up the regular repairs, made the following improvements:

Installed in boiler room three Jones under-feed stokers, with automatic attachments, one fan, one thirty horsepower engine and one regulating valve for same. We have made new piston and valve rods for stoker engine, new valve rods for No. 1 and 2 power engines, have taken out old wood partition between engine-room and fire pump and built a brick one. We have taken out wood floor in engine room and put in concrete; also have taken down metal ceiling, cut out joist, braced up roof and put on metal laths and plastered same, making engine and fire pump rooms practically fire-proof.

In fire pump room we have put up iron shelves and work bench, these being used for electrical supplies and work. We have put in a set of brass tubes in domestic water heater.

Have installed in carpenter shop, on concrete foundation, one thirty-five horsepower motor. Installed in laundry one fifteen horsepower motor

with starting box and counter shaft. We have dismantled and moved all cooking utensils from old kitchen to temporary quarters and assembled same by laying a temporary steam line of 1¼-inch by 350 feet in length, 150 feet 1¼-inch galvanized pipe for hot water. Have made water connection for No. 2 ice plant, using 100 feet of 2-inch galvanized pipe. Have made water connection for carpenter shop and cannery; also repaired coils and put in new headers and repaired steamers in cannery. We have installed at carpenter shop one American sterilizer for sterilizing mattresses.

We have put up 3,500 feet of No. 6 wire and 800 feet of ½-inch conduit for electrical pumps used in forcing condensation from heating system back to boiler room.

We have put up one five-horsepower motor in meat room to drive sausage mill and mixer and coffee mill, with shafting for same. We have put up three of Harry Brothers metal corn cribs with concrete foundations and made five extra ventilators for same and built one brick house to keep oil in at dairy barn.

We have put in 7th ward 40 feet ½-inch conduit, 40 feet of wire and one new light; also rewired mule barns, using 100 feet ½-inch conduit and 100 feet of wire, put electric heaters in two garages. We have lowered the floor three feet in pump room under J ward, put in concrete foundation and floor, run a draw line from same, using 200 feet of 4-inch terra-cotta pipe. Have moved 200 feet of 2-inch galvanized pipe and put some in pipe chase under new kitchen. Put on six new steam gaugers on heating system and repaired radiator boxes in basement. Made and welded six bottoms in boilers for cooking. Built walkway on each side of track over coal chute and on one side of trestle. Put brass piston rods in brine pump. We have installed in machine shop one Steptoe shaper and one gas generator. We have made one oversize nipple for No. 4 boiler and repaired pop valves on Nos. 4 and 5 boilers and put new blow-off line on No. 6. Have kept all boilers clean and in working order at all times.

We have put new sinks in J, K, and L wards and in receiving building. Have built a brick house in male and female court yard and put two closets in each. We have put new ranges in at male epileptic and Oaks colonies.

On September 25th, 1920, the laundry was burned down, the loss being about $100,000. We have worked over two extractors that were burnt and are using them in our temporary laundry that we have set up in old vegetable room; using two washers, one extractor and one dry tumbler. These are driven by a fifteen-horsepower motor.

We have moved cooking utensils in new kitchen and set up same. Have put in at male epileptic colony one new sink and 200 feet of three-fourth-inch galvanized pipe and one water closet.

Respectfully submitted,

T. A. Holliday, *Engineer.*

REPORT OF CARPENTER'S DEPARTMENT

DR. ALBERT ANDERSON, *Superintendent.*

SIR:—I respectfully submit to you the report covering the work in the carpenter's department for the period from November 30th, 1918, to November 30th, 1920.

Covered male colony cottage with rubber roofing; walkway in basement under center building from A to 1st ward; built shed over cement walk back of A ward; put combine locks on ward doors; ceiled smoke-house; made 80 potato crates (for field use); made and fitted screens to all windows on first floor at receiving building; repaired carts, wagons, plows, harrows, mowers, tables, chairs, stepladders, bedsteads, window sashes, and put in glass; repaired locks and doors, court yard fences and gates; made coffins and buried the dead; built tram-road from boiler room to cinder pile; calcimated and painted floors in wards (work done by nurses and patients); enameled bedsteads; cemented floor and repaired cook room under officers' dining room; repaired two brick pump houses in grove; repaired front of garage; kept all wire screens repaired; repaired roofs on two houses near male colony; screened dairy and dairy cottage; new floors in gangway from G ward to congregated dining room; new cement floor from 7th ward to center building; elevator from kitchen to officers' dining room; repaired top, put door and steps to patients' pleasure truck; roof and door at new oil house at dairy; new bridge across Rocky Branch; cement walk from Rocky Branch to center building; made 2,400 brooms (by patients); sterilized nine and made 1,200 mattresses (by patients); slatted 80 beds (could not get springs during war); put on round bar iron window guards on 7th, 8th, 9th, and 10th wards; helped on new corn crib, laid floor for same; new floor in room on second floor at center building; laid a board walk from temporary kitchen to Erwin building; ventilators to laundry, first and second floors; laid a new oak floor on old bridge across Rocky Branch; sawed 30,000 feet oak and pine lumber; put new floors on first floor at Dr. Jenkins' residence; sheeted and covered roof at cooks' house with composition shingles; sawed about 2,500 feet of cedar; made five cedar wardrobes 6x6 feet for blankets; made 170 feet wood benches; made swinging drawers and doors in dining room; ceiled closet with cedar on second floor center building; changed drawers in steward's office to filing cases; made two large kitchen cabinets; put on 150 bed-springs; put reinforced glass in center building and receiving building doors and nurses' home doors; made hay flat for farm department; put new floor in bath room male epileptic colony; new floor in head nurse's office; sheeted and covered roof Mr. Adams' house with composition shingles; extended track to new kitchen; also built shelter over food truck; covered cottage at male epileptic colony with composition shingles; put in glass on all wards; painted tin roof of main buildings and cannery, porch roof at cottages, and gutters; painted dining rooms and tables; varnished and waxed nine rooms at nurses' home.

Respectfully submitted, R. M. BROWN.

REPORT ON EXAMINATION, HISTORICAL AND LABORATORY WORK

November 30, 1920.

Dr. Albert Anderson, *Superintendent.*

Dear Sir:—My services at Dix Hill, State Hospital, began December 29th, 1919. During these eleven months I have been engaged in making psychiatric, neurological and physical examinations of all recent admissions to the hospital, as well as of any other cases referred to me by the several members of the staff, writing histories of same and presenting said cases at regular staff meetings. I have also done all laboratory work with the exception of the Wassermann reactions, which tests have been made at the State Laboratory of Hygiene. I have taught materia medica, psychiatry, hygiene and sanitation to the class in the nurses' training school, and since September 1st, 1920, have had the outside service at the colonies. For a period of about three weeks, during the latter part of July and the first part of August, I relieved one of the assistant physicians at the State Hospital at Morganton.

A summary of the clinical work at this hospital follows:

Examinations (physical, neurological, and mental), histories written and cases presented at staff meetings: men, 127; women, 61; total	188
Urine analysis	66
Blood counts	10
Blood specimens for Wassermann reactions	196
Sputum examined for tuberculosis	18
Cultures and bacteriological examinations	11
Spinal punctures with cell counts, Globulin and Wassermann reactions on fluid	21
Paracentesis and examination of pleuretic effusions	4
Post-mortem examination	1

In each case, when any laboratory examination was indicated, same was made.

Attention is invited to the possibility of greater benefits that would accrue could some means be found whereby more post-morten examinations could be made.

Respectfully submitted,

Victor R. Small, M. D.

STOREKEEPER'S REPORT

December 1st, 1920.

To the SUPERINTENDENT:

The following is a general report of the supplies on hand in the storehouse at present:

	Quantity	Amount
Western bacon, pounds	5,730	$ 1,031.40
Western hams, pounds	565	175.15
Lard, pounds	1,495	201.83
Beef, pounds	2,430	352.35
Molasses, barrels	3	91.80
Flour, barrels	214	2,482.40
Oat meal, barrels	6	58.50
Rice, barrels	1,500	93.75
Sugar, barrels	1,200	147.00
Coffee, barrels	797	111.58
Post toasties (3 dozen to case), cases	2	4.70
Dried fruit (apples), pounds	600	60.00
Macaroni, pounds	1½	10.88
Mincemeat, pounds	1,400	210.00
Tomatoes, cans	1,200	700.00
Pineapples (½ dozen to case), cases	53	84.00
Corn (1-quart cans), cans	1,582	216.15
Prunes, pounds	1,000	120.00
Cornstarch, cases	8	20.72
Tapioca, cases	9	16.02
Postum, dozen	40	8.60
Cooking soda, pounds	75	2.63
Gelatin, cases	10	14.00
Cocoa, pounds	37	13.32
Rumford baking powder, pounds	240	44.00
Michigan beans, pounds	4,600	368.00
Kidney beans (red), cans	1,400	176.14
Mixed vegetables, cans	108	54.00
Salmon (48 cans to case), cases	214	428.00
Fish roe (24 cans to case), cases	130	490.50
Corned beef (12 cans to case), cases	10	200.00
Tripe (24 cans to case), cases	35	113.75
Borax soap, cases	101	303.55
Wool soap, cases	13	117.00
Toilet soap, cases	79	197.50
Liquid soap, barrel	1	10.00
Snuff (small boxes), gross	25	143.75
English walnuts (10 bags), pounds	1,000	280.00
Toilet paper (100 to case), cases	22	231.00
Bedspreads	371	927.50
Chambers	51	306.00
Rolls of laundry padding	----------	169.00
Silence cloth, yards	20	24.00
Laundry baskets	60	240.00
Outing, yards	666	116.55
Scrim, yards	102	45.90
Bleaching, yards	1,079	172.55
Cheviot, yards	537	85.92
Table linen, yards	379	321.25
Satteen, yards	312	46.80
Rubber sheeting, yards	269	282.45
Light brown domestic, yards	22	3.08

STOREKEEPER'S REPORT—Continued

	Quantity	Amount
India lawn, yards	96	$ 19.56
Mosquito netting, yards	124	21.70
Brown sheeting, yards	1,780	687.26
Brown sheeting, yards	97	82.45
Glove cambric, yards	126	13.86
Woolen dress goods, yards	102	12.24
Drilling, yards	2,920	817.60
Bed ticking, yards	233	89.12
Hickory shirting, yards	678	244.08
Brown domestic, yards	578	83.91
White duck, yards	655	245.63
Eight-ounce duck, yards	590	236.00
Pillow tubing (bleached), yards	845	401.38
Cup toweling (crash), yards	860	172.00
Percale, yards	444	150.96
Ginghams, yards	416	104.00
Chambray, yards	517	180.95
Men's caps	30	.30
Men's drawers (knit)

J. R. Baggett ..... Lillington, Harnett County

STAFF OF THE SCHOOL

C. Banks McNairy, M.D. ..... *Superintendent*
W. T. Beach ..... *Steward*
Miss Mary Schwarberg ..... *Principal*
Miss Minnie Culver ..... *Nurse*
Mrs. Florence Leonard ..... *Matron*

SUPERINTENDENT'S REPORT

"In times of great difficulty, emergency and distress it sometimes seems that the written as well as the spoken word is inadequate, and in such cases brevity is likely to prevail." This is our feeling as we endeavor to make our biennial report for 1919 and 1920.

I am sure you all remember only too well the many disasters through which we were forced to pass in the early part of the year 1919: fire, influenza, etc., for a detailed report of which I respectfully refer you to superintendent's supplementary report attached to biennial report of 1917-18. As soon as arrangements could be made after the fire we sent fifty-three children home and forty-four to the State hospital at Raleigh. Since that time we have sent five additional pupils to Raleigh.

Through the years now past the work of the school has been carried on under greater difficulties than during any previous year in the history of the institution. The scarcity of labor has become more and more acute. The result has been painfully apparent in all of the institution's departments, and has been especially noticeable in the dormitories and school department. This, we sadly realize, emphasizes the fact that we lack both more room and means to give the necessary care to the most helpless and unfortunate of the State's dependents. We were unable to carry on our outdoor department and farm operations because of the lack of sufficient help. These conditions certainly call for serious consideration from those who have the cause of suffering humanity at heart and the legal responsibility of providing adequately for their care and comfort. Let us hope that a remedy may be found not too late.

We have been able to construct six new cottages for our help and build additions to another, and have erected a cattle and feed barn, two stories, 40x90 feet. We have plans and material for the construction of an addition to our dairy barn and for a hog house. We have completed a potato house which will house from 2,000 to 2,500 bushels. We have completed a sewer line from the river to the seven cottages and also to the buildings now being constructed, the low grade and middle grade buildings for girls and the power house. The contractor has the walls of both dormitories up to the first floor where the concrete has been poured, and the power house to the top of the first windows.

We herein incorporate the recommendation of your superintendent to the executive committee and through them to you, the Governor and the Budget Commission, as follows:

For repairs, maintenance and upkeep of the institution—

1921	$ 95,450.00
1922	$156,600.00

For permanent improvements for the next two years, we submit the following as our building program and what is needed to complete the unit,

the estimates being furnished by the State architect, Mr. James A. Salter, and approved by the State Building Commission:

1. Boys' low grade building	$ 75,000	
2. Boys' middle grade building (remodeling)	110,000	
3. Dining room and auditorium (for above)	100,000	
4. New building for training school	125,000	
5. Electric equipment, wiring	50,000	
6. Lighting of grounds, additional two-boiler unit	10,000	
7. Laundry and equipment	20,000	
8. Water supply	25,000	
9. Storehouse and refrigeration	50,000	
10. Remodeling present administration building for attendants' quarters	50,000	
11. Tunnels and connecting corridors	100,000	
12. Furniture	150,000	
13. Equipment	50,000	
14. Improvements to grounds	25,000	
15. Colored unit	40,000	
16. Administration building, receiving wards, infirmary, medical staff offices, superintendent's office and business office	350,000	
		$1,330,000
As we will be unable to build the administration building within the next two years, deduct		350,000
Balance required		$ 980,000

We, fully realizing the necessity for and assured of its justice, would like to emphasize that at least $40,000.00 be appropriated as a nucleus for the establishment of an institution for colored mental defectives in accordance with our former recommendations.

We also attach hereto the Steward's report, and we are happy to say that we are able to come through without a deficit, for which we are truly grateful. Any one conversant with the facts will know the sacrifices made and the apparent negligence in the upkeep of the institution and property which necessitates our demands for an increase in our appropriation for the incoming two years.

Our list of applications and requests for admission is constantly growing. We have no hope of relief for another year. We have 143 applications on file and have had reported from 23 counties 569 children for whom application would be made could we hold out any ray of hope that they might be admitted soon. At the annual meeting at our place in April I was instructed by the Board to send two boys who were uncontrollable, and at times dangerous, to Dix Hill and one to Morganton. Dr. Anderson promptly took the two. I made application to Morganton, but to date have been unable to have this boy admitted.

Respectfully submitted,

C. BANKS MCNAIRY,
Superintendent.

CONSOLIDATED REPORT

ON

AUDITS

OF

THE STATE HOSPITALS

AT

RALEIGH, MORGANTON
AND GOLDSBORO

NORTH - - CAROLINA

FOR THE PERIOD

DECEMBER 1, 1918, TO NOVEMBER 30, 1920

CONSOLIDATED REPORT ON AUDITS

To the Board of Directors,
State Hospitals for the Insane,
Raleigh, N. C.

GENTLEMEN:—Supplementary to our regular individual reports on our audits of the State hospitals for the insane at Raleigh, Morganton and Goldsboro, N. C., covering the biennial period from December 1, 1918, to November 30, 1920, we submit herewith a summarized report, presenting in comparative form the principal features and facts brought out by these separate reports.

The information herein presented is general in character and somewhat condensed; however, we believe it will not only be interesting for purposes of comparison as between the separate institutions, but will be more readily useful to the General Board.

The several exhibits of this report will be found in order of arrangement indicated by the attached index, and concerning which we offer the following:

Comments and Explanations

EXHIBIT "A" AND "B"—These are comparative statements of the maintenance funds for the two years, showing the amounts received through annual and special State appropriations, and the audited disbursements in monthly totals for each year. A brief review of these statements show the following facts:

First: The Raleigh Hospital began the biennial period at December 1, 1918, with a deficit in maintenance of $26,441.58.

There was a special appropriation of $27,800.00 to cover this deficit. This, together with the annual appropriations of $265,000.00 each, provided available funds for the entire period, amounting to $557,800.00. Against this there were disbursements for each year as follows: 1919, $259,282.30; 1920, $301,928.72; together with the deficit at beginning of the period of $26,441.58, as above, which amounts to $587,652.60. This results in a deficit in maintenance for the Raleigh Hospital, as at November 30, 1920, of $29,852.60.

Second: The Morganton Hospital began the period with a deficit in maintenance of $56,256.61.

The special appropriation to cover this deficit and other indebtedness was $75,000.00, together with the regular annual appropriations of $325,000.00 each, and the allowance of $782.50 for insurance, provided total available funds for the biennial period amounting to $725,782.50. The disbursements for the same period were as follows: for 1919, $380,885.94; for 1920, $370,532.83; these, together with the deficit of $56,256.61 at beginning of the period, make a total of $807,675.38. This results in a deficit in maintenance for the Morganton Hospital at November 30, 1920, of $81,892.88.

Third: The Goldsboro Hospital began the period at December 1, 1918, with a deficit in maintenance of $23,500.00, which was wiped out during the first year by a special appropriation of the same amount for that purpose.

The regular annual appropriation for each of the two years was $150,000.00, a total of $300,000.00 for the period. Against this the disbursements were: for 1919, $150,000.00; for 1920, $209,133.25, a total of $359,133.25, which would have resulted in a maintenance deficit for the Goldsboro Hospital of $59,133.25, but on October 5, 1920, the Governor's Council granted a special appropriation for maintenance purposes amounting to $74,702.97, which resulted in a maintenance fund balance available at November 30, 1920, of $15,569.72.

EXHIBITS "C" AND "D."—These exhibits set forth the appropriations and disbursements on account of permanent improvements over the biennial period from December 1, 1918, to November 30, 1920.

Reference to these exhibits will show that the Raleigh Hospital began the period with a balance of $8,301.41, to which there was added the sum of $210,000.00, made available during the period under review, from the appropriation of $280,000.00 of the former period, $70,000.00 of which was made available and used during 1918, as shown by our previous report.

Therefore, altogether for the period there was the sum of $218,301.41 available for the construction of a new kitchen, a new laundry, and the remodeling of "G" ward, as set forth in detail in the Raleigh report.

Against the above available funds there were disbursements in 1919, $94,998.32; in 1920, $106,099.95, a total of $201,098.27, leaving a balance available at November 30, 1920, of $17,203.14.

The Morganton Hospital had a balance from the former biennial period of $3,402.98, carried in "Water Lime Fund."

There were no appropriations nor disbursements on account of permanent improvements during the period. However, there were two small damage claims paid as follows: 1919, $21.40; 1920, $77.55, thereby reducing the above balance to $3,304.03 at November 30, 1920.

The Goldsboro Hospital carried over an unexpended balance from the former period of $3,672.15. To this there were added appropriations as follows: 1919, $44,058.00; 1920, $11,200,00, a total available for permanent improvements for the period of $58,930.15. Against this provision there were disbursements as follows: 1919, $41,779.21; 1920, $17,265.77, a total of $59,044.98, resulting in a deficit of $114.83 in the permanent improvement fund at November 30, 1920.

EXHIBIT "E."—This is a summarized statement in comparative form of the sundry receipts and disbursements of the stewards' cash accounting the period under review. Only the actual receipts and disbursements are shown in this exhibit, the balances at beginning and end, and reconcilements being shown in the individual reports.

Reference to this exhibit will reveal that the major portion of these receipts comes from the board of patients, the larger proportion of such being collected at the Raleigh Hospital. It will be noted also that the receipts from the sales of farm products at the Goldsboro Hospital are proportionately greater than at either of the other two hospitals.

It is also to be observed that at all three of the hospitals the disbursements for permanent improvements and the repairs and maintenance of same con-

stitute, in most cases, the major portion of the total, while farm equipment and improvements stand next.

We are informed that the sundry income of each hospital might be considerably increased through a more diligent effort toward collections for board of patients, who possess estates or have relatives who are amply able to pay the rate allowed by the State law.

The North Carolina State law provides that moneys received by the State Hospitals for board of patients and sales of sundry items, other than land or permanent improvements, (interpreted to mean those properties carried upon the books of the State as fixed assets of the State) shall be deposited in a separate account at bank as a special fund, subject to the discretion of the hospital's executive board.

It appears to us that the General Board would do well to encourage uniform effort on the part of the institutions to keep up an active program of collections of amounts which may rightly be due them; which funds, handled in compliance with the law, cited above, will gradually provide an "emergency fund" from which the hospitals may make needed improvements, and which, otherwise, might not be made if dependent entirely upon appropriations. There are also many instances of considerable savings to the hospitals by having these funds at hand with which to take advantage of low market in the purchase of supplies.

EXHIBIT "F."—In this exhibit is shown, in comparative form, the average annual per capita cost of the general divisions making up the total maintenance for each hospital. The average daily per capita is also indicated. We believe that the arrangement of this exhibit provides the desired information in such ready form as to render a detailed explanation of same unnecessary. We would, however, call attention to the inclusion, at the bottom of this exhibit of farm and dairy products used. These figures are based upon quantities and values submitted by the farm superintendents at each hospital. We did not attempt to establish the accuracy of the values placed upon these products, but they appear generally to conform to the market values of such products in each locality.

We recommend, though, for the better purposes of comparison, that the board provide a uniform rate of valuation of these products, based, say, upon the average wholesale market for the four seasons of the year.

EXHIBIT "G."—This exhibit shows the average annual per capita cost of food and provisions, arranged according to the principal items, and bringing out the desired information in comparative form similarly to that of Exhibit "F."

NEW ACCOUNTING SYSTEM.—At the request of your Chairman, Mrs. Jos. G. Brown, we are installing a new standardized system of accounting for all the hospitals, including The Caswell Training School at Kinston, upon which we will render separate reports within the next few days. The new system is made uniform for all the institutions, and is based upon the unit cost as far as disbursements are concerned. This plan is greatly simplified, and, if handled according to our instructions, will present the desired information in a much more accessible form.

GENERAL.—The scope of our audit is presented in detail in the separate reports on each hospital, and, therefore, is not treated here, except to say that the receipts and disbursements were audited in detail, and reconciliations made of all State funds and Steward's cash accounts. The records, as a whole, were found to be fairly accurate, but clumsy and inconveniently arranged.

Respectfully submitted,

PULLEN, HENDERSON & COMPANY,

BY A. M. PULLEN.

December 15, 1920.

REPORT

OF

THE STATE HOSPITAL
FOR THE INSANE

AT

GOLDSBORO, N. C.

FROM

DECEMBER 1, 1920 TO JUNE 30, 1922

RALEIGH
EDWARDS & BROUGHTON PRINTING COMPANY
STATE PRINTERS
1922

LETTER OF TRANSMITTAL

To His Excellency, Cameron Morrison,
Governor of North Carolina.

Sir:—I have the honor to transmit herewith the report of the Superintendent of the State hospital for the negro insane at Goldsboro.

This report shows in detail the operations of the institution for a period of nineteen months beginning December 1st, 1920, and ending June 30th, 1922. This was made necessary by the act of the 1921 General Assembly, which changed the end of the fiscal year from November 30th to June 30th.

Appended to this report is a condensed report of the audit made by a representative from the State Auditor's office. The full audit is available for use of yourself and of the committees of the General Assembly.

As has been the custom for years past, except in case of disaster or crop failure, no deficit is reported. While the balance on hand may look large it must be borne in mind that the increased consumption of fuel due to the approaching winter will practically absorb it.

The Board, through its very energetic and painstaking Building Committee expended the appropriation for buildings and improvements with great care and feels that every dollar has been used economically. This appropriation, however, was woefully inadequate to complete the building program. The former State Building Commission saw fit to arbitrarily cut the askings of the Board to such an extent that it was made necessary to go through another winter with an obsolete and wasteful heating plant.

Demand is still pressing for the admission of more patients and it is the opinion of the Board that the amounts asked for by the Superintendent are absolutely necessary to meet this demand.

The Directors appreciate and wish to thank you for the kindly and sympathetic assistance rendered them in the discharge of their duties.

Very respectfully yours,

F. B. McKinne,
Chairman of the Board.

SUPERINTENDENT'S REPORT

Goldsboro, N. C.,
July, 1922.

To the Board of Directors State Hospital at Goldsboro, N. C.

Gentlemen:—I herewith present the report of the operations of this Hospital for the period ending June the thirtieth, nineteen hundred and twenty-two. This report covers a period of only nineteen months, owing to a change made in the law by the last Legislature, whereby the fiscal year of the institutions ends in June the thirtieth, instead of November the thirtieth, as heretofore,

Movement of Population

	Male	*Female*	*Total*
Patients on roll, November 30, 1920	392	608	1000
Patients admitted during past 19 months	244	272	516
Total number treated	636	880	1516
Total number discharged	214	200	414
Number on roll June 30, 1922	421	680	1102
Percentage of cures on number received			37.51
Percentage of deaths on number treated			6.75
Number on roll June 30, 1922			1102
Number present June 30, 1922			1070

We had but little acute sickness among the patients and their general health was better than usual. The only serious accident was the drowning of an epileptic male patient in a nearby river. The coroner was called, but he did not think an inquest necessary.

Improvements

Permanent Enlargement and Improvements from Appropriations of 1921

Contracts were awarded for a new boiler house and stack, electric plant and ice house, cold storage plant, new heating plant, new heating mains for reconstruction heating in old buildings, new water supply and for completing and furnishing Woman's Building. The new building for women, known as Hardesty Building, accommodating one hundred and thirty-seven patients, was opened October 10, 1921, and in a short time every bed was taken.

The boiler house and stack have been completed and three 150 h. p. boilers have been installed and are now in use.

Work on all other contracts is now going on, but improvements will not be completed for several months. Owing to lack of sufficient means, however, a contract for only a part of the equipment for the heating and ventilating systems could be awarded.

Improvements and Repairs from Cash Account

Apartment house for four families was completed and occupied. Carpenter and blacksmith's shop was completed and occupied, the Superintendent's residence, Steward's office and the Administration Building were repaired and painted. New windows were placed in the dairy barn. A shelter for

the cattle and a fence for the enclosure of the bulls have been built, Extensive repairs were made to the spur track.

Ordinary Repairs (most important)

The bake oven was repaired, the bakery steps, storeroom platform and steps were renewed. The male and female court yard fences and shelters were renewed. The wood bridge and porches of Miller Building were replaced with concrete and a concrete floor was put in the dining room in Vance Hall. Replaced fixtures in toilets in wards one, two and three and A, B, C and D.

Ex-Service Men

At the beginning of the term, December 1, 1920, there were twenty-one ex-service men enrolled here, seven others were admitted, making whole number under treatment twenty-eight. Three have been discharged, one escaped and two died. There are now enrolled twenty-two, of which number three are at home on parole.

From data obtained from the Clerks of the Court of the State it is estimated that there are now at least seven hundred colored people who are insane and should be cared for in a hospital. Provision should be made to take care of as many of these afflicted people as possible and I suggest that you request the next Legislature to make provision for at least three hundred and fifty additional beds.

We now have enrolled one hundred and two more patients than we had at the beginning of the term and our wards are badly crowded.

Needs for Next Two Years

For maintenance for 1924	237,300.00
For maintenance for 1924	252,300.00

For Permanent Improvements

1. Balance to complete heating and ventilating systems	$106.000.00
2. Women's Receiving Building (150 patients)	125,000.00
3. Furniture and furnishings	9,000.00
4. Men's Receiving Building (150 patients)	125,000.00
5. Furniture and furnishings	9,000.00
6. Additions to Aycock and McKinne Buildings (50 patients)	50,000.00
7. Furnishings	3,000.00
8. General repairs	20,000.00
Total	$447,000.00

The amount requested for maintenance for the next two years is based on the assumption that we will have an average number of 1,130 patients.

Reports from the heads of the various departments are appended and I refer you to them for detailed accounts.

In closing this report I wish to express my thanks and appreciation to the Board, the officers and employees for their generous support in carrying on the work of the Hospital.

Respectfully submitted,

W. W. FAISON.

REPORT OF THE CLINICAL DIRECTOR

A physical and mental examination has been given each patient as soon as possible after admission and the results recorded.

Our Wasserman tests have been done at the State Laboratory of Hygiene. Salvarsan has been administered liberally to all suspected cases of syphilis, with very gratifying results, 680 doses having been given during the past nineteen months. We have also been giving mercurosol intervenously with very good results. A number of patients have been restored to their normal mental condition under this treatment. Many cases of old chronic ulcered legs in demented cases have been permanently healed under this treatment.

Salvarsan has proved beneficial in a few cases of pellagra, but as a rule it did not seem to do any good. Yeast has seemed to be the most beneficial remedy we have thus far tried in the acute cases of pellagra.

Post-mortems were held for diagnostic purposes on several occasions and the findings duly recorded.

The following work has been done in the pathological laboratory during the past nineteen months:

Urinalysis	2,220
Sputum examinations	730
Blood examinations	211
Urethral and vaginal discharges examined	28
Feces examined	11
Gastric contents examined	4
Blood counts	28
Total	3,232

F. L. WHELPLEY, M.D.,
Clinical Director.

ENGINEER'S REPORT

DR. W. W. FAISON, *Superintendent State Hospital, Goldsboro, N. C.*

DEAR SIR:—I herewith submit the following report as Engineer for nineteen months ending June 30, 1922.

The heat is completed. One set of Buffalo ball bearings placed in laundry decreased the friction; put one washing machine in laundry and took out old washing machine.

Run one line of pipe six hundred feet for supplying slaughter pen and mule barn; run one two and a half inch line for supplying new dormitory. New dormitory was completed August 15, 1921. Renewed pipe under Administration Building with ball cock hangers. Renewed hot coil on ice plant, moving a six-inch hydrant line. Installed a new set of automatic drinking cups. Put up two lights near employees' cottages. Three employees' cottages moved, two of them re-covered. All of the colored employees' cottages underpinned kitchens and porches.

Heating is now under construction for apartment house.

Erie City Engine, ten by ten, has been re-babbitted, new connecting rod bearing. One Moline tractor overhauled with new block and new pistons. Welded cross head and connecting rod on electric pump. Overhauled fire pumps, put in one new brass plunger and sleeves, new set of rubber valves.

One forty-gallon coffee urn has been purchased, also one one hundred-gallon aluminum cook pot. Toledo pipe die, cuts two and a half by four-inch pipe. Five portable Harding Watchman clocks. Overhauled railroad. Put cylinder rings in Corliss engine. Painted the water tank a coat of red lead on inside and a coat of black on outside. One new cord rod put in the laundry to make the laundry sufficient to take care of the capacity of drying. Put up a line of electric lights in tunnel. Bought one small lathe. Bought one drill press. Purchased six hundred feet of two and a half inch standard fire hose. Reels in building have been equipped with new hose.

Respectfully submitted,

W. D. WILLIAMS,
Engineer.

CONDENSED REPORTS ON

AUDITS

OF

THE STATE HOSPITAL
FOR THE INSANE

AT

GOLDSBORO, N. C.

FOR THE PERIODS

FROM DECEMBER 1, 1920, TO JUNE 30, 1921

AND

FROM JULY 1, 1921, TO JUNE 30, 1922

CONDENSED REPORT ON AUDITS

HON. BAXTER DURHAM, *State Auditor,*

Raleigh, North Carolina.

DEAR SIR:—Supplementary to the regular reports of the audits of the State Hospital for the Insane, Goldsboro, N. C., for the seven months ended June 30, 1921, and twelve months, the new fiscal year, ended June 30, 1922, there is presented a condensed report for the two periods in the six Exhibits listed in the attached Contents and the following:

Comments

Fund Balances: The Fund balances at June 30, 1922, and Assets and Liabilities representing such balances are summarized in Exhibit "A."

Permanent Improvement: Exhibit "B" states the balance at December 1, 1920, $12,019,17, the appropriation of 1921, Chapter 165, $300,000.00, and the audited expenditures by months. The balance at June 30, 1922, $93,655.47, is encumbered by contract liabilities amounting to $85,780.50, leaving a clear balance of $7,874.97.

Maintenance: Exhibit "C" sets forth the unexpended balance at December 1, 1920, and the portions of Appropriations made in Chapter 86 of 1921, applicable to the periods under review, the audited expenditures by months and balances.

Sundry Receipts: Exhibit "D" is a statement of Sundry Receipts and Disbursements for the nineteen months. This is also known as Steward's Cash and under law is disbursed at the discretion of the Executive Board.

Per Capita Cost: Exhibit "E" is a statement of the per capita cost of Food Items and Exhibit "F" of Maintenance for the periods.

Farm and Dairy products consumed are noted in value and per capita cost, as a memorandum, at the end of Exhibit "E." This is not included in costs proper, since the Costs of producing are included in Maintenance as "Farm and Dairy."

Conclusion: The Audits are reported fully and in detail in the separate reports for each period. All Receipts and Disbursements were audited in detail and all State Funds and Sundry Receipts properly reconciled.

Respectfully submitted,

S. G. GARDNER & COMPANY
By S. G. Gardner, C. P. A.

October 28, 1922.

REPORT

OF

THE STATE HOSPITAL

AT GOLDSBORO

GOLDSBORO, N. C.

JULY 1, 1922, TO JUNE 30, 1924

RALEIGH
BYNUM PRINTING COMPANY
STATE PRINTERS
1924

LETTER OF TRANSMITTAL

To His Excellency, Cameron Morrison,
Governor of North Carolina.

Sir:—I have the honor to transmit herewith the report of the Superintendent of the State Hospital for the negro insane at Goldsboro. This report shows in detail the operations of the institution for a period of two years beginning July 1, 1922 and ending June 30, 1924. Appended to this report is a condensed report of the audit made by a representative of the State Auditor's office. The full audit is available for use of yourself and the committees of the General Assembly.

As has long been customary with this institution, no deficit has been reported, it being the policy of the management to always live within the income provided by the State.

During your administration, and especially during the last two-year period, our Building Committee under the wise and energetic leadership of its Chairman, Captain Nathan O'Berry, has wrought so wisely and so well that I think it is well and proper to transmit to you also its full report to the Board of Directors. The large sum of nearly $1,000,000.00 has been expended with careful attention to every detail and at the present time, October 1st, every contract has been fully settled and all outstanding bills paid. This is also the case with all accounts whatsoever, and as shown by the Auditor's report we have a surplus in our maintenance account of $3,619.17, which is at the disposal of the State Treasurer under the law. Our building fund shows a deficit of $3,819.18 which has been taken care of by draft on our local funds.

All new buildings are fully completed and occupied, yet our waiting list grows. The criminal insane have been removed from the State Prison, but the number was sufficient to tax our capacity to the limit. In fact, it was only by the practice of the most rigid economy that room was provided for the full number. Therefore it is the opinion of the Board that the request for funds made by our Superintendent is deserving of the most careful consideration of the Budget Commission and the incoming Legislature.

The Directors wish to thank you most cordially for the patient and kind consideration you have given our requests, for advice and assistance, and for the sympathetic interest manifested in our efforts to render a real service to the unfortunate of our State.

Very respectfully yours,

F. B. McKinne,
President of the Board.

SUPERINTENDENT'S REPORT

Goldsboro, N. C.,
July, 1924.

To the Board of Directors, State Hospital at Goldsboro, Goldsboro, N. C.

Gentlemen:—In compliance with the law I herewith submit the report of the Superintendent for the period of two years, ending June 30, 1924.

Movement of Population

	Males	*Females*	*Total*
Remaining June 30, 1922	421	630	1101
Admitted	346	370	716
Total under treatment	767	1050	1817

Number on roll June 30, 1924	480	743	1223
Number present June 30, 1924	472	729	1201
Percentage of cures on number received			25.63
Percentage of deaths on number treated			8
Daily average on roll 1922-23			1136
Daily average present 1922-23			1103
Daily average on roll 1923-24			1198
Daily average present 1923-24			1156

The health of the patients during the term was very good. We had an epidemic of chicken pox, but comparatively a small number of patients contracted it.

All patients are protected against smallpox and typhoid fever by vaccines.

In November, 1922 a patient, while returning from the court yard, received a blow on his head by another patient from the effects of which he died. The coroner and the family of the stricken patient were notified at once.

The institution was crowded throughout the term and many applications could not be accepted. The opening of the extension of McKinne Building, in March, 1924, gave us forty-five additional beds for men and the opening of two wards in the new building for women, in June, gave us 137 additional beds for women. The latter building is now practically completed and will furnish accommodation for 200 patients. Our male wards are now full to capacity and a new building for men is necessary. No males can now be admitted except as vacancies occur.

The building for Criminal Insane is now also nearing completion and will be ready for the admission of patients about the first of September.

The two old frame buildings now used for male and female tubercular patients should be torn down and new ones erected at a more desirable location.

The old barn for mules is now not only dilapidated and unsafe, but is a fire menace and should be torn down and a new barn erected at a location far removed from the buildings now occupied by patients.

Our dairy barn is too near the Hospital and is too small for our increasing herd. I would suggest that a new barn be erected at a more desirable location.

The crops for 1923, as a rule, were good, but the excessive rain of this year, followed by a prolonged drought, has damaged the growing crops to the extent of many thousand dollars.

Of the twenty-two ex-service men in this institution, who were cared for by the Government, sixteen were transferred to a Government Hospital at Tuskegee, Alabama, and one sent home by the Veterans' Bureau, five are still here. The hospital was receiving $2.00 a day for the care and treatment of these ex-service men but all payment for their care was stopped on November 1, 1923.

Changes in Medical Staff

After more than twenty-five years of the most faithful and efficient services Dr. Clara E. Jones, an assistant physician in this Hospital, resigned January 23, 1923.

Dr. H. B. Brackin, Assistant Physician at Kings Park State Hospital, Kings Park, New York, accepted the position made vacant by Dr. Jones, but resigned January 20, 1924 to accept a position in the State Hospital at Meridian, Mississippi.

Dr. C. B. Morris of Goldsboro was secured to take the position made vacant by Dr. Brackin's resignation. Dr. Morris has had several years of general practice and is a well equipped physician.

Dr. J. C. Senter who accepted the position of dentist came here on August 1, 1923, but resigned February 1, 1924 to accept a position with the State Board of Health.

Dr. L. V. Henderson of Goldsboro, accepted the position June 1, 1924 made vacant by the resignation of Dr. Senter.

Permanent Enlargement and Improvement

Extensive enlargements and improvements were made during the two years. For a detailed account of all permanent enlargements and improvements I refer you to the report of the Building Committee to be presented to you at this meeting.

Reports of heads of departments are attached.

Needs for the Next Two Years

For maintenance for 1925-26	$259,355.00
For maintenance for 1926-27	264,405.00
For maintenance for criminal insane for 1925-26	30,000.00
for maintenance for criminal insane for 1926-27	30,000.00

For Permanent Improvement

For building for men	$150,000.00
For building for tubercular colony	100,000.00
For additional wing to criminal insane building	25,000.00
For furniture and equipment for above building	15,000.00
For mule and dairy barn and equipment	50,000.00
For appropriation to pay loan authorized by Council of State to purchase furniture	15,000.00

Distinguished Visitors

During the term the Hospital was honored by a visit from Governor Cameron Morrison and Secretary of State W. N. Everett.

In conclusion I wish to express to the Board of Directors my great appreciation of their continued confidence and help in carrying on the work of the institution.

I also wish to thank the officers and employees for their loyal support so faithfully rendered me.

Respectfully submitted,

W. W. FAISON,
Superintendent.

REPORT OF THE CLINICAL DIRECTOR

Dr. W. W. Faison, *Superintendent State Hospital, Goldsboro, N. C.*

Dear Sir:—I herewith present the following report of this department:

All patients have been given a thorough mental and physical examination as soon as possible after their admission, and the results recorded.

Special attention has been given to the diagnosis and treatment of syphilis. Over twelve hundred doses of Salvarsan and five hundred doses of Neo-Salvarsan besides mixed treatment and other anti-syphilitic remedies were administered during the past two years. The result of this treatment on both the mental and physical condition of the patients has been very gratifying.

We have had very little pellagra during the past two years. Outside the usual well balanced diet yeast seemed to be the only remedy which proved beneficial in all cases.

A large number of patients, especially females, were found infected with round worms. Both oil of chenepodium and santonine were used in their treatment with a result that santonine was found to be the more convenient and equally as efficient as the chenopodium.

A systematic examination of the feces of all patients has been inaugurated, using the centrifuge and precipitation methods. So far hook worm infection seems to be quite rare among our patients, only six cases were found in two hundred examinations. These were treated with sodium tetra chloride with good results.

Post mortems were held for diagnostic purposes on several occasions and the findings duly recorded, and a number of pathological specimens prepared and mounted.

The following work has been in the pathological laboratory during the past two years:

Urinalysis	3,126
Sputum examinations	782
Blood examinations	321
Urethral and vaginal discharges examined	20
Feces examined	421
Blood counts	11
Pathological specimens prepared and mounted	8
Total	4,689

Respectfully submitted,

F. L. Whelpley, M.D.,
Clinical Director.

REPORT BUILDING COMMITTEE

GOLDSBORO, N. C.,
September 8, 1924.

DR. W. W. FAISON, *Superintendent and Board of Directors, State Hospital, Near Goldsboro, N. C.*

GENTLEMEN:—Supplementing our report of April 9th, 1924, concerning the activities of the Building Committee, we beg to submit the following information to you:

You will recall that the Legislature of 1921 appropriated $300,000.00 for the completion of what is known as the Hardistee Building and the erection of a new Power House Plant, for a battery of six boilers, necessary engines, pumps, etc. Also for the remodeling of the entire heating system in the Administration and other buildings.

As this appropriation was not sufficiently large to complete the work laid out by the engineers for which this $300,000.00 was appropriated, the work was only partially completed. We had to wait until the Legislature of 1923 convened. This Legislature appropriated $313,000.00 for the completion of the Power Plant Building and the installation of boilers and machinery for an entire new heating system for the Administration and other buildings. This appropriation also covered the erection of a Woman's Receiving Building and the extension of the McKinne Building.

After this money became available, the Committee let contracts for the work and it has all been completed and accepted by them and paid for.

In addition to the above, the Legislature of 1923 appropriated $50,000.00 for the erection of a Criminal Insane Building. The contract was let for this building and it has been completed and accepted by the Committee and is now ready for the occupancy of the criminal insane.

One of the crying needs of this institution was a new kitchen. The old kitchen and its equipment had become totally inadequate to take care of the present population, and as the institution had several thousand dollars in a local cash fund, the Committee, on the approval of Dr. Faison, the Superintendent, let contract for the erection of this new kitchen. This building is completed and is modern, up-to-date and convenient and will be a great factor in caring for properly the unfortunates for which this institution is to care.

The Building Committee urges the Board of Directors to carefully inspect all the new buildings, including the kitchen. Also all of the new machinery which has been installed.

Below we give you a summary of the total cost of the different buildings, heating system, machinery, etc.

Power Plant Building, including erection of one brick stack, six boilers installed, two engines, all necessary pumps, new line of water pipe to river with concrete foundation and new ice plant and filtration plant. Also installation of entire new heating system in the Administration and other buildings. $352,066.30.

Total cost for completion of the Hardistee Building	$ 47,238.88
Total cost of Faison and extension to McKinne Building	192,498.40
Brick work shop and two-story apartment house,	19,738.43
Extension of laundry	13,563.16
Garage and employees building	15,330.00
Kitchen building	24,644.69

Addition to fertilizer warehouse	$ 702.22
Cost of female court yard	3,576.14
Cost of male court yard	2,483.37
Cost of remodeling Superintendent's residence	9,586.71
Cost of new cow barn	1,594.20
Alterations to Annex Building	1,273.15
Wire fence around Hardistee Building	3,218.04
Furnishing Hardistee Building	7,517.38
Furnishing Faison Building and extension to McKinne Building	8,611.12
Furnishing kitchen	5,181.21
Cost of Construction of Criminal Insane Building	53,502.93
Furnishing Criminal Insane Building	3,580.20
Total	$765,906.48

Renewals and Replacements

Machinery for laundry	$ 12,365.00
Rebuilding main entrance to Administration Building	9,709.90
Porch to Miller Building	3,283.55
Concrete and steel bridge connecting Miller Building with Main Building	2,961.94
Total	$28,320.39
Grand total	$794,226.87

The Council of State loaned this institution $15,000.00 for Furniture for the Faison Building and the extension to the McKinne Building, Kitchen and Criminal Insane Building.

You will note that we have expended a total sum of $794,226.87 this amount has been expended as follows:

Appropriations of Legislature 1921 and 1923	$663,000.00
Money Loaned the Institution	15,000.00
Cash from Maintenance Fund	28,320.39
Local cash expended	87,906.48
Total	$794,226.87

In addition to the above there has been several thousand dollars spent as follows:

Repairs to Main Building	$ 1,042.99
Repairs to Vance Hall Dining Room	997.35
Toilets for Main Building	3,289.37
New Soap House	323.76
Bull Pen	456.07
Retaining Wall Female Court Yard	716.05
Total	$ 6,825.59

The Building Committee takes great pleasure in attesting to the valuable assistance that has been rendered them by Mr. H. A. Underwood, our Engineer. He prepared the plans and specifications for the Faison Building and the

extension of the McKinne Building. These plans prepared by him included the heating and plumbing systems.

Mr. Underwood has been willing at all times to render this Committee any assistance within his power, and has been of invaluable service to them.

The contract for the Faison Building was given Mr. Walter Clark of Wilmington. The workmanship in this building is most creditable. We regard it as one of the best constructed buildings in the State.

When you consider that for forty years and more, this institution has had practically no money appropriated for construction of new buildings and maintenance of old buildings and machinery, you can readily understand that the condition of the old machinery and buildings, including heating system, was in bad shape when this Board of Directors took charge.

The Building Committee has consulted with Dr. Faison, at all times and as far as possible carried out his views and suggestions as to new buildings and improvements. The one idea of both Dr. Faison and ourselves being to put the institution in the best shape possible with the limited amount of money we had in hand.

Respectfully submitted,
NATHAN O'BERRY,
JOHN D. ROBINSON,
L. M. BLUE,
Building Committee.

ENGINEER'S REPORT

GOLDSBORO, N. C.,

DR. W. W. FAISON, *Superintendent State Hospital, Goldsboro, N. C.*

DEAR SIR:—I herewith submit the following report as Engineer for two years, ending June 30, 1924.

The heating of the apartment house has been completed.

Two large Cascade Washing Machines have been put in laundry and old one taken out, also one small washing machine, of the same type, put in. One Big Six Flat Work Ironer and one Extractor put in. Purchased two body pressers for laundry. Tore up old floor in laundry and put in a concrete floor. The upper story of laundry was changed into a chapel.

Steam heat was put in the chapel and in the new garage building.

Bought one electrical hand drill, and one Toledo Threader, threads pipe from four and a half to eight inches. Bought one Toledo Power Drive and one Power Drive Hack Saw.

Renewed toilets and closets on Seventh Ward, McKinne Building and Miller Buildings. One Latrine Set put in female court yard.

Purchased 1,400 feet of standard line hose, six pick back axes, three nozzles, one tank, 280 gallons, for kerosene oil and two pumps, used the old 280 gallon tank for gas, one pump for gas and one for kerosene. Purchased four oil tanks, barrel size, from Dalton Pump Company, Dalton, Ohio.

Run one ten-inch sewer line from river, taking care of laundry, waste from Boiler House and Criminal Insane Building.

Water tank had one coat of paint on outside.

Run a one-inch steam line to dairy barn.

The colored employees' cottages have had one coat of paint on outside.

The roof of the Administration Building is now under painting.

Plumbing work is now under construction for new kitchen.

One set steel line escape put on McKinne Building and other necessary repairs have been kept up.

Moved into new Power House October 11, 1922.

All the heating system was changed, in the summer of 1923, from Blower System to Radiation System.

Four aluminum cooking pots put in kitchen.

Changed all electrical wiring, outside of building, and changed meters from D. C. current to A. C. current.

Three 150 horse-power boilers were added to Boiler House in 1923.

Respectfully submitted,

W. D. WILLIAMS,
Engineer.

REPORT OF FARM, GARDEN AND DAIRY PRODUCTS

THE STATE HOSPITAL
AT GOLDSBORO

GOLDSBORO, N. C.

COMBINED REPORT ON AUDITS

For the Two Fiscal Years Ended
June 30, 1923, and June 30, 1924

COMBINED REPORT ON AUDITS

HON. BAXTER DURHAM, *State Auditor, Raleigh, N. C.*

DEAR SIR:—Supplementary to the regular reports of the audits of the State Hospital at Goldsboro, Goldsboro, North Carolina, for the fiscal years ended June 30, 1923, and June 30, 1924, there is presented a combined report for the two periods in the following statements:

EXHIBIT "A." *Fund Assets and Liabilities, June 30, 1924.*

EXHIBIT "B." *Permanent Improvement—Appropriations and Expenditures for the Two Years.*

EXHIBIT "C." *Maintenance — Appropriations and Expenditures for Each of the Two Years.*

EXHIBIT "D." *Sundry Receipts—Receipts and Disbursements for Each of the Two Years.*

EXHIBIT "E." *Subsistence (Food Items)—Per Capita Costs for Each of the Two Years.*

EXHIBIT "F." *Maintenance—Per Capita Costs for Each of the Two Years.*

EXHIBIT "G." *Farm and Dairy for Each of the Two Years.*

The audits are reported more fully in the separate reports for each period. The accounts of all the transactions were audited in detail and all State Funds and Sundry Receipts properly reconciled.

Respectfully submitted,

HENRY BURKE,
Certified Public Accountant (La.)

September 6, 1924.
